A Journey of Growth, Innovation and Transformation

Dear Shareholders,

As we reflect on FY 2024–25, it is with immense pride that I share how Blue Dart has continued to evolve and lead amidst a rapidly transforming economic and geopolitical environment. This year has been marked by resilience, determination, and meaningful progress—for both India and Blue Dart. With the country achieving a GDP growth of 6.5%, solidifying its position as the world's fourth-largest economy, we are witnessing an economic narrative driven by stability, strategic policy execution, and inclusive innovation.

India's journey is one of ambition and purpose. The country's rising GDP per capita, strong FDI inflows, thriving export sector, and digital leadership—as recognized by the World Economic Forum—affirm its growing global influence. In the face of global uncertainties, including inflationary pressures and protectionist trade policies, India has

emerged as a beacon of economic resilience and growth.

The logistics sector has been central to this transformation. Government-led initiatives such as PM Gati Shakti, the National Logistics Policy, and record infrastructure allocations have laid a robust foundation for seamless connectivity and multimodal integration. With India's logistics market valued at over US\$ 317 billion in 2024 and expected to reach US\$ 484 billion by 2029, Blue Dart is strategically aligned to support and drive this momentum.

In FY 2024–25, Blue Dart responded with agility and foresight. We strengthened our position as a future-ready express logistics provider through investment in scalable infrastructure, sustainable practices, and advanced technologies. From the launch of India's largest integrated facility at Bijwasan to the deployment of new B737-800 freighters, we have sharpened our operational edge and reaffirmed our commitment to accuracy, reliability, and speed.

In line with our focus on enhancing urban delivery capabilities while staying environmentally conscious, we also partnered with the Delhi Metro Rail Corporation (DMRC). This innovative collaboration leverages metro infrastructure to enable faster, greener intra-city deliveries, helping reduce congestion and emissions while improving last-mile efficiency.

Our performance this year stands as a testament to disciplined execution and our ability to navigate complexity with resilience. Despite global economic headwinds, Blue Dart reported revenue of ₹ 5,720.18 crore and delivered a net profit of ₹ 244.63 crore, maintaining healthy margins. These figures underscore not only our financial strength but also the enduring trust reposed in us by our customers, employees, and stakeholders. The Board of Directors have proposed a dividend of ₹ 25 (Rupees Twenty Five only) per share, subject to necessary approval by the Shareholders at the ensuing Annual General Meeting of the Company.

We continue to focus on customer-centricity, investing in digital innovation to enhance transparency, reduce turnaround times, and deliver superior service. Our expanded retail presence and footprint across Tier I and II cities have enabled us to serve a broader customer base with unmatched reliability.

Sustainability remains a cornerstone of our strategy. As a responsible corporate citizen, Blue Dart is committed to minimizing its environmental impact. Our growing EV fleet, energy-efficient operations, and ESG-driven practices demonstrate our leadership in green logistics. It is an honour to have been recognized as India's Most Sustainable Company in the Transport & Logistics sector by Business World in 2024.

Our people continue to be our greatest strength. Their dedication has shaped Blue Dart into the Provider of Choice, the Employer of Choice, the Green Logistics Partner of Choice, and the Investment of Choice. Our culture, rooted in the values of Passion, Can Do, Right First Time, and As One, continues to inspire excellence and fuel our success.

The year also brought global recognition. From being honoured as India's Top Value Creator in logistics, to receiving accolades across sustainability, service excellence and Legal & Compliance, Blue Dart's achievements have been nothing short of remarkable. A proud moment for all of us was seeing the Blue Dart brand featured on the iconic Nasdaq Tower in New York-a symbol of global recognition backed by domestic excellence. Your Company endeavours not only to comply with statutory

requirements but also follow the principles of good and effective Corporate Governance that lay down a strong emphasis on integrity, transparency and overall corporate accountability.

Looking ahead, Blue Dart remains committed to its Strategy 2030 vision-Accelerate Sustainable Growth. With India's macroeconomic fundamentals strengthening, the logistics sector transforming, and digital technologies reshaping commerce, the future holds extraordinary opportunities. We are poised to capitalize on these, not just by keeping pace, but by setting new standards for innovation, service, and responsibility.

On behalf of the Board and the entire Blue Dart family, I extend heartfelt gratitude to our customers, employees, shareholders, and partners. Your trust fuels our journey. Together, let us continue to shape the future of logistics, driving growth, sustainability, and transformation for India and beyond.

Warm regards,

Mumbai

CSR IMPACT STORIES: Making a Difference

CASE STORIES

Sneha Srimanta Pal: Before joining Blue Edge, Sneha Pal struggled with English and lacked confidence. During her first job interview, she couldn't respond well, and criticism about her communication left her disheartened. Financial constraints had prevented her from learning English properly.

Everything changed when a friend introduced her to Blue Edge. Though her parents were initially hesitant, Sneha convinced them and joined the program. Nervous at first, she was soon encouraged by the warm environment and supportive teachers.

Through simple and engaging lessons, Sneha began speaking English, even delivering a speech, something she never imagined. The life skills sessions helped her overcome negativity, while computer training prepared her for future opportunities.

From being shy and hesitant, Sneha has grown into a confident and empowered young woman. She now feels ready to attend interviews and plans to take up a part-time job to support her family. Sneha credits Oasis India, Blue Dart, and her mentors at Blue Edge for transforming her mindset and skill set. Grateful for this journey, she's excited about the future and committed to continuous growth.

Sharma Nandani Jagdish: My name is Nandani, and I'm grateful for the opportunity to share my journey. Before joining Blue Edge, I struggled with low confidence and was afraid to speak to others. However, the sessions and activities at Blue Edge helped me overcome my fears. With constant encouragement from my teachers, I began participating in team tasks, which made me bolder and helped me make new friends.

I also gained valuable computer skills and saw a big improvement in my English and communication through focused grammar sessions. One of the most impactful lessons came from the life skills session on teamwork. I learned the power of collaboration and how working together helps us achieve more, faster.

Through hard work and dedication, I was honoured with the Best Student Award in Batch 36, a moment of great pride for me and my family. Seeing my growth, my parents have now encouraged me to continue both my studies and career. This has been a life-changing experience, and I'm excited for what lies ahead. I want to say a big thank you to Oasis India and Blue Dart for giving us this wonderful opportunity and these life-changing classes.

Vikas Yadav: Vikas, a determined youth from Delhi and originally from Ramusaran Village in Jharkhand, has overcome significant challenges to build a better future for his family. Born with hearing impairments, Vikas completed his 10th grade from a school for the Deaf in Kalkaji, followed by his 11th and 12th at Lady Noyce School.

Coming from a modest five-member family, he is the only Deaf individual. The pandemic hit them hard as his father lost his job as a driver, forcing the family to return to their village and rely on farming. Despite these setbacks, Vikas stayed focused. A friend introduced him to the Noida Deaf Society (NDS), where he joined the Pre-Employment Training (PET) program.

He balanced his schooling with training, gaining skills in retail, personality development, and communication, which boosted his confidence. With the support of NDS and Blue Dart, Vikas secured a job at Shoppers Stop, earning ₹ 21,025 per month. This opportunity has brought financial stability and hope to his family.

Vikas is deeply grateful for the training and support, which empowered him to enter the professional world. His journey is a testament to how skill development and inclusive support can transform lives.

Bishnu Das: Bishnu, a 20-year-old from a Kolkata slum, lives with his mother and younger sister. After losing his father to illness, the family faced severe financial hardship. To survive, his mother set up a small tea and snack stall near Bondel Gate Bridge, with Bishnu assisting her while taking up catering jobs to fund his education.

Despite completing his Higher Secondary Education, Bishnu realized catering wouldn't offer a stable future. Lacking technical skills, especially in computer applications, limited his job prospects. His turning point came when he enrolled in the Advanced Computer Application course at the HKF Blue Dart Computer Centre. Through the program, Bishnu gained hands-on skills in data entry, Excel, desktop management, and Windows OS.

His hard work and quick learning stood out. After completing the course, he secured a job at Technocon Services as an OMCR Tracking Executive, enabling him to support his family while continuing his higher studies through Open University. Today, Bishnu is a source of pride for his family. His journey reflects resilience, determination, and the transformative power of education in building a better future.

Gopal Khandu Gavit: "I used to think Safed Musli was only for farmers across the border in Gujarat," says Gopal Khandu Gavit, a smallholder from Surgana, a village near the Maharashtra-Gujarat border. "But with Blue Dart and Swades' support, I realized it could work for me too."

For years, Gopal relied on rice and groundnuts, barely earning enough to support his family. In 2024, his journey transformed when he was selected for Blue Dart's Safed Musli cultivation program. He received 50 kg of seed, hands-on training, and ongoing guidance—tools that turned his small plot into a promising venture. His first harvest earned him ₹ 20,000, and he saved 40 kg of dry Musli as seed for the next cycle.

"For the first time, I feel confident that my land can give me the income I only saw others earning," he says. Today, Gopal no longer seeks daily wage work. He speaks with pride, ambition, and a desire to expand. "My children see the change at home, in our meals, and in me." Thanks to Blue Dart, I'm not just farming, I'm building a future.

Borli's Breakthrough: From Burden to Dignity Through Tap Water Access

For decades, Borli village lived in thirst. The village was just meters away from a dam they couldn't access. With no well or functional water source, women and girls walked over 700 meters daily under the harsh sun to fetch water from the river.

The toll was heavy: physical exhaustion, water-borne diseases, and lost time that could have gone to education, farming, or rest. Despite being close to abundance, Borli remained parched with its people trapped in a cycle of survival. That changed when Blue Dart stepped in. Through a transformative intervention, dam water was finally routed to a new well and piped directly into homes. For the first time in living memory, 65 families turned on taps and watched clean, safe water flow freely.

Tears followed not from fatigue, but from joy. Today, women no longer carry pots on their heads, but confidence in their hearts. Children reach school on time, fields show new life,

and the community moves from hardship to hope. This initiative wasn't just about providing water, it was about restoring dignity, improving health, and opening the door to a better future. Today, water flows not only through their homes, but through their lives bringing lasting change and renewed hope.

BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT

Communities	Blue Dart's Code of Conduct is rooted in respect for human rights and fair treatment, applying not only to our employees but also to our suppliers and service partners. The Company has a grievance redressal mechanism through which it receives complaints on the human rights aspects and satisfactorily resolves them. The grievance cell covers human rights issues viz; child labour, forced labour, sexual harassment, discriminatory employment etc.						
Investors (Other than shareholders) and Shareholders	<p>Blue Dart is committed to resolving shareholder and investor grievances promptly—typically within 10 to 12 days—whether received via email, phone, SEBI, stock exchanges, the SCORES portal, or the ODR platform.</p> <p>Shareholders can easily submit their concerns by filling out the form available in the Investor Tool Kit section here: https://www.primeinfobase.in/pages_new/InvestorGrievanceForm.aspx?value=O13MyQclQQPM600MSHCcMw==</p> <p>Details of address for communication is also provided in Corporate Governance section of our Annual Report.</p> <p>During FY 2023-24, 4 Shareholder complaints were received & satisfactorily resolved.</p> <p>During FY 2024-25, 2 Shareholder complaints were received & satisfactorily resolved.</p>						
Employees and workers	<p>Blue Dart makes sure that employee grievances reach management through its grievance redressal mechanism. This redressal mechanism, for employees, covers aspects of human rights issues (child labour, forced/ involuntary labour), discriminatory employment and sexual harassment. The grievance redressal process consists of the following steps:</p> <ol style="list-style-type: none"> Employees fill the prescribed form under the Grievance Redressal Programme ("GRP") and submit to their immediate superior. The grievance is reviewed at the branch level first and if not closed within 7 days, it is forwarded for regional review. If it is not closed within 7 days at the regional level, it is forwarded to the Managing Director for review who, within 7 working days communicates his decision to the Corporate HR & Regional Head for implementation. <p>To nurture the 'People First' philosophy and our group values; 'Respect and Results', Blue Dart implemented the 'Speak Up' culture wherein the stakeholders were provided with a Whistle Blower Platform with DHL hotline number and weblink to raise their grievances.</p> <p>The Company has DHL Platform with hotlines, both telephonic and web-link as under:</p> <ul style="list-style-type: none"> - DHL Hotline Provider (Telephonic) – INDIA +911171816583 - Web based reporting Link : www.dpdhlcompliancehotline.com <p>During the year, the Company introduce Samvaad – The Employee Connect, a new chapter in how we engage, communicate, and grow together at Blue Dart.</p> <p>For years, our Open House has been a platform to connect, share, and listen. Today, it evolves into Samvaad, a more structured and modern initiative that embodies our values of openness, inclusivity, trust, and accountability. Samvaad is more than a name - it is a reflection of who we are as Blue Darters: one team which is committed to listening, understanding and acting on what truly matters to employees. This would help create a workplace that values every voice, fosters trust, and helps Company and employees grow together.</p> <p>During FY 2023-24, 2 employee complaints were received and satisfactorily resolved.</p> <p>During FY 2024-25, 3 employee complaints were received and satisfactorily resolved.</p> <p>Additionally, during the financial year 2023-24, one complaint was received and addressed under POSH and in the FY 2024-25, one complaint was received and addressed under POSH.</p>

			increases landfill dependency, operational inefficiencies, and compliance risks. Adopting responsible waste management practices is vital to maintaining environmental sustainability and operational integrity.	damage. The company has eliminated traditional plastic garbage bags, replacing them with 100% compostable alternatives, significantly cutting down on plastic pollution and landfill dependency. Additionally, it has successfully implemented an in-house composting system that recycles a wide variety of organic waste, including food scraps, sawdust, leaves, and cardboard. The company is also developing a dedicated SOP for managing plastic waste, focusing on systematic collection and its delivery to certified recyclers.	
2.	GHG Emissions and Air Quality (Risk)	Risk	Logistics fleets significantly contribute to greenhouse gas emissions and air pollutants, especially from diesel-powered vehicles. Without adequate emission management, companies may face stricter environmental regulations and increased operating costs. Furthermore, poor air quality management can damage public perception and hinder business relationships with environmentally conscious clients.	Blue Dart is actively transitioning its fleet to cleaner alternatives, notably electric vehicles, to minimize emissions. Its GoGreen initiative has led to the plantation of over 888,000 trees, with an annual commitment to plant 111,000 more—collectively offsetting over 17,760 tonnes of carbon per year upon maturity. The company has also upgraded its air conditioning systems to use R410A refrigerant gas, which has a significantly lower environmental impact. The installation of a 25 KWP rooftop solar plant at the corporate office not only contributes to clean energy generation (11,986.3 kWh) but also reduces operational costs, reflecting the company's dual focus on sustainability and financial prudence. The company has launched its state-of-the-art 2.5 lakh sq. ft. integrated operating facility in Bijwasan, Delhi, powered by 600 kW of solar energy. This low-emission hub enhances multimodal connectivity across North India, reinforcing the company's commitment to innovation and sustainability.	Negative (No instances on negative implication in the FY 2024-25)
3.	Labor Practices Throughout the Supply Chain	Risk	The logistics industry heavily depends on a wide network of contractual and third-party labor for operations such as warehousing, loading/unloading, and last-mile delivery. Ensuring fair labor practices throughout the	Blue Dart undertakes periodic checks to assess third-party service providers' adherence to labor regulations and ethical employment practices. Poor oversight on wages, working conditions, and employment terms among contracted labor can lead to legal liabilities, reputational harm, and operational disruptions.	(SCOC), which includes clauses on minimum wages, prohibition of child labor, and respect for human rights. The company has also initiated a supplier assessment process in alignment with the German Supply Chain Act to enhance transparency and ethical sourcing throughout its value chain.	
4.	Employee Health and Safety	Risk	Logistics employees operate in environments prone to physical hazards—such as manual lifting, prolonged driving hours, and machinery-related risks. Inadequate safety standards can result in workplace accidents, absenteeism, legal liabilities, and higher insurance premiums. Building a culture focused on proactive health and safety measures is essential to ensure workforce well-being and continuous operations.	Blue Dart prioritizes workplace safety by offering continuous training, conducting regular inspections, and ensuring equipment is safe and well-maintained. Protective gear is mandated, and employees are trained in safe handling and operational procedures. Health and safety are embedded into the workplace culture through awareness programs, emergency response drills, and incident tracking systems that promote accountability and continuous improvement.	Negative (No instances on negative implication in the FY 2024-25)
5.	Supply Chain Management	Risk	Global and local supply chains are vulnerable to disruptions from geopolitical events, climate-related incidents, vendor non-compliance, and pandemics. In logistics, such disruptions can cause cascading delays, increased costs, and loss of customer trust. Strengthening supply chain resilience and continuity planning—including diversified sourcing and strategic vendor partnerships—is essential to maintain service reliability.	Blue Dart maintains strict oversight of its service providers through ongoing reviews, and evaluations to ensure environmental and social risks are proactively managed. The company's comprehensive Business Continuity Plan (BCP) includes identifying backup sites for every function and implementing technology such as Contactless Delivery (CLD) to reduce disruption.	Negative (No instances on negative implication in the FY 2024-25)
6.	Accident and Safety Management	Risk	Fleet accidents, road incidents, and breakdowns directly impact delivery timelines, cost structures, and brand reputation. High accident rates can also increase regulatory scrutiny and insurance premiums. Investment in driver safety training, preventive maintenance, and telematics for real-time monitoring can significantly reduce this risk.	Blue Dart has implemented a proactive approach to road safety, including daily 'Performance Dialogues' conducted at the beginning of each shift to reinforce safe driving practices. It is mandatory for all bikers to wear helmets, and violations lead to disciplinary action. Job-specific training equips employees to identify and mitigate hazards in their respective roles. The company maintains detailed incident logs and conducts monthly reviews to address safety lapses. Additional health insurance coverage is provided to	Negative (No instances on negative implication in the FY 2024-25)

				safeguard employees and their families. We have a centralized network control center which monitors the movement of all Ground Network vehicles and alerts in case of any exigencies observed.	
7.	Data Security and Customer Privacy	Risk	The shift to digital logistics solutions has heightened the risk of cybersecurity breaches. Compromise of sensitive customer or shipment data can lead to heavy regulatory penalties, legal consequences, and erosion of customer trust. Implementing robust data governance frameworks and cybersecurity protocols is imperative.	Blue Dart adheres to applicable IT Laws and follows compliant Data Protection Framework and ensures consistent data privacy practices through quarterly compliance reporting to the Board. The Data Protection Officer also contributes to Risk Management Committee discussions. Regular updates to incident and crisis management playbooks help anticipate and respond to potential data breaches. Cybersecurity measures are in place across all operations, supported by stakeholder awareness campaigns and stringent internal controls to protect customer, employee, and partner information. For the year 2025, the Company is pursuing ISO 27001:2022 Information security management system certification. This certification will strengthen data protection and intellectual property safeguards, enhance compliance with industry regulations and standards and will reduce the risk of data breaches while improving our response to security threats.	Negative (No instances on negative implication in the FY 2024-25)
8.	Rising Fuel Costs	Risk	Fuel constitutes a major portion of logistics operational costs. Frequent fluctuations in fuel prices due to global market dynamics directly affect profit margins. Companies lacking fuel-efficient fleet strategies or alternative fuel adoption are more exposed to this volatility, emphasizing the need for fuel management optimization.	Blue Dart applies a Fuel Surcharge Mechanism that allows it to offset the impact of fluctuating fuel prices. This internal hedging model uses the Brent Crude Index as a reference point to periodically adjust surcharges for domestic and regional services. By doing so, the company ensures cost predictability for clients while safeguarding its financial performance.	Negative (No instances on negative implication in the FY 2024-25)

Sr. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
9.	Adoption of Technology	Opportunity	Digital transformation in logistics offers immense potential for enhancing efficiency, traceability, customer satisfaction, and sustainability. Leveraging smart technologies can create a competitive edge while addressing environmental and operational challenges. Recognizing this, Blue Dart has embarked on a comprehensive digitization journey to build an integrated IT infrastructure. This transformation has resulted in a suite of industry-acclaimed initiatives such as 'On-The-Move' (OTM) handheld devices, Retail POS systems, Reverse Logistics (Open and Close), and the enablement of 16 Digital Wallets on courier handhelds. Personalized offerings like the Call Bridge facility further enrich customer interaction. The company is also investing in advanced technologies such as AI, data analytics, use of Metaverse trainings (AR-VR) for interactive/immersive self-learning trainings, Parcel lockers for out-of-home delivery options and drones to enhance last-mile delivery efficiency. Additionally, motion sensors have been installed for LED light fittings, achieving an annual energy savings of 35,442 kWh units and cost savings of ₹4,25,303—reflecting a strong commitment to energy conservation.	NA	Positive
10.	Government Support	Opportunity	The Indian government has introduced transformative initiatives like the National Logistics Policy and the PM Gati Shakti Plan to lower logistics costs and enhance sectoral efficiency. Investments in infrastructure, such as Dedicated Freight Corridors (DFCs), are significantly improving cargo movement speed, connectivity, and multimodal logistics integration. These developments reduce transit time, fuel consumption, and operational costs while enhancing scalability and business competitiveness.	NA	Positive

11.	Green Logistics and Circular Economy Integration	Opportunity	There is a growing demand for environmentally responsible logistics solutions. By incorporating reverse logistics systems, reusable packaging, and carbon-neutral operations, companies can meet sustainability goals and attract eco-conscious customers. These practices also reduce material wastage and provide long-term cost benefits. The adoption of 100% compostable garbage bags by Blue Dart Express Ltd. has yielded positive outcomes in terms of environmental impact and sustainable waste management. This initiative significantly reduces the use of traditional plastic bags, contributing to a decrease in plastic pollution and landfill waste.	NA	Positive
12	Workforce Development and Inclusive Employment	Opportunity	Investing in continuous employee development through training and skill enhancement initiatives can increase job satisfaction, reduce attrition, and boost productivity. Promoting diversity and inclusion fosters a more innovative and collaborative workforce, aligning with global ESG expectations and improving brand reputation.	NA	Positive
13	National and International Geopolitical Tensions	Risk	National and international tensions pose a material risk to Blue Dart by disrupting logistics operations, increasing transit times, raising operating costs, and complicating regulatory compliance. These disruptions can impact service reliability, supply chains, and financial performance, especially due to the company's reliance on cross-border and domestic transportation networks.	To mitigate risks from national and international tensions, Blue Dart diversifies transport routes, strengthen its domestic network, monitor risks in real time, ensure regulatory compliance, implement business continuity plans, and engage with authorities. These steps enhance resilience and help maintain service and financial stability during disruptions.	Negative No financial impact in the FY 2024-25

The nature of activities of the Company does not involve R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts.

2. **a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)**

Yes, Blue Dart takes a proactive approach to sustainable procurement in its transportation operations. Every vehicle sourced from suppliers is thoroughly verified to ensure it has all required documentation—such as a valid Registration Certificate, Fitness Certificate, National Permit, Insurance, and Pollution Under Control (PUC) certificate. We also ensure that all drivers possess a valid driving license.

To further strengthen our governance framework, all vendors are required to comply with the DHL Group's Supplier Code of Conduct for Suppliers and Third-Party Intermediaries, reinforcing our commitment to ethical and responsible sourcing.

- b. If yes, what percentage of inputs were sourced sustainably?**²⁶

At Blue Dart, adherence to the DHL Group's Supplier Code of Conduct for Suppliers and Third-Party Intermediaries is a mandatory requirement for all suppliers. This ensures that 100% of our sourcing is conducted sustainably and in line with our ethical, social, and environmental standards.

3. **Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.**

Some of the plastic products such as canvas bags and plastic bags are used by Operations team as per its durability to use again and again. In case of other wastes, they are disposed of through official waste collector.

4. **Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.**

Leadership Indicators

1. **Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?**

Blue Dart does not engage in any manufacturing or processing activities.

However, we actively manage the environmental impact of our IT assets through a Life Cycle Assessment (LCA) approach. This involves evaluating the environmental effects of IT equipment from procurement to end-of-life disposal. We are committed to the responsible recycling and disposal of electronic waste, with a strong focus on minimizing environmental harm and managing hazardous materials.

To ensure safe and efficient handling, all e-waste is entrusted to certified vendors. IT asset usage and disposal are categorized based on severity and frequency of use. While a CO₂ footprint assessment has not yet been conducted, we continue to strengthen our practices to reduce our environmental impact.

10. Health and safety management system:³³

- a. **Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?**

Yes, the policy applies to everyone working with Blue Dart—including all employees, volunteers, service providers, and consultants - ensuring fair treatment and support for all individuals associated with the company.

- b. **What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?**

At Blue Dart, the health and safety of employees are of paramount importance. The organization is committed to proactively preventing workplace injuries and illnesses through the implementation of robust procedures, advanced technologies, and proven methodologies. Key initiatives include the use of First Choice tools, comprehensive root cause analyses, and routine Gemba Walks to identify and mitigate potential hazards.

To cultivate a culture of safety, Blue Dart offers ongoing training in safe package handling and enforces strict safety protocols, such as mandatory helmet use for two-wheeler riders, safety advisories to all the stakeholders. Daily safety briefings are conducted for field personnel, focusing on safe driving practices and precautionary measures. The company also emphasizes the correct use of safety equipment during shipment handling. This message is reinforced through strategically placed road safety posters at all operational sites.

In our commitment to nurturing a robust Safety Culture, the company actively engages in several significant initiatives, including Organisation Safety Week, National Road Safety Month, and World Safety Day, among other activities. These efforts are meticulously designed to enhance the overall safety well-being of our employees and to embed the principle of SAFETY deeply within their everyday practices.

In addition to physical safety measures, Blue Dart supports employee well-being through one-on-one counseling and feedback sessions that cover various health-related topics. Informative health articles are shared regularly to raise awareness and promote healthy practices. Furthermore, specialized training sessions in firefighting techniques are conducted to enhance emergency preparedness across the workforce.

12. Describe the measures taken by the entity to ensure a safe and healthy work place.³⁵

Blue Dart continues to uphold its strong commitment to employee safety and well-being by building on existing practices and introducing new initiatives during FY 2024–25. In addition to ongoing efforts such as hazard-specific training, mandatory helmet usage, Safety as a key topic in Daily Performance Dialogues, and regular incident monitoring, several progressive measures were rolled out. Regional Safety Officers were appointed across key zones to strengthen on-ground safety governance. Technological enhancements included the deployment of breath analysers at major hubs, a successful POC on telematics to truck driver behavior, and the launch of AR-based training modules for road and traffic safety. Pan-India approvals for wheel chokes at Hubs and PUDs were secured to enhance operational safety. A total of 24 safety incidents were reported, all road-related, with the highest numbers from North and West regions. Training efforts covered 1,256 employees in February 2025 alone. While challenges remain in participation and SOP adherence, upcoming projects like automated training tracking, wider telematics rollout, and safety marshall mapping are underway to drive further improvements. These measures reflect Blue Dart's ongoing dedication to creating a safe, healthy, and responsive work environment.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.³⁷

Blue Dart follows a structured approach to monitoring and reporting all work-related and road accident incidents as part of its routine safety management process. Monthly reports are compiled and reviewed to track trends and ensure accountability.

During our daily Performance Dialogues, we engage in meaningful discussions regarding any incidents that may have arisen, with a strong emphasis on implementing prompt corrective and preventive measures. Each recordable incident is subjected to a comprehensive investigation to uncover its root causes. The risk factors identified during these investigations are thoroughly re-evaluated, and we diligently put in place the necessary corrective and preventive actions to ensure such incidents do not recur.

This consistent practice of incident analysis and course correction contributes to a safer, more stable, and resilient work environment for all employees.

Leadership Indicators

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N).³⁸

In line with Blue Dart's People First philosophy and its unwavering commitment to employee welfare, the company has established a Death Benevolent Fund. This fund is a collective effort, supported by contributions from both the company and its employees, aimed at providing financial assistance to the nominee of an employee in the unfortunate event of their untimely death during employment. DBF covers employees up to certain grades. Employees in higher grades are covered under a separate Term Life Insurance Policy, where the sum assured is paid directly by the insurance company to the nominee.

Additionally, Blue Dart has put in place a separate group insurance policy to specifically cover accidental deaths that may occur during work-related transit, such as road accidents.

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

Blue Dart recognizes that the sustainability of its business is deeply rooted in the strength of its value chain, which is essential to our operations. To ensure this, we follow the Supplier Code of Conduct from our parent group, along with agreements with our value chain partners, which outline mandatory criteria that all suppliers must meet to do business with us. Our suppliers and partners are required to comply with all relevant laws and regulations, ensuring a responsible and sustainable approach across the entire value chain.

3. Provide the number of employees / workers having suffered high consequence work- related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment:

4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/ No)

On a case-by-case basis, Blue Dart offers extension or retainership opportunities to its employees. These arrangements come with flexible work options, providing employees with the adaptability to balance their professional and personal commitments.

5. Details on assessment of value chain partners:

The DHL Group Supplier Code of Conduct (SCOC) outlines the mandatory standards that all our suppliers and value chain partners must adhere to in order to engage in business with us. This code reflects our commitment to conducting business responsibly, transparently, and sustainably. It provides clear guidance on the ethical conduct we expect from our suppliers, and we expect all of them to uphold these principles.

In the coming years, Blue Dart plans to develop a formal mechanism for assessing the performance and sustainability of our entire value chain, further strengthening our commitment to responsible business practices.

6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

As outlined in the Supplier Code of Conduct (SCOC), Blue Dart reserves the right to assess compliance with its requirements through methods such as self-assessments and audits, conducted either by Blue Dart or a third party. We expect our suppliers to continuously improve by setting measurable targets related to areas like environmental impact, working conditions, and diversity, and to regularly report progress on sustainability initiatives.

If a breach is identified, the supplier is required to submit an incident report along with a corrective action plan. If the supplier fails to address and resolve the breach, Blue Dart reserves the right to terminate the commercial relationship with the supplier.

Principle 4

Businesses should respect the interests of and be responsive to all its stakeholders

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.³⁹

At Blue Dart, stakeholder engagement is focused on understanding the needs of our stakeholders and developing strategies to meet these expectations. We uphold the "right-to-know" principle, ensuring that all stakeholders have access to the information required by corporate governance standards. Our commitment is to build relationships based on dialogue, trust, and the core values of transparency and honesty.

Our key stakeholders include employees, customers, suppliers, investors, civil society organizations, consumers, government institutions, and regulatory bodies.

In identifying and engaging with stakeholders, Blue Dart aims to:

- Systematically recognize stakeholders who are impacted by or influence the company's operations.
- Identify and prioritize stakeholders, especially vulnerable or marginalized groups.
- Train our staff to engage sensitively with external stakeholders and understand their concerns.
- Foster stakeholder development through ongoing education and knowledge sharing.
- Encourage active participation in sustainability efforts.
- Address any issues with stakeholders fairly and impartially.
- Ensure transparency and accountability regarding the impact of our decisions, policies, and operations.
- Provide an effective grievance redressal mechanism to resolve concerns.
- Clearly communicate strategic decisions and seek input on future company plans.

Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.⁴¹

Since our founding, Blue Dart has cultivated a culture rooted in values, ethics, and integrity. Our commitment to Corporate Governance is steadfast, driven by our belief in achieving business excellence while creating value for shareholders, customers, employees, and business partners. We know that by making a meaningful contribution to the economy, we can have a lasting positive impact on society.

Our corporate governance framework is a reflection of our culture, policies, and the relationships we maintain with our stakeholders. We are dedicated to maintaining the highest standards of transparency, accountability, integrity, and responsibility, aligning with both local regulations and global best practices.

Feedback on environmental, social, and economic issues is carefully reviewed by our Board of Directors, with guidance from key committees such as the CSR and Risk Management Committees. These committees oversee, monitor, and steer our efforts in social responsibility and sustainability, ensuring we continue to evolve in line with the expectations of our stakeholders and the wider community.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.⁴²

At Blue Dart, we recognize that in today's fast-paced and constantly evolving world, stakeholder consultation is essential. We actively engage with relevant platforms to leverage their expertise and gain support in addressing key environmental and social challenges.

We understand that collaborating with stakeholders not only deepens our insights into emerging issues but also allows us to draw from diverse perspectives and innovative solutions. Through open dialogue and strong partnerships, we aim to create a meaningful impact and drive positive change in the communities where we operate.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.⁴³

Blue Dart's Corporate Social Responsibility (CSR) initiatives are dedicated to uplifting disadvantaged, vulnerable, and marginalized communities. Our programs are structured under the pillars of GoTeach, GoGreen, and GoHelp, with a focus on addressing the needs of underprivileged students, people with disabilities, women, and senior citizens. We concentrate on areas such as education, preventive healthcare, women's empowerment, sanitation, and waste management.

In line with DHL Group's core mission of "Connecting People, Improving Lives," Blue Dart's CSR efforts are built on strong collaborations with project partners, stakeholders, beneficiaries, and local communities. By effectively managing both human and natural resources, we work to foster social, economic, and environmental progress, creating lasting positive change for those who need it most.

Through GoTeach, Blue Dart works to bridge the gap between formal education and employment, focusing on empowering youth from underprivileged backgrounds. We offer skills training in areas such as IT, communication, personality development, and life skills through programs like Blue Edge, equipping them with the tools they need for a brighter future.

With GoHelp, we collaborate with organizations to meet critical community needs. This includes supporting a childcare home for children battling cancer, providing clean drinking water in water-stressed villages, and organizing free eye check-up camps and cataract surgeries for the elderly.

Guided by a strong commitment to ethical principles, environmental standards, and international guidelines, Blue Dart actively engages with stakeholders to align our activities with their social and environmental expectations.

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Blue Dart is committed to being a responsible corporate citizen, ensuring that any concerns or grievances raised by stakeholders are addressed promptly and effectively. The responsibility for managing human rights-related matters within the organization rests with the Human Resources (HR) function, which oversees and responds to such issues in line with our commitment to ethical and fair practices.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues⁴⁷

Blue Dart aligns with DHL's Human Rights Policy Statement as part of its broader commitment to ethical business practices. This policy complements our Code of Conduct and reflects our adherence to key international standards, including the ten principles of the UN Global Compact, the Universal Declaration of Human Rights, the ILO's Declaration on Fundamental Principles and Rights at Work, and the OECD Guidelines for Multinational Enterprises.

In the event of any actual or potential human rights risks arising from our operations, we follow a clear protocol to assess the situation and take appropriate corrective actions—whether that means modifying, halting, or addressing the activity.

Employees are encouraged to report any suspected human rights violations through multiple channels, such as local management, the HR department, or the Compliance Hotline. External stakeholders, including third parties, can also raise concerns using the web forms available at www.dpdhl.com.

⁴⁶The above calculations are in accordance with Part B, Attribute 6 of the Industry Standards Note (December 2024) on the Business Responsibility and Sustainability Report (BRSR) Core, jointly issued by ASSOCHAM, CII, and FICCI, pursuant to Regulation 34(2) of the SEBI (LODR) Regulations, 2015, and as per SEBI Circular No. SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122.

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases⁵⁰

Blue Dart has put in place robust policies to ensure a safe, respectful, and ethical workplace. These include a Whistle-Blower Policy, a Prevention of Sexual Harassment (POSH) Policy, and a Human Rights Policy Statement.

Incidents related to sexual harassment are handled by a dedicated Internal Committee, which ensures prompt action, protects the well-being of the complainant, and maintains strict confidentiality throughout the process. Concerns raised under the Whistle-Blower Policy are reviewed by an Ethics Committee, which investigates and addresses the matters with integrity and fairness.

9. Do human rights requirements form part of your business agreements and contracts?⁵¹

Yes, Blue Dart ensures that all business contracts clearly mandate compliance with applicable labour laws, including the provision of fair wages and timely payment of statutory dues by our suppliers and business associates.

⁴⁸SDG Targets aligned through effective redressal of workforce grievances

SDG 8.8 Protecting labour rights & promoting safe & secure working environments for all workers, including migrant workers, in particular women migrants & those in precarious employment

SDG 16.6 Developing effective, accountable & transparent institutions at all levels

⁴⁹The above calculations are in accordance with Part B, Attribute 6 of the Industry Standards Note (December 2024) on the Business Responsibility and Sustainability Report (BRSR) Core, jointly issued by ASSOCHAM, CII, and FICCI, pursuant to Regulation 34(2) of the SEBI (LODR) Regulations, 2015, and as per SEBI Circular No. SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122.

BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT

This requirement aligns with the DHL Group's Supplier Code of Conduct, which is an integral part of our supplier and partner agreements, reinforcing our commitment to ethical, responsible, and legally compliant business practices across our value chain.

10. Assessments for the year:⁵²

	% of your plants and Offices that were assessed (by entity or statutory authorities or third parties)
Child Labour	The Company's Human Rights Policy Statement augments the DHL Group's Code of Conduct, which serves as the foundation and standard for all guidelines and regulations promoting responsible and ethically impeccable behaviour across the Group. Over the past year, social audits encompassing these domains were carried out by entities within the DHL Group.

11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 9 above.

Not applicable as we have not come across any significant concerns from assessments conducted at our plant and offices.

Leadership Indicators

1. Details of a business process being modified / introduced as a result of addressing human rights grievances/ complaints

All our business processes are human rights compliant, hence no process was modified or introduced separately for human rights grievances or complaints.

2. Details of the scope and coverage of any Human rights due-diligence conducted.⁵³

The DHL Group's Human Rights Policy Statement applies to all employees across divisions globally, setting clear expectations for respectful, lawful, and ethical conduct in interactions with colleagues, partners, and communities. We also expect our business partners to share this commitment and to extend it throughout their own operations and value chains.

Our dedication to human rights is reflected in key policies, including the Code of Conduct and the Supplier Code of Conduct. To ensure alignment with international standards, local laws, and DHL Group guidelines, we carry out thorough due diligence. This helps us identify, assess, and address potential or actual human rights risks within our operations and supply chain.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

We recognize the importance of complying with the Rights of Persons with Disabilities Act, 2016, and are actively working to improve our infrastructure to better support the needs of individuals with disabilities. These efforts reflect our ongoing commitment to creating a more inclusive and accessible environment for everyone.

4. Details on assessment of value chain partners:⁵⁴

	% of value chain partners (by value of business done with such partners) that were assessed
Sexual Harassment	Blue Dart is dedicated to raising awareness among members of the supply chain to ensure adherence to relevant laws and regulations concerning labour and employment. This encompasses human rights and fair labour practices, child labour, gender diversity, wages, working hours, health and safety, anti-bribery and corruption, and environmental concerns.
Discrimination at workplace

⁵⁴SDG Targets aligned through assessment of Value Chain Partners on human rights aspects

SDG 5.2 Eliminating all forms of violence against all women & girls in the public & private spheres, including trafficking & sexual & other types of exploitation

SDG 8.7 Taking effective measures to eradicate forced labour, end modern slavery & human trafficking & secure the prohibition & elimination of the worst forms of child labour

SDG 8.8 Protecting labour rights & promoting safe & secure working environments for all workers, including migrant workers, in particular women migrants, & those in precarious employment

SDG 16.2 Ending abuse, exploitation, trafficking & all forms of violence against & torture of children

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

In cases where departures from the principles set out in Blue Dart's Code of Conduct for Suppliers are identified, which also include breaches of stated human rights principles, the Blue Dart team engages with the supplier to determine how sustainable corrective actions can be implemented in an appropriate timeframe. If attempts to enact such improvements persistently fail, Blue Dart retains the authority to end the business relationship and gradually discontinue the supplier.

The measures for improvement include:

- Instituting an age verification process when hiring new employees.
- Ensuring employees receive at least the legal minimum wage.
- Providing all applicable benefits such as PF, ESI, Leave, and Bonus to those employees who are eligible.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.⁵⁸

Blue Dart's Commitment to Environmental Sustainability

Blue Dart is actively advancing its sustainability agenda through initiatives that reflect our deep commitment to environmental responsibility. One of the key areas under exploration is the implementation of Zero Liquid Discharge (ZLD) technology—a progressive solution aimed at eliminating liquid waste discharge from our facilities.

Complementing this effort, we have installed rainwater harvesting systems across several locations to capture and store rainwater, reducing our dependence on conventional water sources and supporting local water conservation. Additionally, we have adopted water tap aerators, which reduce water consumption by mixing air with water flow—an efficient and eco-friendly solution that aligns with our broader water conservation goals.

These actions go beyond regulatory compliance; they demonstrate Blue Dart's proactive approach to environmental stewardship. By integrating innovative and responsible practices into our operations, we are setting new standards in sustainability and contributing meaningfully to the well-being of our communities and ecosystems. At Blue Dart, sustainability is not merely a target—it is a guiding principle that shapes our journey toward a greener future.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes⁶²

Blue Dart Express Limited is committed to implementing a structured and sustainable waste management system that minimizes its environmental footprint while ensuring compliance with all applicable regulations. The company adopts a segregation-at-source approach, where waste is categorized into wet and dry waste, biodegradable and non-biodegradable waste, hazardous waste, and electronic waste. Segregation bins are strategically placed across all operational areas including offices, warehouses, and logistics hubs to facilitate responsible disposal.

⁶²SDG Targets aligned through effective waste management practices adopted

SDG 8.4 Improving progressively, global resource efficiency in consumption & production & endeavor to decouple economic growth from environmental degradation, in accordance with the 10-Year Framework of Programmes on Sustainable Consumption & Production

SDG 11.6 Reduction in the adverse per capita environmental impact of cities, including by paying special attention to air quality & municipal & other waste management

SDG 12.4 Achieving the environmentally sound management of chemicals & all wastes throughout their life cycle, in accordance with agreed international frameworks, & significantly reduce their release to air, water & soil in order to minimize their adverse impacts on human health & the environment

SDG 12.5 Reducing waste generation through prevention, reduction, recycling and reuse

Risk Management disclosure – c) Describe how processes for identifying, assessing & managing climate-related risks are integrated into the organization's overall risk management.

Metrics & Targets disclosure – c) Describe the targets used by the entity to manage climate-related risks & opportunities & performance against targets.

BUSINESS RESPONSIBILITY & SUSTAINABILITY REPORT

Daily waste collection is carried out by trained personnel under the supervision of authorized contractors, and all collected waste is transferred to a designated central waste area within the premises. Disposal is conducted strictly through licensed and government-approved vendors, particularly for sensitive categories like hazardous waste (e.g., used DG oil, batteries, fuel filters) and e-waste (e.g., obsolete computers, storage devices). Biodegradable waste such as food remnants and tissues is either composted or sent for eco-friendly treatment.

To promote sustainable practices, Blue Dart actively implements the 'Reduce, Reuse, Recycle' (3R) framework. This includes reducing paper usage through digitization and double-sided printing, reusing packaging materials like cardboard boxes and bubble wrap, and recycling items such as paper, plastic, glass, and metal through certified recyclers. Employees are encouraged to adopt sustainable habits, and regular training is conducted to reinforce waste-handling protocols.

The Administration, Maintenance, and IT departments are responsible for overseeing the waste management process, ensuring accurate documentation of waste volumes, disposal methods, and vendor credentials. These departments also ensure compliance with regulatory requirements, including registration and reporting for handling potentially hazardous waste. Routine audits and assessments are carried out to monitor performance and identify areas for continuous improvement.

In alignment with its long-term sustainability vision, Blue Dart seeks to collaborate with NGOs, municipal bodies, and industry partners to enhance its waste management efforts. The company aims to move towards zero-waste-to-landfill targets and explore advanced technologies such as waste-to-energy in the future, reinforcing its commitment to environmental stewardship and operational excellence.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

Sr. No.	Location of operations/offices	Types of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
The Company does not have operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required.

		b) Blue Dart has successfully integrated a 25 KWP rooftop solar system at its facility, with the solar hardware installation carried out by Becquer Energy Pvt. Ltd. The project was commissioned in October 2023, boasting a planned DC/AC capacity of 25 kWP/25 kW, utilizing solar panels with a wattage of 545 Wp. The system comprises 46 modules of the M PERC Axitec 545 model. This solar initiative is projected to save an impressive 742.5 tons of CO ₂ emissions over a span of 25 years, emphasizing Blue Dart's commitment to sustainable and eco-friendly practices. This not only showcases the company's dedication to renewable energy but also contributes significantly to its environmental stewardship goals, aligning with a broader vision of reducing carbon impact and fostering a greener future.	The integration of a 25 KWP rooftop solar system at Blue Dart has yielded commendable environmental and financial outcomes. This sustainable initiative has led to a substantial reduction of 11,950.4 kg in CO ₂ emissions, demonstrating the company's commitment to mitigating its carbon footprint. Additionally, the solar power plant has generated 11,986.3 kWh of clean and renewable energy, contributing significantly to the company's green energy portfolio. Beyond environmental benefits, the solar initiative has translated into tangible financial savings, with ₹ 93,773/- saved in electricity costs. This dual impact underscores Blue Dart's dedication to both environmental sustainability and financial efficiency, showcasing the positive outcomes of its commitment to renewable energy adoption.
2	Installation of water aerators	The recent incorporation of water aerators in our corporate facility exemplifies our commitment to water conservation. Strategically placed on faucets, these devices efficiently regulate water flow by introducing air, resulting in a controlled and eco-friendly usage. This initiative not only aligns with our sustainability goals but also promotes a more conscientious approach to water management within our workplace, reflecting our dedication to responsible environmental practices.	This eco-conscious initiative has resulted in a noticeable reduction in overall water consumption. The controlled and regulated water flow achieved through the aerators not only contributes to cost savings but also aligns with our environmental goals by promoting responsible water management. This outcome underscores the efficacy of adopting simple yet impactful measures in fostering a more resource efficient and environmentally friendly workplace.
3	Light House Project New Initiative :- Motion/Occupancy Sensor Installation	A ground-breaking energy-saving initiative has been implemented through the installation of motion sensors for LED light fittings in our premises. This cutting-edge system operates with remarkable efficiency by automatically turning off luminaires in the absence of detected motion or occupancy. Specifically, the use of LED tube and round LED fittings, with a total power consumption of 31,758 watts, exemplifies our commitment to sustainable practices. This innovative motion sensor technology not only enhances operational efficiency by promptly responding to occupancy but also results in significant energy savings, potentially reducing electricity consumption by up to 30%. Through this initiative, we are actively contributing to a more energy-efficient and environmentally conscious workspace.	The introduction of motion sensors for LED light fittings has proven to be a highly effective energy-saving measure. With an annual reduction of 35,442 kWh units, this initiative has translated into significant cost savings of ₹ 4,25,303. On a monthly basis, the energy saved equates to ₹ 35,442, highlighting the consistent and impactful outcomes of this program. This not only reflects our dedication to sustainability but also underscores the financial benefits derived from this innovative energy-saving installation.
4	Usage of 100% compostable garbage bags	BlueDartExpressLtd.proudlyembracesenvironmental responsibility by exclusively using 100% compostable garbage bags. This initiative reflects our commitment to sustainable practices, offering an eco-friendly alternative to traditional plastic bags. Made from organic materials, these compostable bags contribute to reducing plastic pollution and landfill waste, aligning our operations with green and responsible	The adoption of 100% compostable garbage bags by Blue Dart Express Ltd. has yielded positive outcomes in terms of environmental impact and sustainable waste management. This initiative significantly reduces the use of traditional plastic bags, contributing to a decrease in plastic pollution and landfill waste. By choosing compostable bags made from organic materials, we are actively promoting responsible

This environmentally conscious step aligns with our commitment to sustainability and sets a positive example for eco-friendly practices within the logistics industry. Through the use of compostable garbage bags, we are playing our part in creating a greener and more sustainable future.
5	Practice of Composting	The Admin Department at Blue Dart Express Ltd. has spearheaded an impactful initiative through in-house compost making, aimed at reducing and recycling organic waste generated within our premises. By repurposing damaged planters as compost pits, we have successfully diverted various organic materials, including vegetable and fruit peelings, eggshells, newspapers, cardboard, fallen leaves, plant pruning's, sawdust from in-house carpentry work, and tea and coffee grounds from the pantry.	The in-house composting initiative led by Blue Dart Express Ltd.'s Admin Department has yielded positive outcomes in terms of waste reduction and environmental sustainability. By recycling a diverse range of organic materials, including vegetable and fruit peelings, eggshells, newspapers, cardboard, fallen leaves, plant pruning's, sawdust from in-house carpentry work, and tea and coffee grounds, we have successfully diverted substantial waste from landfills. The compost produced from these efforts not only improves soil quality but also supports plant growth, contributing to a healthier local ecosystem. This initiative showcases our commitment to circular economy practices, building resilience in our communities and minimizing our environmental footprint through responsible waste management.
6	GoGreen Programme	As part of its "GoGreen" initiative, the Company has launched targeted environmental conservation efforts, including tree plantation programs that not only promote ecological sustainability but also support the livelihoods of tribal communities in Odisha and Maharashtra, as well as rural populations in Gujarat, Andhra Pradesh, Tamil Nadu, and other parts of the country.	Through its "GoGreen" initiative, the Company has made meaningful progress in environmental conservation, having planted 888,000 trees to date. This initiative is reinforced by the annual plantation of 111,000 trees, which, upon maturity, collectively offset approximately 17,760 tonnes of CO ₂ emissions each year. These efforts not only support the sustainable development of tribal and rural communities in regions such as Odisha, Maharashtra, Gujarat, Andhra Pradesh, Tamil Nadu, and others, but also contribute to climate change mitigation by enhancing green cover and promoting carbon sequestration. The Company's ongoing investment in tree plantation highlights its long-term commitment to environmental sustainability and positive community impact.
7	Rainwater harvesting	Blue Dart has embraced a proactive environmental initiative by incorporating rainwater harvesting systems across its facilities. This strategic move aligns with the company's commitment to sustainable practices and responsible water management. Through the implementation of rainwater harvesting, Blue Dart aims to harness and utilize rainfall for various purposes, reducing dependency on conventional water sources and mitigating the impact on local water resources. This initiative not only reflects the company's dedication to environmental stewardship but also demonstrates a conscious effort to contribute to water conservation and sustainable business practices within its operational footprint.	Blue Dart's rainwater harvesting initiative has yielded positive outcomes by reducing reliance on conventional water sources. This strategic move not only contributes to substantial water conservation but also results in cost savings for the company. Beyond the financial implications, the initiative showcases Blue Dart's commitment to sustainability and responsible water management practices, reflecting a proactive approach to environmental stewardship.

8	Using R410A refrigerant gas in Air conditioners	Blue Dart has embraced an eco-friendly initiative by adopting R410A refrigerant gas in its air conditioning systems. This strategic move is aligned with the company's commitment to environmental sustainability and responsible business practices. R410A, known for its lower environmental impact compared to traditional refrigerants, helps reduce the company's carbon footprint. This initiative not only aligns with industry best practices but also showcases Blue Dart's dedication to minimizing its environmental impact, contributing to a greener and more energy-efficient operational model.	The adoption of R410A refrigerant gas in air conditioning systems by Blue Dart Express Ltd. has yielded positive outcomes, contributing to both environmental sustainability and operational efficiency. This eco-friendly initiative has resulted in a lower carbon footprint compared to traditional refrigerants, aligning with the company's commitment to responsible business practices. By choosing R410A, Blue Dart has not only reduced its environmental impact but has also positioned itself as a leader in adopting sustainable technologies within its operations. The outcome reflects the company's proactive approach to minimizing its ecological footprint and promoting a more environmentally conscious business model.

5. Does the entity have a business continuity and disaster management plan?⁶⁶ Give details in 100 words/ web link.

Blue Dart has established a comprehensive Business Continuity Plan (BCP) to ensure the uninterrupted functioning of all critical operations during times of crisis. The BCP outlines detailed protocols for maintaining essential activities, including the identification of backup sites for each critical function. A thorough threat assessment exercise was conducted to identify potential risks, and functional managers (process owners) were actively involved in developing specific continuity plans for their respective areas. These plans are based on mutually agreed assumptions and are reviewed biannually to ensure ongoing relevance and effectiveness.

The effectiveness of Blue Dart's risk management framework was validated during the COVID-19 pandemic. As an essential service provider, the company operated seamlessly throughout the lockdown by swiftly activating its contingency and continuity protocols. Senior leadership conducted daily review calls to ensure sufficient manpower, vehicles, and aircraft were available to maintain uninterrupted delivery services across the country.

Blue Dart's people-centric approach played a crucial role in navigating the crisis. Employees, partners, and frontline workers, including couriers, drivers, hub staff, and the aviation team, demonstrated remarkable resilience and commitment. To safeguard frontline staff and customers, Blue Dart pioneered Contact Less Delivery (CLD). Additionally, special task forces and clearly defined SOPs ensured agile and coordinated responses during challenging times. The company also supported the government's Lifeline Udan initiative, facilitating the transport of PPE kits, ventilators, and COVID-19 testing equipment both domestically and internationally.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

No, Blue Dart does not currently conduct formal assessments of its value chain for environmental impacts. However, the company ensures that its operations and partnerships are managed responsibly to prevent any adverse impact on the environment arising from its value chain activities.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

The Company is actively evaluating the integration of its value chain partners into its broader decarbonisation strategy. Looking ahead, Blue Dart aims to collaborate closely with its value chain to advance shared sustainability goals and drive collective progress in reducing environmental impact.

8. How many Green Credits have been generated or procured:

- By the listed entity: Nil
- By the top ten (in terms of value of purchases and sales, respectively) value chain partners: Nil

Note: Currently, no such market has been established in India. In January 2025, the Bureau of Energy Efficiency (BEE) introduced a draft framework for the Carbon Market. The public consultation process has been completed, but the framework is yet to be officially announced for trading implementation. However, Blue Dart Express Limited has demonstrated its commitment to environmental sustainability by voluntarily redeeming 17,465 International Renewable Energy Certificates (I-RECs) through ACT Commodities BV. These certificates represent 17,465 MWh of electricity sourced from renewable energy, specifically hydroelectric power.

PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.⁷⁰

At Blue Dart, our customers' success is our success. We understand that meeting customer needs and exceeding expectations is key to our growth and long-term sustainability. That's why everything we do—our strategies, operations, and innovations—is guided by a deep understanding of what our customers want and what the market demands.

Customer focus isn't just a principle—it's woven into the fabric of our daily work. We know that the way we conduct ourselves ethically, socially, and environmentally, along with the quality of our service, is how we're ultimately judged. By striving for excellence across all these areas, we aim to build strong customer trust, lasting goodwill, and a reputation we're proud of.

To ensure we stay connected to customer feedback, Blue Dart has put in place a structured grievance redressal system. Customers can raise concerns through any channel—phone, email, social media, or in writing. Every complaint is logged in our CARESS platform, which stands for Complaint Appreciation, Resolution & Evaluation to Satisfaction System. This ensures that every issue is tracked, addressed, and followed up on until the customer is satisfied.

In FY 2023–2024, we handled over 3,587.62 lakh domestic and 6.47 lakh international shipments, resolving 99.99% of all registered complaints. During the latest reporting year, those numbers grew to over 3,766.92 lakh domestic and 5.72 lakh international shipments—with the same impressive 99.99% resolution rate.

We are dedicated to safeguarding the information of our clients, partners, and employees. As a premier logistics provider, we employ robust Information and Cyber Security protocols to secure our global operations. Our endeavors aim to avoid operational interruptions and damage while complying with pertinent legal requirements. Safeguarding information is key to achieving the DHL Group's ambition of being the preferred provider, employer, and investment. This commitment ensures that we fulfill customer expectations, sustain investor confidence, and pursue growth across established and emerging markets while keeping employee data private and secure.

In today's data-driven business landscape, the application of advanced information and communication technologies and the integration of data flows are vital to Blue Dart's processes. Protection of personal data—for customers, employees, shareholders, and business partners—is increasingly crucial in a complex atmosphere where so much reliance is placed on protection of data that businesses gather and manage. It's essential to clarify what information we collect, how we utilize it, and the details we disclose.

Data privacy is paramount for individuals to whom it pertains, and our Data Privacy Policy aims to establish uniform and robust data protection standards. These standards are designed to comply with legal mandates and provide adequate safeguards for individuals in our internal handling of personal data, encompassing information such as names, addresses, contact numbers, email addresses, educational backgrounds, licenses, and login credentials.

Net Promoter Scoring for FY 2024-25- 76.11

At Blue Dart, delivering exceptional customer experiences is more than a goal—it's embedded in everything we do. We follow a continuous improvement framework called 'First Choice', which fosters a strong customer centric culture across the organization. This initiative is based on Six Sigma plus Lean principles and tools to help us identify and define problems, deep dive into root causes and develop sustainable solutions.

To better understand the voice of our customers (VOC) and to serve them better, we use the Net Promoter Approach to measure our Net Promoter Score (NPS). The VOC feedback gathered through the NPS survey helps us understand the customer sentiment and zero in on key improvement areas. These insights are translated into Critical to Customer (CTC) elements—essential service aspects that directly impact customer satisfaction and are worked on for resolution.

This strategy is relentlessly pursued to achieve best in class customer satisfaction. Blue Dart's brand loyalty which is indicative of customer devotion to the brand, surpasses that of its competitors. The brand is synonymous with global standards, dependability, trust, advanced technology, a robust approach to corporate social responsibility, and a commitment to customer focus.

ESG: AMBITION TO ACTION 2024-25

Blue Dart, as an organization, has always believed that, all of us, no matter who we are, where we live, or what we do, can contribute to the cause of sustainability. It enhances our standard of living, safeguards the environment, and conserves natural resources for coming generations. It's a legacy we have and Blue Dart is dedicated to making improvements to it.

Our four bottom lines - becoming Employer, Provider, Investment of Choice and Green Logistics of choice - all incorporate sustainability. Our goals are to steadily boost our profitability while further integrating social and environmental concerns into our daily operations. For Blue Dart, Environmental, Social and Governance (ESG) is an ethically driven business process that Blue Dart is committed to adhere to at all times. Its goal is to further the company's motto of "Connecting People, Improving Lives." The company has demonstrated a strong dedication to its principles, ethics and integrity through its governance system, People First philosophy, and environmentally friendly Initiatives.

We can't create a lasting positive impact unless we follow a clear strategy, in line with our group Strategy. Our roadmap to sustainability focuses on meeting three key commitments:

- Clean operations for climate protection
- Great company to work for all
- Highly trusted company

In addition to the above commitments, we also aim to create lasting impact in the communities we operate in through our Go Programs.

In an attempt to go beyond the legal obligations of reporting and explaining the actions undertaken by the Company through the Business Responsibility and Sustainability Report ("BRSR") reporting mechanism, the Company believes it is essential to map out its past and present in accordance with internationally recognized ESG principles such as UNSDGs, GRI, and IFRS S1 and S2 and have a futuristic vision for a sustainable business.

“Leading the logistics industry into a climate-neutral future is a Herculean task to which we as the Group's management team, have given top priority. In addition to long-term decarbonization goals, what counts most is what we can do in the here and now - in a pragmatic and goal-oriented manner” - Tobias Meyer, CEO, DHL Group

We are dedicated to integrating sustainable practices throughout our business operations, ensuring that we not only meet our customers' needs but also make a positive impact on the environment and society. By investing in our diverse workforce, we empower our employees to excel. Our commitment to the planet fuels eco-friendly initiatives that reduce our carbon footprint and promote responsible resource utilization. Through these sustainable practices, we ensure that our business drives meaningful change and creates lasting value for all stakeholders.
- Balfour Manuel, Managing Director, Blue Dart Express Ltd.

ESG HIGHLIGHTS 2024-25

For energy used in its offices around the nation, the Company has redeemed 20,996 MWh of green electricity through the international Renewable Electricity Certificate (iREC).

The company makes it possible for all of its vendor partners to start paperless transactions through its digital vendor portal, which reduces energy consumption, CO₂ emissions, deforestation, protects the natural habitat, and increases the chances for local inhabitants to earn a living from the forest. The UNEP officially recorded this launch.

The Company has 549 EVs as on end of FY 24-25 in its fleet; moving towards a transition to more economical, environmentally friendly and cleaner supply chain.

The Management System of Blue Dart has been approved by LRQA (Lloyd's Register Quality Assurance) to adhere to the standards set forth by ISO 14001:2015. This certification acknowledges the Company's commitment to environmental management and sustainability practices, including the monitoring and reduction of its carbon footprint.

Blue Dart has implemented an in-house composting program aimed at diminishing and repurposing organic waste produced on-site. By returning nutrients and carbon to the soil, we enhance soil quality, foster plant growth, and bolster resilience in our local ecosystem and communities. Our initiative recycles approximately 3 to 4 kilograms of waste daily, yielding a minimum of 6 to 7 kilograms of dry compost per batch every three months.

Installation of Motion sensors for LED light fixtures automatically deactivates luminaires in the absence of detected presence. By promptly turning off lights in unoccupied areas, this technology facilitates significant electricity savings, estimated to reach up to 30%. 35,442 kWh units of electricity saved per year.

Harvesting system to preserve water, reduce carbon footprint, and enhance cost-effectiveness. This system minimizes reliance on municipal water, conserves groundwater, and mitigates storm water runoff, promoting sustainable living and environmental conservation. Furthermore, Blue Dart HQC's switch to solar panels reflects its commitment to sustainability, reducing carbon emissions and aligning with global climate goals, while offering cost savings and contributing to a cleaner environment.

Installation of water aerators in the Corporate facility exemplifies Blue Dart's commitment to water conservation. Strategically placed on faucets, these devices efficiently regulate water flow by introducing air, resulting in a controlled and eco-friendly usage. This initiative not only aligns with the sustainability goals but also promotes a more conscientious approach to water management within the workplace, reflecting Company's dedication to responsible environmental practices.

THE GO JOURNEY!

Go Green!

Plantation of 1,11,000 fruit trees in the fields of small and marginal farmers in the states of Maharashtra, Haryana, Uttarakhand, Karnataka, Andhra Pradesh, Telangana, Assam, West Bengal, Tamil Nadu and Rajasthan - which shall offset 2,220 tons of CO₂ per year on maturity, approximately.

Go Teach!

Training on employability skills which include Basic English Communication, Computer Literacy and Life Skills/ Personality Development to over 700 young adults from marginalized group.

Go Help!

CARBON FOOTPRINT

The Company has achieved a **47% carbon efficiency** in FY 2024-25 compared to the base year 2008; through route optimization, load optimization & introduction of e-vehicles in our fleet.

We have also installed LED lights, water sensor taps, digitized processes to reduce paper consumption, decrease in printing (NSG) copies, etc.

CLIMATE RELATED FINANCIAL DISCLOSURES

The following four voluntary climate-related financial disclosures, which are intended to assist stakeholders in recognizing and mitigating substantial risks, are being adopted by the company as part of its alignment process with the ISSB S2:

- **Governance** – The Company regularly adjusts to best practices for climate-related risks and opportunities and provides comprehensive disclosures of the organization's governance process.
- **Strategy** – For both actual and potential effects of risks and opportunities on the business, the company has robust internal controls. This helps Blue Dart in operationalization of financial planning and implementation of risk reduction strategy. The interested parties receive regular disclosure updates on the topic.
- **Risk Management** – The Company is recognizing, evaluating, and managing climate-related risks in every way possible in all the business activities.
- **Metrics and Targets** – In its ESG Journey, the Company is investigating the disclosure of metrics and targets used to detect, assess and manage climate-related risks in a more proactive manner, as shown in the report.

SOCIAL MEDIA IMPRESSIONS

Aside from the legally required disclosures to regulators, the company has maintained open communication with its stakeholders regarding organizational developments. It has established strong connections with these platforms through media mentions, brand mentions, educational posts, and substantial user traffic.

“Blue Dart has been awarded the Best Use of Social Media in Marketing at the Global Brand Excellence Awards 2023.”

The company has taken significant strides in climate protection by achieving an impressive 47% CO₂ efficiency improvement in 2024, exceeding its 40% target and setting a strong foundation for its 2050 climate goals. This accomplishment reflects its dedication to operational excellence and sustainability, demonstrating how innovation and strategic planning can reduce carbon footprints across the value chain.

The company hosted a thought leadership interaction featuring Balfour Manuel, Managing Director of Blue Dart, in conversation with Financial Express. The discussion focused on advancing green and sustainable logistics in India, addressing demand variability, and strengthening supply chain resilience.

The Company bagged the Rank 1 in the prestigious India's Most Sustainable Companies 2024 for its effort award by BW Sustainability World.

The company, under its “GoGreen” pillar, partnered with SankalpTaru Foundation to plant over 888,000 trees over the span of 8 years, across 12 states, supporting rural livelihoods and environmental sustainability. This large-scale initiative will offset more than 17,760 tonnes of CO₂ emissions per year on maturity, contributing not only to environmental sustainability but also to the socio-economic well-being of communities that depend on these ecosystems.

The company marked Zero Emissions Day by reaffirming its commitment to sustainability through the GoGreen program and deployment of 549 electric vehicles. This fleet includes 376 two-wheelers, 80 three-wheelers, and 93 four-wheelers. Blue Dart has also experimented with 10 E-Cargo Cycle in Mumbai in congested areas where accessibility is restricted for vehicles. This gives a productivity improvement along with reduced carbon emissions.

Recognizing the importance of water resource management, the company has invested in building a substantial water harvesting capacity of 6.77 crore liters. This initiative helps conserve water, recharge groundwater tables, and support local agriculture, aligning with broader sustainability goals and climate adaptation measures.

The company has launched its state-of-the-art 2.5 lakh sq. ft. integrated operating facility in Bijwasan, Delhi, powered by 600 kW of solar energy. This low-emission hub enhances multimodal connectivity across North India, reinforcing the company's commitment to innovation and sustainability.

Since 2008, the company's “Go Teach” initiative has transformed the lives of 6,248 young individuals by supporting education, skill development, and mentorship. This program reflects the company's commitment to social upliftment and its role in shaping brighter futures for underprivileged youth.

The company organized a community volunteering initiative focused on empowering young adults by sharing essential business and logistics skills. Through this purpose-driven engagement, employees contributed their expertise to build brighter, more self-reliant futures.

The Company launched “UBUNTU I BELONG”. Under this initiative, the company undertakes to employ and to offer opportunities to Differently Abled.

The company was honored by The Economic Times as one of the Best Organizations for Women, reaffirming its dedication to fostering an inclusive and diverse workplace. This recognition highlights its ongoing efforts to empower women across all levels of the organization.

The company conducted a mentorship session under its Empowering Lives program at the Blue Edge Centre in Nallasopara, Maharashtra. Savio Mendonca, Head - Internal Audit & Risk Management, guided 52 underprivileged youth on life skills, resume building, and interview preparation.

The company launched Global Volunteer Day (GVD) 2024, encouraging employees to participate in volunteer activities from September 16 to 29, 2024. GVD is now a year-long initiative, aiming to inspire collective efforts to make a positive societal impact.

The company organized a Blood Donation Drive, encouraging employees to participate in this noble cause and contribute to saving lives. This initiative aimed to foster a spirit of community and social responsibility among employees.

The company hosted a stall in collaboration with the National Association of Disabled Enterprises (NADE), showcasing a collection of handmade umbrellas crafted by individuals with special abilities. This initiative offered employees the opportunity to support the cause by purchasing high-quality, unique umbrellas, contributing to empowering talented artisans.

The “Go Help” program extends support beyond the workplace by assisting underprivileged families, providing free and hygienic accommodation for children affected by cancer, and supporting elderly patients undergoing surgeries. Additionally, the program contributes to water conservation efforts in water-stressed communities, demonstrating a holistic approach to community well-being.

The company prioritizes the health and safety of its workforce through robust safety protocols, achieving a Lost Time Injury Frequency Rate (LTIFR) of 0.7 between April 2024 and March 2025. By managing incidents and ensuring rigorous safety training, it fosters a culture where employees can work confidently and safely.

The company and its senior management actively engage in knowledge immersion programs through collaborations with industry associations, forums, and expert bodies. These initiatives help stay abreast of emerging trends, regulatory developments, and best practices, fostering continuous learning and informed decision-making.

The company's Corporate Affairs function is deeply aligned with India's dynamic regulatory environment, ensuring compliance with laws and regulations while anticipating changes that impact the business. This proactive approach helps build trust and credibility with stakeholders.

DIRECTORS' REPORT

REVIEW OF PERFORMANCE

The global economic environment in FY 2024–25 was defined by significant global and domestic challenges, shaped by mounting geopolitical tensions, persistent inflation, volatile foreign exchange and elevated interest rates. The imposition of tariffs by the United States on major economies, and retaliatory measures by key trading partners such as China and the European Union, resulted in significant headwinds for global trade.

Despite these global headwinds, India's economy showcased resilience and India's growth trajectory remains robust driven by strong domestic demand, sustained public infrastructure investment, a resilient services sector and achieved GDP growth of 6.5% in FY 24-25.

In a year marked by shifting global economic conditions, your Company has showcased impressive resilience and strategic insight, solidifying its position as a leader in India's logistics sector. Despite challenges such as rising interest rates and increased operational costs, the company exceeded expectations, further reinforcing its status as 'Provider of Choice' for customers, the 'Employer of Choice' for talent, the 'Green Logistics Provider of Choice', and the 'Investment of Choice' for stakeholders.

Your Company's focus in FY 2024-25 was on delivering consistency, maintaining service quality, and enhancing its offerings with significant investments towards its aviation capabilities and infrastructure. Your Company's performance highlights the adaptability of our diverse B2B and B2C solutions, which have been instrumental in meeting India's evolving logistics needs. This year's successes underline our ability to effectively respond to market shifts, driven by disciplined execution and operational excellence. Through consistent growth and long-term value creation, we continue to reinforce our role as a trusted partner for all stakeholders.

Strategic investments in service excellence, innovative products and scalability, and development with sustainability remain central to building a future-ready logistics ecosystem. By focusing on enhancing efficiency, we provide seamless and reliable solutions across the country. From optimizing multimodal transport to integrating sustainable initiatives in a cost-effective manner, Blue Dart is dedicated to creating a logistics network that not only addresses immediate business needs but also contributes significantly to India's sustainable development goals. Our strategic investments have been key to Blue Dart's growth trajectory. Significant resources have been directed towards capacity expansion, digitisation and digitalization, and process automation. The deployment of two B737-800 aircraft during the 2024-25 fiscal year has notably enhanced our operational capacity, enabling us to meet growing customer demand with greater efficiency.

A customer-centric approach remains at the heart of Blue Dart's success. By prioritizing service excellence and consistently exceeding customer expectations, we have captured substantial market share across our diverse service offerings. This commitment to customer satisfaction has solidified our market leadership, earning lasting trust

and loyalty from customers and fuelling continued growth.

Our achievements have been widely recognized within the industry and beyond. It is a matter of pride that Blue Dart was named India's Top Value Creator for 2024 in the transport and logistics sector, besides earning other prestigious awards, citations and accolades.

Looking ahead, Blue Dart is positioned for industry leadership, continued growth, and success. With our resilient performance, strategic investments, customer-centric approach and emphasis on growth, we are well-equipped to capitalize on emerging opportunities and navigate future challenges. By focusing on operational excellence, innovation, and customer satisfaction, Blue Dart remains a symbol of success in India's transport and logistics sector, consistently raising industry standards.

Our team has been instrumental in building business resilience amid global disruptions and uncertainty, consistently embodying our core values of Passion, Can Do, Right First Time, and As One. With dedicated freighters in the air and an extensive network on the ground, Blue Dart continues to deliver exceptional multi-modal service across India's vast and diverse geography. Throughout the year, Blue Dart handled over 3,766.92 Lakhs domestic shipments and more than 5.72 Lakhs international shipments weighing more than 13,39,800 tonnes during the financial year ended 31 March 2025.

Technology and digitalization remain key industry trends, especially given their rise during post the Covid-pandemic. Blue Dart has maintained its leadership in technology and continues to invest in its infrastructure to create differentiated delivery capabilities, quality services, and customized value-based solutions for customers. The Company has led transformative digital initiatives to enhance customer experience and operational efficiency. We focus on technology-enabled mobility solutions for returns, ensuring error-free operations and improved service quality.

What truly sets Blue Dart apart is not just its infrastructure, but its diverse and skilled workforce, which drives the Company's operational efficiency. Together, our team supports a wide range of sectors, including eCommerce, Pharmaceuticals & Medical Devices, Banking Financial Services and Insurance, Consumer Electronics, and Automotives. By addressing the unique needs of these sectors, Blue Dart has become an essential partner in the growth of businesses across the country.

Throughout the year, Blue Dart focused on Learning and Development (L&D) initiatives, as well as Diversity & Inclusion (D&I) programmes. Staying true to its 'People First' philosophy, Blue Dart cultivates a culture of meritocracy and development-oriented people management, while prioritizing employees' health and safety.

Blue Dart has an impeccable service record, driven by a motivated and passionate team, with numerous awards as a testament to its excellence. As a responsible corporate entity, Blue Dart continues to contribute to societal development and environmental causes that support and nurture the communities in which it operates.

DIRECTORS' REPORT

In response to the growing importance of Environmental, Social, and Governance (ESG) issues in India, Blue Dart has integrated these three values in a balanced and harmonious way into its operations. The Company's governance framework reflects a strong commitment to creating value for its stakeholders and making a significant contribution to the economy. Through its culture, policies, and relationships with stakeholders, Blue Dart is dedicated to ethical business practices and sustainable growth.

During the year, your Company delivered consistent and good profitable performance through its agile business model which reinforces your Company's position as the investment of choice, showcasing its resilience and capacity to thrive even in challenging environments.

Income from operations of the Company reported for the financial year ended 31 March 2025 is ₹ 5,72,018 Lakh as compared to ₹ 5,26,783 Lakh for the year ended 31 March 2024. Your Company posted a profit after tax of ₹ 24,463 Lakh for the year ended 31 March 2025, on a standalone basis as compared to a profit after tax of ₹ 28,864 Lakh for the financial year ended 31 March 2024.

Your Company, over the last 41 years, has centred its business around providing tailored value-based customer solutions to ensure exceptional service quality. Blue Dart continued to be resilient and displayed exemplary service quality and excellence with high benchmarks and standards in all aspects of business. Blue Dart is an undisputed market leader in the express logistics industry in India and continues to remain one of the most innovative, admired and awarded logistics companies of India.

With a dedicated air and ground network enhanced with cutting-edge technology, your Company continues to be the South Asia's premier air and integrated transportation, distribution and logistics Company. It offers a wide range of innovative and simplified solutions across the industry verticals coupled with dedicated air and ground network, high standard technology architecture, value pricing, customer satisfaction, excellent service quality and operations delivery par excellence.

E-commerce has revolutionized the global marketplace with unmatched convenience. India's e-commerce sector has witnessed exponential growth in recent years, driven by advancements in technology, increasing internet penetration, large and growing middle-class in urban and rural India, and a shift in consumer preferences towards online shopping. The e-commerce sector in India is thriving due to several factors, including increased smartphone adoption, large population, rising affluence, and affordable data prices, all fueling the growth of e-retail. India is the world's second-largest internet market.

Since joining the DHL Group in 2005, Blue Dart has played a pivotal role in driving growth, particularly in the dynamic and rapidly expanding eCommerce sector. Its ability to provide tailored delivery solutions with high service standards has earned it the trust of customers across industries. The Company's unique selling points include exceptional service quality, extensive network penetration into India's heartland, and unmatched speed, ensuring shipments are delivered on time, every time. These strengths have made Blue Dart a preferred partner

for businesses looking to meet the demands of an evolving market.

The government has played an integral role in fostering the growth of India's e-commerce sector. Visionary initiatives viz; 'Open Network for Digital Commerce' (ONDC), Digital India, development of enabling infrastructure in the hinterlands, including multi-modal logistics parks and warehouses, and promotion of MSMEs (Micro, Small, and Medium Enterprises) have created a conducive environment for digital businesses to scale. Furthermore, supportive policies for logistics, payment systems, and supply chain management have helped improve the overall efficiency of e-commerce operations in the country.

As the Indian economy continues to grow and evolve, the importance of efficient and effective movement of goods is vital. In today's interconnected world, shipping and logistics is essential to the growth of the economy, serving as crucial gateways for international trade and commerce.

Blue Dart provides the most efficient solutions to the e-commerce industry and customers with a seamless and unique experience. To enable digital payments, Blue Dart enabled 16 (sixteen) digital wallets on the courier hand-held machines apart from acceptance of credit / debit cards.

Blue Dart's online presence on 'social media' platforms through its official Facebook, Twitter, YouTube, LinkedIn, and Instagram pages reached an impressive audience base and is rapidly gathering followers, creating a stream of Customers who are ardent advocates of brand and influence a positive opinion in the new age media platforms.

Blue Dart continues to be certified with ISO 9001 Quality Management Standards since 1996 and has successfully re-certified itself in August 2023 for 3 (three) years to global ISO 9001:2015 standard for design, management and operations of the countrywide express transportation and distribution services within the Indian sub-continent and international destinations serviced through multinational express companies.

On the environment front, the Company accomplished ISO 14001:2015 Environment Management System Certification (for office-based activities related to management and operations of countrywide express transportation and distribution service of goods at Head office and Regional Offices) in the year 2022-23 and implemented an environment policy. From 2023-24 onwards, the Company also started extending its scope to logistics in a phase wise manner and will be accomplishing logistics certification across the country by 2025.

For the year 2025, the Company is pursuing ISO 27001:2022 Information security management system certification. This certification will strengthen data protection and intellectual property safeguards, enhance compliance with industry regulations and standards and will reduce the risk of data breaches while improving our response to security threats.

Blue Dart continues to drive "First Choice" and "Net Promoter Approach" ("NPA") initiatives, enhancing process improvements, customer centricity and service quality.

OPERATIONS REVIEW

Blue Dart offers secured and reliable delivery of consignments to over 56,400 locations in India. Being part of the World-renowned DHL Group, Blue Dart accesses the largest and most comprehensive express and logistics network worldwide through DHL, covering over 220 countries and territories, and offers an entire spectrum of distribution services including air express, freight forwarding, supply chain solutions, customs clearance etc.

Blue Dart operates with its fleet of six Boeing 757-200 and two Boeing 737 freighter aircraft, offering a payload of 500+ tonnes per night, a flotilla of over 12,000+ vehicles, 2,284 facilities, and 549 e-vehicles across 56,400 locations in India. Over 12,600 passionate and trained 'Blue Darters' work in perfect harmony to deliver over 30 shipments every second. Our team of talented 'Blue Darters' are fully committed and proudly dedicated to delivering 'service excellence' and value for all its esteemed customers.

The Company continues to focus on innovation, reach expansion, improvements in transit time, activation of emerging towns (Tier-II, III and IV) and strengthening distribution channels to enhance reach and strives to keep delivering beyond expectations of its stakeholders.

The Company carried over 3,766.92 Lakhs domestic shipments and over 5.72 Lakhs international shipments weighing more than 13,39,800 tonnes during the financial year ended 31 March 2025.

FACILITIES / INFRASTRUCTURE

Blue Dart has 2,284 facilities / hubs / offices across India. Blue Dart plans to further strengthen and consolidate its air and ground infrastructure, expand its reach and offer the 'best-in-class' transit times.

Aviation System

Your Company has an 'Aircraft Crew Maintenance Insurance' ("**ACMI**") contract with Blue Dart Aviation Limited ("**BDAL**"), India's first domestic

scheduled cargo airline in the Country. BDAL is the wholly owned subsidiary of the Company for dedicated air carriage capacity which has been a key differentiator in sustaining the Company's leadership position through its unique aviation network.

During the year, BDAL posted an excellent 'On Time Performance' of 82.59% and 'Technical Dispatch Reliability' of 99.16% for the B737-800 fleet and 99.29% for the B757-200 fleet. BDAL uplifted 1,08,549 tonnes on its network for the year ended 31 March 2025. BDAL operated 164 additional flights and 731.45 flight hours supplementing the scheduled night operations.

BDAL, the longest-serving private cargo airline in India, proudly marks 28 years of scheduled domestic operations. With a strong and reliable air network, your Company continues to play a vital role in connecting major cities across the country. During the year under review, BDAL achieved several strategic milestones in line with its long-term vision. A significant highlight was the expansion into the North-East region of India, where a new operational gateway was established. This move enhances regional connectivity and positions your Company to tap into the growth potential of emerging markets in the area.

In a major development, BDAL re-entered the international charter segment with renewed vigour. Charter services were launched from Delhi and Bengaluru to key international destinations such as Bahrain, China and Vietnam. This marked BDAL's first substantial expansion in international charter operations since the onset of the COVID-19 pandemic, signalling a resurgence in global connectivity and enhanced aircraft utilisation.

Further, BDAL has continued to advance its commitment to social development and environmental sustainability. The airline implemented a range of industry-recognised fuel optimisation practices across its network, resulting in notable reductions in fuel consumption. As part of its forward-looking initiatives, the Company is awaiting regulatory approvals to introduce 'Taxi-bot' technology for its Boeing 737 fleet. This innovative system allows aircraft to taxi out for departure, without engine power until reaching the runway, thereby lowering fuel usage, reducing carbon emissions, and delivering meaningful cost efficiencies. These efforts reflect BDAL's continued dedication to operational excellence, sustainable aviation, and responsible corporate stewardship.

FINANCE

Compliance with new accounting standards and other regulatory changes

The Company's philosophy is to ensure compliance with all the applicable accounting standards. The finance team pro-actively reviews all new accounting standards (including amendments, if any, to the existing standards) and analyses the impact of the same on the Company.

Digital Solutions

The Company undertook various digital initiatives across the

DIRECTORS' REPORT

organisation. In the finance function, there were host of digital initiatives to enhance transparency, controls and efficiency. These initiatives include 'Vendor Portal' for online submission and processing of vendor bills including online verification of bills, automation of facility lease renewal / new leases and accounting as per Ind AS 116 requirement. There are other modules which are being worked upon to enhance control and improve efficiency besides making the process governance and environment friendly.

Cost Efficiency

Blue Dart continued the drive towards cost efficiency through various initiatives being undertaken including process improvement, automation and initiatives geared towards improved capacity utilization.

Treasury Operations

Your Company continues to carry out treasury process review to efficiently manage liquidity and use its surplus for capital expenditure. Your Company has no outstanding external borrowings.

As on 31 March 2025, your Company has liquid assets (cash and cash equivalent) of ₹ 8,260 Lakh as against ₹ 11,252 Lakh, as on 31 March 2024.

DIRECTORS' REPORT

OUTLOOK FOR THE FUTURE

India on track to become third-largest economy worldwide by 2029, with a robust, efficient, and technology-driven logistics sector playing a crucial role in this transformation. The government's Amrit Kaal 2047 vision and the strategic allocations in the Union Budget reinforce India's ambition to establish an export-led, self-reliant economy. With the logistics sector directly contributing to economic acceleration, key players in the industry have a significant opportunity to influence the nation's growth trajectory.

The policy landscape is evolving to support this transformation, with the government committing ₹ 80 lakh crore across over 300 infrastructure projects by 2047, focusing on logistics, transportation, and shipping. The latest 100-day plan highlights major advancements, including the development of high-speed corridors spanning 700 kilometres, 3,000 kilometres of new highway contracts, as well as initiatives such as express railway services and industrial corridors.

Logistics modernization is gaining momentum, with companies adopting automation, AI-driven analytics, robotics, cloud computing, and digital inventory management. Innovations like drone deliveries and outdoor robotics will further enhance last-mile efficiency. These advancements align seamlessly with India's push to build a resilient, technology-enabled logistics ecosystem.

At the same time, sustainability remains a top priority. With a strong focus on low-carbon logistics, businesses are investing in electric vehicles (EVs), alternative energy sources, and green supply chains. As consumers increasingly make eco-conscious decisions, the demand for sustainable delivery solutions continues to rise.

As an industry leader, Blue Dart remains at the forefront of innovation and infrastructure development. Our Bijwasan Integrated Hub, India's largest low-emission logistics facility, stands as a testament to our commitment to service excellence and environmental responsibility. By strategically expanding our network, embracing advanced technologies, and improving distribution capabilities, we continue to enhance speed, accuracy, and operational efficiency.

With a forward-thinking approach, Blue Dart is well-positioned to capitalize on emerging opportunities, support businesses, and contribute to India's economic growth. Our dedication to service excellence, innovation with scalability, social development, governance and sustainability ensures that we remain the logistics partner of choice, delivering exceptional value to both customers and stakeholders. Blue Dart is geared to face challenges to come as a tech enabled logistics solutions 'Provider of Choice' for its customers. Your Directors look forward to an improved performance in the years to come.

ANNUAL REPORT ON CSR ACTIVITIES

1. Brief outline on CSR Policy of the Company:

Blue Dart is one of the forerunners in the Corporate Social Responsibility. As an Indian company with a global outlook, we endeavour to maintain a delicate balance between economic, environmental, and social interests. Being a leader in the logistics space since 1983, Blue Dart has reached all corners of India thereby touching many lives.

At Blue Dart, we believe that giving back to society is not just a 'Corporate Social Responsibility', it is our duty as an organization towards our brethren and our environment from where we draw our resources. More than 'responsibility', it is 'sustainability' that is our cornerstone. Sustainability (or Corporate Responsibility) is an integral part of Blue Dart. We take our responsibility to Society, to the communities in which we operate, to our employees and to the environment seriously.

The Sustainability Policy is aligned to DHL Group's purpose of "Connecting People, Improving Lives" based on the three pillars of:

- GoGreen (environmental protection)
- GoHelp (disaster management, health, livelihood and water conservation)
- GoTeach (championing education)

As an organization, Blue Dart commits to make a positive contribution to our world by using our knowledge, our vast domestic and global presence to benefit people and the environment.

PARTICULARS REGARDING CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND EXPENDITURE

Since its inception, Blue Dart has remained steadfast in its commitment to positive growth and development across social, environmental, and economic dimensions. With a legacy spanning over three decades, the company integrates conscientious corporate citizenship into its operations, creating value for shareholders while ensuring the well-being of employees, the environment, and the communities it serves. Our Board of Directors, Management, and employees actively foster a responsible corporate culture, aligning with the broader sustainability commitments of our parent company, DHL Group. Given the logistics industry's significant influence on the global economy and environmental impact, DHL Group has set an ambitious goal of achieving net-zero emissions by 2050, positioning itself as a benchmark for sustainability.

In pursuit of this vision, Blue Dart, in collaboration with DHL Group, pioneered India's first end-to-end GoGreen Carbon Neutral Service (CNS) across international and domestic markets. During the fiscal year under review, the company continued offering this specialized service, enabling customers to offset emissions generated from transportation.

Under the GoGreen pillar, Blue Dart launched the Blue Greens programme, which drives sustainable initiatives. To date, over 888,000 trees have been planted, with a target of reaching 1 million trees by FY25-26. Upon maturity, this initiative will sequester over 17,760 tonnes of CO₂ per year. Additionally, Blue Dart has integrated water conservation into its sustainability strategy, enhancing groundwater levels and surface water storage in water-stressed regions. In FY 24-25, your Company has built a capacity to harvest 6.75 crore liters of water.

As part of our sustainability efforts, we are actively working to decarbonize operations through multiple initiatives. We are enhancing last-mile and long-haul deliveries with electric vehicles (EVs), implementing carbon-neutral buildings, and expanding our sustainable product portfolio. As a result, Blue Dart has achieved a 47% carbon efficiency in 2024 compared to the 2008 baseline.

Beyond environmental sustainability, Blue Dart upholds its commitment to social responsibility through initiatives under GoTeach and GoHelp. Through GoTeach, we address the gap between formal education and employment, particularly for underprivileged youth. The Blue Edge initiative empowers young individuals by providing training in IT, communication, personality development, and life skills, enhancing their employability and career prospects.

Under GoHelp, Blue Dart partners with various organizations to support community welfare initiatives. These include funding operational expenses for a childcare home catering to cancer-affected children and their families, ensuring year-round access to clean drinking water for villages facing severe water shortages, improving livelihoods, and organizing free eye check-up camps and cataract surgeries for the elderly.

Blue Dart adheres to all applicable laws, ethical standards, and environmental guidelines while maintaining an ongoing dialogue with stakeholders. This ensures alignment with societal and environmental expectations, reinforcing our role as a trusted, responsible, and sustainable logistics provider. By continuously innovating and implementing sustainable practices, Blue Dart is dedicated to shaping a more resilient and environmentally conscious future for logistics.

Technology Absorption /Technological Advancements for Sustainable Operations:

Blue Dart continues to invest in cutting-edge technology to enhance delivery capabilities and minimize environmental footprint:

- Digitization and Automation: Deploying technologies such as hand-held scanners, smart trucks, electric vehicles, and advanced ERP systems.

REPORT ON CORPORATE GOVERNANCE

1. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

"Corporate Governance is not just about Compliance; it's about creating a culture of ethical leadership and responsible decision making."

Governance at a corporate level includes the processes through which a Company's objectives are set and pursued in the context of the social, regulatory and market environment. It is concerned with practices and procedures for trying to make sure that a Company is run in such a way that it achieves its objectives, while ensuring that Stakeholders can have confidence that their trust in that Company is well founded.

Corporate Governance refers to the way in which companies are governed and to what purpose. Corporate Governance ensures that businesses have appropriate decision-making processes and controls in place so that the interests of all stakeholders (shareholders, employees, suppliers, customers and the community) are balanced.

The Company not only adheres to the prescribed Corporate Governance practices as per the Listing Regulations but also is committed to sound Corporate Governance principles and practices. It constantly strives to adopt emerging best practices being followed worldwide.

The Company is in compliance with the requirements of Regulations 17 to 27 of the Securities and Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015 as amended from time to time, ("**Listing Regulations**") as applicable, pertaining to provisions of Corporate Governance norms. The Company has disseminated information on its website as stipulated under clauses (a) to (za) of Regulation 46(2) of the Listing Regulations. The Company is in compliance with the disclosures required to be made under this Report in accordance with Regulation 34 read together with Schedule V of the Listing Regulations.

2. BOARD OF DIRECTORS

Prevailing Regulatory regime and globalization has created tremendous expectations from the Board of Directors, in terms of their time, commitment and required skill sets. In light of the above, the Board of Directors are required to guide and control the Company's operations and provide an objective judgment to the Company, independent of Management. The Board remains accountable for its actions to the Shareholders. The basic responsibilities of the Board includes strategic development of the Company, ensuring good investor relations, protection of the Company's assets and compliance of legal requirements.

The size and composition of the Board of Directors ("**Board**") confirms to the requirements of Corporate Governance norms

as stipulated under provisions of the Listing Regulations. As on March 31, 2025, the Company has 6 (six) Directors, of which 1 (one) Director is an Executive Director and 5 (Five) Directors are Non-Executive Directors, including 2 (two) Women Independent Directors. Accordingly, the Company is in compliance with Regulation 17(1)(a) of the Listing Regulations.

As per Regulation 17 of the Listing Regulations, the Board is required to have at least 1/3rd of the Members of the Board as Independent Directors if the Chairperson is a Non-Executive Director. Accordingly, the Company's present Board comprises of 3 (three) Independent Directors viz; Mr. Prakash Apte, Ms. Kavita Nair and Dr. Vandana Aggarwal.

Retirement by Rotation

- In accordance with the provisions of the Companies Act, 2013 ("Act") and Articles of Association of the Company Mr. R. S. Subramanian (DIN 02946608), retires by rotation at the ensuing Annual General Meeting and being eligible, offers himself for re-appointment.

Mr. R. S. Subramanian (DIN: 02946608), aged 60, is currently the SVP for South Asia and Managing Director of DHL Express India. He is also a member of the DHL Express Asia Pacific Management Board. With over 30 years of experience in both product-led and service industries, Mr. Subramanian possesses extensive expertise in business strategy, marketing, team development and customer management.

He joined DHL Express India as the Head of Sales, subsequently moving up to the position of Vice President, South Asia Cluster (RoSA), where he managed operations in Pakistan, Bangladesh, Sri Lanka, Nepal, the Maldives and Bhutan. He played a key role in restructuring and developing DHL's operations in these markets.

In 2010, he was appointed Managing Director of DHL Express India. Under his direction, the business experienced significant growth and established itself as a market leader. His emphasis on major investments in best-in-class infrastructure, state-of-the-art technology and strong people processes has been instrumental in driving this success.

Under his leadership, DHL Express India has won many accolades and is today recognized and respected as a best practices organization. The company has consistently featured in India's Best Companies to Work For list by GPTW (Great Places to Work) since 2012.

Prior to DHL, Subramanian spent 14 years at Hindustan Unilever Ltd., where he held various roles in sales, marketing and export management.

REPORT ON CORPORATE GOVERNANCE

Subramanian is a graduate in Industrial Engineering and holds a Master's in Management from IIM Bangalore. He is also Gold Certified in First Choice, DHL Group's internal quality program based on the Six Sigma DMAIC methodology. Furthermore, Subramanian is the Vice Chairman of the Express Industry Council of India (EICI) and is part of the Advisory Council of Indo-German Chamber of Commerce (IGCC).

DHL representative Directors hold a firm belief that DHL's best interests are aligned with the continued growth and success of the Company.

As regards appointment and tenure of the Independent Directors, following policy is adopted by the Board:

- The Company has adopted provisions with respect to appointment and tenure of Independent Directors which are consistent with Section 149 of the Act.
- In accordance with the Act, Independent Directors can be appointed for 2 (two) terms of maximum period of 5 (five) years each.
- The Company does not have any upper age limit on retirement of Independent Directors from the Board and their appointment and tenure would be governed by the provisions of the Act.

Directors & Officers ("D&O") Liability Insurance provides protection for claims brought against the Directors and Officers of the Company for any actual or alleged breach of duty, neglect, misstatements or errors in their managerial capacity. The Company has in place the D&O Liability Insurance pursuant to requirements of the applicable laws.

Pursuant to Regulation 27(2) of the Listing Regulations, the Company also submits a quarterly compliance report on Corporate Governance to the Stock Exchanges.

Board Independence

Independent Board plays a pivotal role in enhancing Corporate Governance and ensuring ethical practices within a Company. This can be achieved by associating sufficient number of Independent Directors with the Board with an intent to ensuring that the Board is effective in supervising and where necessary, challenging the activities of the Management.

The definition of 'Independence' of Directors is derived from Regulation 16 of the Listing Regulations and Section 149(6) of the Act, as amended. Based on confirmation / disclosures received from Directors and on evaluation of relationships disclosed, Mr. Prakash Apte Ms. Kavita Nair and Dr. Vandana Aggarwal are 'Independent' in terms of provisions of Regulation

16 of the Listing Regulations and Section 149(6) of the Act.

Committees of the Board

Globalization has created tremendous demands from the Board of Directors, in terms of their time, commitment and required skill sets. The regulatory requirements are complex and the onus on the Board is immense and therefore, it is imperative to delegate certain matters to specialist Board Committees. These committees with formally established Terms of Reference, criteria for appointment, life span, role and functions, constitute an important element of the governance process. Committees enable better management of the Board's time and allow in-depth scrutiny and focused attention, ultimately leading to evolve appropriate strategies.

3. AUDIT COMMITTEE

The Audit committee is vital for every Company as it is involved in maintaining the company's financial stability. Audit Committee plays an important role in Corporate Governance since the

Board relies on the Audit Committee to offer effective oversight of the annual auditing process, making it one of the cornerstones for effective Corporate Governance.

The Board of Directors of the Company constituted the Audit Committee ("**Audit Committee**") at the Board Meeting held on May 8, 2001. The Audit Committee has been reconstituted from time to time.

25. DETAILS OF COMPLIANCE WITH THE MANDATORY REQUIREMENTS AND ADOPTION OF NON-MANDATORY REQUIREMENTS

The Company has complied with all mandatory requirements of Regulation 27 and Schedule V of the Listing Regulations. The Company has adopted following non-mandatory (discretionary) requirements of Regulation 27 read with Part E of Schedule II of the Listing Regulations:

- (a) Separate posts of Chairman and CEO – The Company has separate Chairman and Managing Director or Chief Executive Officer.
- (b) Modified Opinion in Auditors Report: The Company's Financial Statements for the year 2024 do not contain any modified audit opinion.
- (c) Internal Auditors report directly to the Audit Committee.

26. OUTSTANDING GLOBAL DEPOSITORY RECEIPTS OR AMERICAN DEPOSITORY RECEIPTS OR WARRANTS OR ANY CONVERTIBLE INSTRUMENTS, CONVERSION DATE AND LIKELY IMPACT ON EQUITY

The Company has not issued any GDRs / ADRs / Warrants or any convertible instruments in the past and hence as on March 31, 2025, the Company does not have any outstanding GDRs / ADRs / Warrants or any convertible instruments.

27. COMMODITY PRICE RISK OR FOREIGN EXCHANGE RISK AND HEDGING ACTIVITIES

Commodity Price Risk:

The Company runs a fleet of dedicated cargo aircraft for the movement of cargo between the 8 (Eight) airport stations it operates. Any change in world crude prices impacts Aviation Turbine Fuel (ATF) which has a corresponding impact on the Aircraft Operating Cost. Your Company has an internal hedging mechanism termed as Fuel Surcharge Mechanism for passing increase/decrease in ATF cost to its customers. This mechanism helps the Company in protecting itself against changes in the crude prices.

Foreign Exchange Risk:

Many of the aircraft related payments are either in USD or Euro due to which the Company is exposed to foreign exchange fluctuations. Hedging this risk through external sources has a high cost. Your Company has put in practice an internal hedging mechanism to support in neutralising this impact by means of a Currency Adjustment Factor (CAF) which is passed on to its customers.

30. LIST OF ALL CREDIT RATINGS

The Company continues to enjoy a high credit rating for its working capital facilities / short-term debt programme:

- 1. India Ratings and Research (Ind-Ra) has assigned a long term issuer rating of "IND AA+". The outlook is Stable.
- 2. India Ratings and Research (Ind-Ra) has assigned rating for working capital of ₹ 20,000 lakh (including fund based and non-fund based limit) as INDAA+/Stable/IND A1+.

31. DETAILS OF UTILIZATION OF FUNDS RAISED THROUGH PREFERENTIAL ALLOTMENT OR QUALIFIED INSTITUTIONS PLACEMENT AS SPECIFIED UNDER REGULATION 32 (7A)

During the year under review, there were no funds raised through Preferential Allotment or Qualified Institutions placement as specified under Regulation 32(7A) of the Listing Regulations.

32. INSTANCES WHERE BOARD HAD NOT ACCEPTED ANY RECOMMENDATION OF ANY COMMITTEE OF THE BOARD WHICH IS MANDATORILY REQUIRED, IN THE RELEVANT FINANCIAL YEAR

There were no such instances reported during the financial year 2024 - 2025 and the Board has accepted recommendations of its Committees, as applicable.

MANAGEMENT DISCUSSION AND ANALYSIS

As we reflect on FY 2024-25, India's journey has been one of resilience, determination, and growth. The year has further solidified the nation's position as an emerging global economic powerhouse, achieving a GDP growth of 6.5%. This success has been driven by financial stability, strategic policy initiatives, and a continued focus on innovation and infrastructure development.

India's economic expansion in 2024 has not only reaffirmed its standing as the world's fifth-largest economy but also demonstrated steady progress in narrowing the gap with the fourth-ranked economy, Germany. Healthy FDI inflows, a thriving export sector, and advancements in regulatory frameworks have been instrumental in sustaining this momentum¹.

Recognized by the World Economic Forum (WEF) as a leader in technological innovation and digital transformation, India continues to emerge as a hub for startups and economic ingenuity. While global economic challenges loom large, with over half of chief economists projecting weaker conditions in 2025, India remains poised to maintain robust growth.

Of particular note is the rise in India's GDP per capita in 2024, reflecting tangible improvements in household living standards. This progress highlights the nation's collective efforts toward fostering inclusive growth, ensuring that economic expansion benefits a wider section of society².

India's evolving macroeconomic landscape, driven by rising consumption, rapid urbanization, and policy-led infrastructure growth presents a significant opportunity for future-ready logistics solutions. As a pioneer in the express logistics industry, Blue Dart is strategically aligned with this transformation. We are committed to low-emission shipment movement, scalability, and service excellence. By accelerating sustainable growth through investments in advanced technologies and infrastructure, we are building a network defined by flexibility, accuracy, and speed — positioning ourselves to capture the momentum of India's growth story.

Our growth strategy focuses on expanding into high-growth sectors like e-commerce, strengthening our presence in key geographies, and embedding sustainability into every aspect of our operations. By leveraging cutting-edge solutions, optimizing processes, and driving sustainable innovation, we are redefining customer experiences and delivering long-term value to all stakeholders. At the core of this strategy lies our shared commitment to continuous improvement. Together, let us push boundaries, celebrate milestones, and aim for even greater achievements as we shape a future of limitless possibilities for Blue Dart.

MANAGEMENT DISCUSSION AND ANALYSIS

GLOBAL ECONOMIC OVERVIEW

The global economic outlook for 2025 was characterized by modest growth prospects overshadowed by significant risks stemming from trade disputes and inflationary pressures. Coordinated policy responses and a commitment to multilateral cooperation were deemed essential to navigate the economic landscape and foster a more resilient global economy.

The global economic landscape faced heightened uncertainty, primarily due to escalating trade tensions and shifting monetary policies. The International Monetary Fund (IMF) revised its global growth forecast downward from 3.3% to 3.2% for 2025, citing the adverse effects of U.S. tariffs and retaliatory measures from China and the European Union. IMF emphasized that while a global recession was not anticipated, the current environment of protectionism and policy unpredictability poses significant risks to economic stability.³

S&P Global echoed these concerns, highlighting that the impact of rising tariffs had become more widespread, leading to upward revisions in global and North American consumer price inflation forecasts for 2025 and 2026. The monthly consumer price inflation rate for core goods in the Group of Five (G5) economies had been increasing since late 2024, indicating that inflationary pressures were intensifying⁴.

In the United States, the IMF had earlier projected a growth rate of 2.7% for 2025, driven by strong labor markets and increased investment⁵. However, recent financial indicators suggested a potential slowdown, with recession risks rising due to the impact of protectionist trade policies.

The IMF's World Economic Outlook had also noted that services inflation was complicating monetary policy normalization, raising the prospect of prolonged higher interest rates. This, coupled with escalating trade tensions and increased policy uncertainty, had increased the upside risks to inflation.

Amidst these challenges, the IMF underscored the importance of continued economic reforms, flexible monetary policy, and global cooperation to mitigate risks. Georgieva had called for renewed efforts to reduce trade barriers and restore fairness to the multilateral trading system, emphasizing that protectionism undermined innovation and productivity, especially in smaller economies.

INDIAN ECONOMIC OVERVIEW

The global economic environment in FY 2024–25 was marked by mounting geopolitical tensions and a renewed wave of protectionist policies. The imposition of tariffs by the United States on major economies, and retaliatory measures by key trading partners such as China and the European Union, resulted in significant headwinds for global trade. According to the World Trade Organization, global merchandise trade volumes declined by 0.2%, reflecting weakening demand and growing fragmentation in global supply chains. The long-term risk of economic decoupling, especially between the U.S. and China, remained a concern, with the WTO cautioning that such a scenario could shave off as much as 7% from global GDP.

In parallel, the Indo-Pak trade landscape witnessed a complete breakdown of bilateral engagement, adding to regional instability. As of May 2, 2025, India imposed a comprehensive ban on all imports from Pakistan, including goods routed through third countries. This move was justified on grounds of national security and public policy. India also intensified scrutiny of indirect imports and exports amid concerns that Indian goods are entering Pakistan via third countries. Additionally, E-commerce platforms in India were directed by local trade bodies to remove Pakistani products, with the boycott even extending to Turkish brands due to Turkey's political support for Pakistan. This reflects a broader cultural and commercial disengagement, not just a trade freeze.

These developments unfolded at a time when global economic fragmentation was already reshaping trade and investment flows. The Indo-Pak trade standoff further contributed to the regional complexity, weakening South Asia's integration potential and adding strain to cross-border commerce and supply chain resilience.

Amidst this global backdrop, India stood out as a relatively resilient performer. The Asian Development Bank (ADB), in its latest forecast, estimated India's GDP growth at 6.7% for FY 2024–25. This growth was supported by strong urban consumption, improved rural demand, and continued government capital expenditure on infrastructure. The manufacturing and services sectors registered robust activity, aided by improved business sentiment and favorable credit conditions.⁶

Inflation in India remained within the Reserve Bank of India's target band for most of the fiscal year, supported by declining food inflation and effective monetary management. ADB's analysis highlighted the continued easing of headline inflation, which fell from 5.7% in FY 2023–24 to an estimated 4.9% in FY 2024–25, enhancing household spending power and business margins.

Additionally, India's macroeconomic fundamentals continued to strengthen. According to the Indian Brand Equity Foundation (IBEF), foreign direct investment inflows remained steady, and the country recorded a sustained current account balance supported

MANAGEMENT DISCUSSION AND ANALYSIS

by resilient services exports and moderate oil import prices. Public sector capital expenditure, especially in transport, digital infrastructure, and renewable energy, contributed meaningfully to economic expansion.⁷

India's growth trajectory was recognized for its relative stability amid a turbulent global economic environment. The analysis emphasized India's unique position among emerging markets, crediting its policy continuity, demographic dividend, and digitalization efforts as critical levers for economic momentum.⁸

Meanwhile, a research note from the CFA Institute observed that traditional risk models underestimated the economic impact of rising tariffs and geopolitical realignments. The note emphasized that investors and businesses had to navigate an increasingly complex environment shaped by macroeconomic unpredictability and structural shifts in trade and capital flows.⁹

Taken together, the economic landscape of FY 2024–25 underscored the increasing divergence between developed and emerging economies. India, despite the external uncertainties, continued to demonstrate underlying economic resilience and a capacity to absorb global shocks through domestic growth drivers and policy prudence.

GLOBAL LOGISTICS INDUSTRY

The year 2024 presented both challenges and opportunities for the global logistics industry, shaped by a mix of geopolitical, economic, and technological factors. After the turbulence of 2023, signs of stabilization were evident in key sectors, although the overall market remained dynamic and fragmented. However, In Q3 2024, road freight transport prices in Europe declined across both the spot and contract markets, reflecting the ongoing fragility of the European economy. Despite the optimism generated by a rise in spot rates during Q2 2024, this positive momentum proved short-lived and the third quarter failed to sustain the upward trend. Shippers and logistics providers were required to adapt quickly to evolving conditions, with success often dependent on proactive strategies and efficient operations.¹⁰

In the road freight sector, demand increased across international and domestic routes, fueled by improved economic conditions and significant regional disruptions. Rail strikes in Germany and continued geopolitical tensions, such as attacks on cargo ships in the Red Sea, shifted cargo volumes to road freight, creating opportunities but also straining capacity in certain regions. Despite these disruptions, the market began to show signs of balance, as indicated by the load-to-truck ratio nearing parity for both domestic and international routes. However, the persistent shortage of

drivers, coupled with elevated inflation and intermittent strikes in countries like Poland and Spain, limited the immediate availability of spot capacity.

Specialized transport segments, such as refrigerated trucking, experienced a notable surge in demand. Factors such as growth in the pharmaceutical and online grocery sectors, stricter food safety regulations, and an uptick in international trade put pressure on this niche, leading to regional shortages in refrigerated equipment. Companies that optimized their logistics operations through advanced analytics, strategic contracting, and load consolidation were better positioned to navigate these challenges and secure a competitive edge.¹¹

At the start of 2025, the global logistics industry had to navigate a complex landscape due to geopolitical tensions, economic shifts, and evolving trade policies. The implementation of significant tariffs by the US on multiple countries and particularly on Chinese goods, prompted retaliatory measures from China. These actions disrupted global supply chains, increased shipping costs, and led to rerouted shipments and congested ports.

Meanwhile, the global shift towards sustainability continued to reshape the logistics landscape. The clean-energy transition, particularly in Europe, had far-reaching implications for medium- and heavy-duty truck manufacturers, suppliers, and infrastructure providers. The adoption of zero-emission vehicles (ZEVs) accelerated, spurred by stricter emissions regulations and rising demand for sustainable supply chain solutions. However, this transition came with significant disruptions to traditional business models. Truck OEMs faced job losses as the demand for internal combustion engine vehicles waned, although suppliers and infrastructure providers gained employment opportunities related to battery cell production and renewable-energy-based charging infrastructure.

Technology played a transformative role across the industry, as companies increasingly adopted digitization and automation to optimize operations. Advanced analytics and generative AI were deployed to forecast supply and demand more accurately, while automation enhanced operational efficiency across shipping and freight networks. As AI and artificial general intelligence (AGI) capabilities become more affordable and accessible, new pragmatic opportunities to optimize pathways for the movement of goods, improving sustainability and cost-efficiency, are arising.¹² Maritime shipping also embraced digitization, with many operators leveraging AI and automation to reduce emissions, improve profitability, and address congestion at ports.

Despite the progress, the logistics industry in 2024-2025 remained vulnerable to trade-flow volatility, geopolitical uncertainties, and regulatory pressures. Companies needed to invest in

flexible, resilient, and sustainable supply chains to thrive in this environment. By prioritizing decarbonization, leveraging advanced technologies, and collaborating with stakeholders across the value chain, forward-looking players positioned themselves for long-term success in an increasingly complex global logistics market.¹³

LOGISTICS INDUSTRY IN INDIA

India's logistics industry has been a cornerstone of the country's economic development, experiencing exponential growth over the years. Valued at US\$ 317.26 billion in 2024, the sector is projected to reach US\$ 484.43 billion by 2029, growing at a CAGR of 8.8%. Contributing 5% to the nation's GDP and employing 2.2 crore people, it played a crucial role in driving efficiency and connectivity. The government's proactive policies, including the PM GatiShakti initiative and significant infrastructure investments, were instrumental in this growth. The 2024-25 Interim Budget allocated a record ₹ 2.76 lakh crore (US\$ 33.4 billion) for road infrastructure and ₹ 2.62 lakh crore (US\$ 31.67 billion) for railways, which accelerated infrastructure upgrades. The road network expanded to 1,46,145 km of National Highways, with the pace of highway construction improving to 28.3 km per day. The aviation sector also witnessed substantial progress, with 158 operational airports and 84 new ones constructed in the last decade, enhancing regional and global connectivity.¹⁴

The logistics industry benefitted significantly from increased private sector participation and the growing demand for advanced warehousing and supply chain solutions. The 3PL (Third-Party Logistics) sector emerged as a major driver, accounting for 38% of warehousing demand, followed by the auto and engineering sectors (23%) and FMCG/FMCD/retail (20%). Warehousing supply reached 393 million sq. ft., with Grade A properties dominating the market due to their future-ready features and low vacancy rates of 6.6%. The development of 35 Multimodal Logistics Parks (MMLPs) under the Bharatmala Pariyojana further strengthened cargo management capabilities. Organized Grade A warehousing supply, surpassing Grade B, underscored the sector's evolution toward better sustainability and operational standards. Simultaneously, policy-driven initiatives, such as the National Logistics Policy (NLP), aimed to reduce logistics costs and improve efficiency, making the industry more competitive.¹⁵

The recent geopolitical tensions fueled by the global trade war had a multifaceted impact on India's logistics sector. While the imposition of tariffs by the US introduced challenges, they also opened avenues for growth and strategic realignment within the industry. India's relatively lower tariff exposure compared to countries like China, which faced tariffs as high as 145%, positioned it as an attractive alternative for global manufacturers seeking to diversify their supply chains. This shift is anticipated to increase demand for

industrial and warehousing infrastructure, especially in Tier II and III cities, fostering growth in these regions.¹⁶

Additionally, India's logistics journey was not without challenges, such as high logistics costs, which remained around 14% of GDP, compared to the global average of 8-10%. However, the sector overcame these hurdles through rapid digitization, greater e-commerce penetration, and increasing reliance on renewable energy. Core industries, including coal, steel, and cement, showed strong growth, supporting the logistics ecosystem. The integration of ESG (Environmental, Social, and Governance) principles, especially in warehousing and transportation, highlighted the industry's commitment to sustainability. Investments in optical fiber networks and multimodal transportation further reinforced the backbone of the logistics industry. By 2024, the sector not only served as a key economic enabler but also positioned itself as a global contender, poised to achieve the projected US\$ 484.43 billion market by 2029. Through strategic reforms, infrastructure development, and technological integration, India's logistics industry cemented its place as a growth engine, ensuring robust connectivity and long-term resilience.¹⁷

GOVERNMENT POLICY

The year 2024 witnessed significant strides in infrastructure development, industrialization, and economic reforms, as the Government of India implemented several impactful policies to drive growth and competitiveness. The expansion of the National Highways network remained a critical focus, with flagship programs such as Bharatmala Pariyojana. The National Highways network increased by 60%, growing from 91,287 km in 2014 to 146,195 km by 2024. National High-Speed Corridors also saw remarkable progress, expanding from 93 km in 2014 to 2,474 km. Furthermore, eight critical National High-Speed Corridor projects, with a combined length of 936 km and costing ₹50,655 crore, were approved to enhance connectivity and economic growth.

The government's asset monetization efforts under the Toll-Operate-Transfer (TOT) model delivered substantial returns. The National Highways Authority of India (NHAI) successfully monetized four bundles, generating ₹15,968 crore in FY 2023-24, with cumulative monetization reaching ₹42,334 crore. Additionally, multimodal logistics received a boost under Bharatmala Pariyojana, with plans to develop 35 Multimodal Logistics Parks to improve cargo movement efficiency. Comprehensive port connectivity plans were also developed, identifying 59 critical projects spanning approximately 1,300 km to enhance last-mile connectivity and support industrial trade.¹⁸

MANAGEMENT DISCUSSION AND ANALYSIS

India's manufacturing sector experienced significant growth through the Product-Linked Incentive (PLI) scheme. The scheme facilitated ₹1.46 lakh crore in investments, ₹12.5 lakh crore in production, and ₹4 lakh crore in exports, while generating 9.5 lakh jobs. Over 1,300 manufacturing units were established across 14 sectors in 27 States and Union Territories (UTs), solidifying India's position as a global manufacturing hub. Twelve new greenfield industrial projects worth ₹28,602 crore were approved under the National Industrial Corridor Development Programme, unlocking ₹1.5 lakh crore in investment potential and creating 9.4 lakh jobs.

The startup ecosystem also flourished under the Startup India initiative. Over 1.49 lakh startups were recognized by 2024, creating 16 lakh jobs, with nearly half of these startups led by women and 50% based in Tier 2 and Tier 3 cities. Efforts such as the National Startup Awards and initiatives like BHASKAR strengthened the innovation ecosystem and encouraged startups to expand globally.

In the logistics sector, the National Logistics Policy (NLP) furthered India's economic competitiveness by reducing logistics costs and improving efficiency. Significant milestones included the integration of 37 logistics-related digital systems across ministries, the introduction of logistics-related courses in 115 universities, and the finalization of Sectoral Plans for Efficient Logistics (SPEL) in key industries like coal and cement. The PM Gati Shakti National Master Plan integrated 1,614 data layers, enabling better infrastructure planning and seamless multimodal logistics.

Further, in a push to strengthen India's logistics infrastructure, the Ministry of Finance announced the identification of 434 projects under the PM Gati Shakti initiative. These projects, part of three major economic corridor programmes, aim to improve multi-modal connectivity and enhance logistics efficiency, with a massive outlay of ₹ 11.17 lakh crore.¹⁹

Foreign Direct Investment (FDI) inflows showcased a positive trend, with a 26% increase in the first quarter of FY 2024-25 compared to the previous year. Liberalized policies attracted significant investments in sectors like manufacturing, telecom, coal, and space, boosting India's global competitiveness. The manufacturing sector saw a 69% increase in FDI equity inflow, rising from \$98 billion (2004-14) to \$165 billion (2014-24).

Social and environmental initiatives also took center stage. The government expanded vehicle scrapping facilities, with 80 operational centers across 19 States/UTs by December 2024 and 66 more under construction. Efforts to improve road safety through the rectification of blackspots on highways and engineering measures underscored the government's commitment to reducing accidents. Additionally, the launch of a digital All-India Tourist Permit Module simplified interstate travel for tourist vehicle operators, supporting the tourism sector and enhancing mobility.

The government also made notable progress in reducing compliance burdens for businesses and citizens. The Jan Vishwas Act, 2023 decriminalized 183 provisions in 42 Central Acts, fostering trust-based governance. The National Single Window System facilitated over 4.81 lakh approvals through its unified platform, simplifying processes for investors and businesses.

These policies and developments in 2024 reflected the government's dedication to fostering economic growth, promoting industrialization, and creating a self-reliant India. By addressing infrastructure, manufacturing, logistics, and governance reforms, the country achieved significant milestones, paving the way for a globally competitive and inclusive future.²⁰

Progress Under the National Logistics Policy (NLP)

In 2024, the National Logistics Policy (NLP) advanced India's vision to establish a globally competitive logistics ecosystem. A key focus was improving India's Logistics Performance Index (LPI) ranking, with a target to position the country among the top 25 by 2030. A dedicated LPI Action Plan was implemented, involving multiple ministries like MoRTH, MoR, MoPSW, and MoCA, alongside collaborations with global organizations such as the World Bank and ADB. Additionally, 26 States and Union Territories aligned with NLP by notifying their State Logistics Plans (SLPs) to strengthen logistics at the state level. Capacity-building efforts were amplified through collaboration with the Capacity Building Commission (CBC), with training modules delivered via digital platforms, webinars, and workshops. The LEADS survey continued to provide insights into logistics ease, with its fifth and sixth editions launched in December 2023 and January 2024, respectively, enabling States and Union Territories to assess and improve their logistics infrastructure and services.

Achievements Under the Comprehensive Logistics Action Plan (CLAP)

The Comprehensive Logistics Action Plan (CLAP) drove operational improvements by fostering digitalization, innovation, and resource optimization in logistics. The Unified Logistics Integrated Platform (ULIP) emerged as a transformative initiative, integrating 33 logistics-related systems across 10 ministries, registering over 930 private companies, and enabling end-to-end cargo tracking through GST data. The Logistics Data Bank (LDB) facilitated 100% real-time tracking of India's containerized EXIM cargo using RFID, IoT, Big Data, and Cloud technologies. Additional progress was made in standardizing logistics assets, developing human resources, and collaborating with states to address specific logistics challenges. CLAP's focus on EXIM logistics, along with global engagement for adopting best practices, cemented its role in enhancing operational efficiency and positioning India as a hub for logistics excellence.²¹

MANAGEMENT DISCUSSION AND ANALYSIS

National Data Governance Framework Policy

In 2024, the National Data Governance Framework Policy marks a pivotal shift toward stricter data privacy regulations, ethical data usage, and enhanced transparency. Driven by global standards like GDPR and CCPA, the policy emphasizes robust consumer protection, accountability, and data integrity. Key developments include enforcing data subject rights, managing cross-border data transfers, and establishing quality standards for AI systems. The Digital Personal Data Protection Act, along with initiatives like the Digital India Act and India AI Mission, underlines India's commitment to building a secure, transparent digital ecosystem. These advancements present organizations with an opportunity to strengthen governance practices, adapt to evolving regulations, and lead responsibly in an increasingly data-driven world.²²

National deeptech policy:

In 2024, India made significant progress in shaping its deep tech ecosystem with the nearing finalization of the National Deep Tech Startup Policy (NDTSP). Key developments include the allocation of ₹1 lakh crore in the interim budget to support deep tech R&D, focusing on AI, robotics, quantum computing, biotechnology, and advanced materials. The policy emphasizes academia-industry collaborations to bridge research and application gaps, regulatory sandboxes for startups to test innovations in controlled environments, and skill development initiatives to equip the workforce with deep tech expertise. With its inclusive approach and strategic priorities, the NDTSP aims to position India as a global leader in transformative technologies.²³

PERFORMANCE REVIEW

In a year marked by shifting global economic conditions, Blue Dart demonstrated remarkable resilience and strategic acumen, firmly establishing itself as a leader in India's transport and logistics industry. Despite navigating challenges such as rising interest rates and increasing operational costs, the company exceeded expectations, further strengthening its position as the Provider of Choice for customers, the Employer of Choice for talent, the Green Logistics of Choice, and the Investment of Choice for stakeholders.

Our performance reflects the adaptability of our diverse B2B and B2C solutions, which have been instrumental in addressing India's evolving logistics needs. This year's achievements highlight our ability to effectively respond to market dynamics, driven by disciplined execution and operational excellence. Through consistent growth and long-term value creation, we continue to reinforce our role as a trusted partner for all stakeholders.

Our strategic investments in sustainability, scalability, and service excellence remain at the core of building a future-ready logistics ecosystem. By focusing on enhancing efficiency and environmental responsibility, we deliver seamless and reliable solutions across the country. From optimizing multimodal transport to integrating green initiatives, Blue Dart is committed to creating a logistics network that not only addresses immediate business requirements but also contributes meaningfully to India's sustainable development goals.

At the core of Blue Dart's success is an commitment to customer-centricity. By prioritizing service excellence and consistently exceeding customer expectations, Blue Dart has captured significant market share across its diverse service offerings. This dedication to customer satisfaction has reinforced our position as a market leader, earning the enduring trust and loyalty of our customers, and fueling continued growth.

Strategic investments have been pivotal in driving Blue Dart's growth trajectory. Significant resources have been allocated toward capacity expansion, digitalization, and process automation. The deployment of two B737-800 aircraft during the 2024-25 fiscal year has notably bolstered our operational capacity, enabling us to meet increasing customer demand with enhanced efficiency.

Additionally, Blue Dart has expanded its market footprint through initiatives like the opening of company-owned retail stores, franchise collection centers, express selling agents, and regional service provider partnerships. This expansion into Tier I and II markets across India has not only amplified our presence but also provided scalable solutions to large customers, driving economies of scale and enriching our end-to-end service offerings.

Our achievements have been recognized across the industry and beyond. Blue Dart was honored as India's Top Value Creator for 2024 in the transport and logistics sector, underscoring our commitment to excellence and sustainable value creation. We also received accolades such as the 'Great Company to Work For' award, recognition as the Best Express Logistics Service Provider at the 6th Indian Logistics Strategy Summit 2024, and Best Logistics Service Provider – Surface at the India Cargo Awards 2024. Furthermore, Blue Dart secured the top position in the Transport & Logistics sector at Business World's 'India's Most Sustainable Companies 2024', solidifying our reputation as a preferred employer and trusted industry leader. Blue Dart has been honored with the prestigious "Best In-House Legal Team" award in the Logistics Industry at The Economic Times - Global Legal Awards 2024-2025. Further, the Head (Legal & Compliance) & Company Secretary was invited and welcomed by 'Nasdaq Governing Solutions' at New York in May 2024, wherein Blue Dart brand proudly adorned the iconic Nasdaq tower, symbolizing a momentous milestone in the journey of delivering excellence. Blue Dart has been honoured with the "11th ICICI Lombard CNBC TV 18 Masters of Risk Award" in the Logistics Category.

MANAGEMENT DISCUSSION AND ANALYSIS

Aligned with our Strategy 2030 initiative, “Accelerate Sustainable Growth,” Blue Dart remains committed to sustainability and innovation. Our focus on green logistics and Environmental, Social, and Governance (ESG) practices underlines this commitment. We are adapting our operations and service offerings to meet the evolving demands of the logistics landscape, seizing opportunities even in a challenging market environment. By gaining market share and fortifying our position in high-growth sectors, we aim to sustain and accelerate our momentum.

Looking ahead, Blue Dart is poised for sustained growth and continued success. With our resilient performance, strategic investments, customer-centric approach, and emphasis on sustainability, we are well-positioned to capitalize on emerging opportunities and effectively navigate future challenges. By prioritizing operational excellence, innovation, and customer satisfaction, Blue Dart remains a symbol of success in India's transport and logistics sector, consistently raising industry standards.

Our team has been instrumental in building business resilience amid global disruptions and uncertainty, consistently embodying our core values of Passion, Can Do, Right First Time, and As One. With dedicated freighters in the air and an extensive network on the ground, Blue Dart continues to provide unparalleled service across India's vast and diverse geography. During the year, Blue Dart carried over 3,766.92 Lakhs domestic shipments and over 5.72 Lakhs international shipments, with a total weight exceeding 13,39,800 tonnes.

Amidst ongoing market volatility, Blue Dart has performed well in FY 2024-25 reinforcing its position as the investment of choice, showcasing our resilience and capacity to thrive even in challenging environments.

For the year ended March 31, 2025, Blue Dart on a standalone basis reported Income from operations of ₹ 5,72,018 Lakhs (previous year – ₹ 5,26,783 Lakhs) and posted net profit after tax, on a standalone basis of ₹ 24,463 Lakhs (previous year - ₹ 28,864 Lakhs).

Details of significant changes (i.e. change of 25% or more as compared to the immediately previous financial year) in key financial ratios along with detailed explanations are as under:

Particulars	March 31, 2025	March 31, 2024	Reason for variance
Return on Equity ratio	16%	21%	Reduction in Net profit after tax and increase in Average shareholders equity resulted decrease in ratio

Particulars	March 31, 2025	March 31, 2024	Reason for variance

Notes:

1. Profit before tax for the year of ₹ 33,587 Lakhs as against a profit before tax of ₹ 38,279 Lakhs in the previous year
2. Higher sales, efficient working capital management has resulted in no external borrowings.

COMPANY OVERVIEW

Blue Dart, South Asia's premier air-integrated express logistics company, has been at the forefront of providing exceptional logistics solutions since its inception in 1983. Over the years, the company has built a solid reputation for reliability, speed, and customer-centric service excellence. Blue Dart offers secure and timely delivery to over 56,400 locations across India, serving diverse sectors and businesses, from SMEs to large corporations. Its operational excellence is driven by an extensive network supported by six Boeing 757-200 and two Boeing 737 freighter aircraft, a robust fleet of over 12,000 vehicles, 2,284 facilities, and a growing fleet of 549 electric vehicles.

As a key player in the DHL Group's DHL eCommerce Solutions division, Blue Dart leverages the group's expansive international footprint, which spans over 220 countries and territories. This synergy allows Blue Dart to offer a comprehensive range of logistics services, including air express, freight forwarding, supply chain management, customs clearance, and time-critical deliveries. Its global integration with DHL positions the company as a reliable logistics partner for businesses seeking both domestic and international supply chain solutions.

Since joining the DHL Group in 2005, Blue Dart has played a pivotal role in driving growth, particularly in the dynamic and rapidly expanding eCommerce sector. Its ability to provide tailored delivery solutions with high service standards has earned it the trust of customers across industries. The company's unique selling points include exceptional service quality, extensive network penetration into India's heartland, and unmatched speed, ensuring shipments are delivered on time, every time. These strengths have made Blue Dart a preferred partner for businesses looking to meet the demands of an evolving market.

Technology is a key enabler of Blue Dart's success, with continued investments in advanced systems that enhance operational efficiency and customer satisfaction. The company offers 24x7

MANAGEMENT DISCUSSION AND ANALYSIS

shipment tracking, dynamic routing capabilities, and API integrations to meet the unique needs of its customers. Mobility solutions, such as real-time visibility of courier movement and optimized delivery routes, further improve the productivity of its delivery operations. Innovations like the Contact-Less Delivery Service demonstrate the company's commitment to offering convenient and efficient customer experiences.

Blue Dart's dedication to corporate responsibility is reflected in its initiatives under the pillars of GoTeach (education and skill development), GoGreen (environmental sustainability), and GoHelp (disaster management and community development). These initiatives have had a positive impact on local communities and the environment, reinforcing Blue Dart's role as a responsible corporate citizen. The company's sustainability efforts align closely with DHL Group's global mission of achieving net-zero emissions by 2050.

Central to Blue Dart's sustainability roadmap is its *Strategy 2030: Accelerate Sustainable Growth*, which focuses on reducing carbon emissions, promoting clean operations, and fostering sustainable innovations. The company has made significant strides in this area, achieving a 47% improvement in carbon efficiency compared to its 2008 baseline as of 2024. Blue Dart's commitment to green logistics includes the use of sustainable aviation fuel (SAF), a growing fleet of electric vehicles for last-mile and long-haul deliveries, carbon-neutral buildings, and an environmentally friendly product portfolio.

Under its Go Green initiative, Blue Dart has planted over 888,000 trees, with a target of reaching 1 million trees by FY25-26. Once matured, these trees are expected to sequester over 17,760 tonnes of CO₂, per year contributing to climate change mitigation. Additionally, Blue Dart has launched water conservation programs aimed at improving groundwater levels and surface water storage in water-stressed regions, demonstrating its holistic approach to sustainability.

Blue Dart's continuous innovations, commitment to sustainability, and strategic synergies with DHL enable it to deliver world-class logistics services, connecting people and improving lives. By blending technological advancements, operational efficiency, and environmental stewardship, the company remains a trusted partner for businesses navigating today's fast-changing logistics landscape. Its focus on growth, innovation, and responsibility ensures that it will continue to meet the needs of an expanding customer base while contributing to a sustainable future.

PRODUCTS

Blue Dart is India's market leader in premium express logistics. The award-winning product and service offerings provided to customers contribute to the organization's trust and loyalty. We are currently the only express carrier in the country that provides a full range of services, ranging from the shipping of a single document to a

charter load of shipments. Our services are constantly monitored to maintain a net service level of 99.96%. The company offers services in the air express, the ground express, and multi-modal express solutions within day-definite and time-definite delivery schedules.

Blue Dart is the only express logistics operator with its own fleet of scheduled Boeing 757-200 and 737 freighter services, offering a larger capacity than any other domestic airline in the country. Our focus through our air express solution is to carry shipments as our primary business, rather than as a by-product of a passenger airline. A dedicated aviation system to support Blue Dart's services is self-sustaining, with its own bonded warehouses, ground handling, and maintenance capability.

Offerings:

The key market-defining domestic express offerings include Time-Definite Solutions in B2B and B2C (Domestic Priority 1030, Domestic Priority 1200, Air Package Express (Apex) 1200), Day-Definite Solutions (Domestic Priority, Air Package Express (Apex), Surface B2B, eCom Air, eCom Surface, and eCom Surface Lite), as well as the Temperature Controlled Logistics (TCL) solutions.

Technological Solutions:

Initiatives such as On-The-Move (OTM) handheld devices, Retail Point of Sale (POS), Reverse Logistics (Open and Close), the offering of 16 digital wallets on courier handhelds, and the Call Bridge facility have all been appreciated as industry-leading solutions and benchmarks. Blue Dart also pioneered Drone Delivery, Contactless Delivery (CLD) service during the pandemic to ensure a healthy and safe delivery process while enhancing the customer experience.

Blue Dart Med-Express Consortium:

Anticipating the need for future-ready logistics in healthcare, Blue Dart launched the Med-Express Consortium in 2022-23, under the Government of India's 'Medicine from the Sky' initiative. In collaboration with the Ministry of Civil Aviation, Government of Telangana, NITI Aayog, and the World Economic Forum, this initiative aims to strengthen medical supply chains in India's most inaccessible regions.

The project uses Unmanned Aircraft Systems (UAS) to transport temperature-sensitive shipments such as vaccines, blood samples, and oxygen-dependent medical products with a payload capacity of up to 5 kg. These drones are capable of two-way deliveries between distribution centres and rural healthcare facilities, ensuring timely access to critical medical supplies.

By focusing on high-dependency healthcare logistics, Blue Dart is expanding its service to support underserved communities within India. We are actively engaging with state governments and

MANAGEMENT DISCUSSION AND ANALYSIS

health sector partners to scale this initiative and provide reliable, contactless delivery solutions that address pressing public health challenges right where they're needed most.

CUSTOMER CENTRICITY

In a world reshaped by technological advancements and shifting consumer expectations, a customer-centric approach is no longer optional—it is the foundation for sustainable growth and enduring business success. As industries navigate disruptions stemming from new technologies, geopolitical changes, and evolving market dynamics, placing customers at the core of business operations has proven to be the most effective way to drive long-term value. Whether serving businesses (B2B), consumers (B2C), or hybrid models (B2B2C), the customer-backed business model (CBM) is transforming how organizations deliver seamless experiences while achieving outsize business impact.

Organizations today can no longer afford to optimize processes in isolation or within functional silos. Legacy models often result in fragmented operations, disconnected customer experiences, and suboptimal outcomes. Companies that have succeeded in adopting a CBM have demonstrated that integrating business functions, enabled by digital technologies like AI and data analytics, can unlock unprecedented growth.

A fully integrated customer-backed approach begins with a single, unified view of customer interactions and extends across the entire value chain—covering sales, marketing, supply chain, R&D, and service functions. This holistic approach allows companies to anticipate customer needs, personalize offerings, and adapt dynamically to market changes. One industrial company, for instance, used this model to achieve an 80% reduction in supply and demand balancing time, while also boosting profitability and resilience.²⁴

The emergence of technologies such as artificial intelligence, the Internet of Things (IoT), and generative AI has given companies the tools to transform their customer engagement. These innovations empower organizations to generate real-time insights and create data-driven solutions tailored to individual customer journeys. For instance, real-time equipment monitoring and predictive maintenance ensure proactive customer service in industrial sectors, while personalized digital solutions cater to individual preferences in B2C environments.

Blue Dart has embraced these capabilities, leveraging AI-driven data analytics to optimize routes, enhance operational efficiencies, and deliver value precisely where customers need it. Our Digital Parcel Lockers and strategic alliances with partners such as India Post extend this commitment by enabling last-mile delivery solutions that prioritize speed, convenience, and flexibility for customers. At the heart of a customer-centric strategy lies the

ability to deliver customized solutions tailored to unique customer needs. By moving beyond standardized offerings, companies can foster deeper, trust-based relationships. Personalized experiences in logistics—whether through flexible delivery windows, customized notifications, or shipment tracking—are essential for meeting evolving customer demands.

Blue Dart's expanding network across emerging towns and cities ensures that customers in Tier 2 and 3 markets receive the same premium service as metropolitan hubs. By combining digital innovation with a customer-centric focus, we provide reliable, transparent, and proactive logistics solutions that reflect a deep understanding of customer preferences. A successful customer-centric approach requires collaboration across functions and external ecosystems. Companies must create closed-loop systems where insights from customer interactions continuously inform product development, operational improvements, and service enhancements. Data integration and unified decision-making processes are critical to achieving this.

Blue Dart's collaborative logistics ecosystem exemplifies this principle. By integrating technology, data, and strategic partnerships, we deliver a consistent and optimized customer experience even in the face of global supply chain disruptions and evolving market needs. For example, we are enhancing operational efficiency and resilience by utilizing AI-powered route optimization and leveraging our EV fleet for sustainable deliveries. Looking ahead, the customer-centric model will continue to evolve with emerging innovations like generative AI, autonomous deliveries, and blockchain-enabled supply chains. These technologies will drive further enhancements in personalization, visibility, and real-time customer engagement.

At Blue Dart, customer centricity is embedded in every decision we make. As the Provider of Choice, we focus on delivering exceptional experiences by combining innovation, resilience, and strategic foresight. Our ability to adapt to changing customer needs, mitigate challenges, and leverage technology is at the heart of our ongoing transformation. This commitment allows us to create a distinctive experience across the customer life cycle, ensuring we meet customers wherever they are—on their terms, with optimized solutions, and at the speed they demand. By consistently aligning our business objectives with customer needs, we reinforce our role as a trusted partner, driving growth and setting new standards for excellence in the express logistics industry.

Digitalisation: A Key Lever in Blue Dart's Strategic Evolution

The logistics industry has undergone a profound revolution in recent years, driven by the rapid adoption of digitalization technologies. At the core of this transformation is a response to evolving customer demands and persistent challenges such as labor availability.

MANAGEMENT DISCUSSION AND ANALYSIS

These technologies have not only improved productivity but also strengthened the resilience, transparency, and overall efficiency of supply chain ecosystems.

From the initial design of vehicles and ships to the vast network of infrastructure, including roads, bridges, rail networks, and ports, digitalization has touched every facet of the transport supply chain. Operations have been revolutionized through efficient capacity allocation, streamlined cargo management, and real-time shipment tracking. The integration of technologies such as IoT, cloud computing, big data analytics, automation, and AI has ushered in a new era of automation and connectivity, transforming logistics and transport operations globally.

Digital platforms have emerged as innovative business models, enabling new transport services and increasing the tradability of logistics services. The shift towards data-driven decision-making has become a norm for logistics businesses and regulators, fostering synergies across sectors like telecommunications, construction, energy, and environmental services. These advancements have driven mutually beneficial progress, making digitalization a cornerstone of modern supply chain management.

At Blue Dart, technology adoption is integral to our strategy to address global disruptions affecting the logistics sector. As a leading express logistics provider, we recognize the significant contribution our industry makes to India's national economy. Our investments in scalable, AI-ready infrastructure reflect our commitment to delivering operational efficiency and superior customer service. We are equally focused on upskilling our workforce to ensure they are equipped to thrive in a digitally-driven environment. Moving forward, our efforts will center on harnessing AI effectively, emphasizing comprehensive training programs, and facilitating change management initiatives to ensure seamless transitions and stakeholder alignment.

We acknowledge the challenges associated with implementing AI, particularly in areas like data collection, standardization, and privacy management. Integrating AI into existing systems may involve significant investment and could potentially disrupt workflows. However, through careful planning, cross-departmental collaboration, and a commitment to refining AI algorithms, we aim to mitigate these challenges while optimizing outcomes.

The Generative AI in Logistics market is reshaping the supply chain and transportation landscape, unlocking new opportunities to enhance operational efficiency. AI-driven route optimization has reduced transportation costs and improved delivery times. Advanced demand forecasting is transforming inventory management, reducing stockouts, and enhancing operational continuity. Real-time tracking has elevated visibility and customer satisfaction, while AI-powered sustainability initiatives are minimizing emissions and contributing to a greener future.

While we recognize the transformative potential of Generative AI, we remain in the process of fully integrating these capabilities into our systems to ensure sustainable and impactful implementation.

In FY 2024-25, Blue Dart's strategic approach to digitalization played a pivotal role in reinforcing our leadership in India's dynamic e-commerce sector. Through the adoption of advanced technologies and strategic partnerships, we empowered businesses to scale seamlessly, offering reliable and efficient logistics solutions. Our technological advancements have redefined last-mile delivery with unmatched precision, efficiency, and reliability—critical factors in meeting the growing demands of the e-commerce sector.

With innovation embedded at the heart of our operations, Blue Dart leveraged future-ready technology to deliver a superior customer experience. By tapping into our extensive network, we expanded our last-mile delivery reach to some of the most remote regions of the country, ensuring resilience, reliability, and responsiveness.

Looking ahead, we will continue our journey toward comprehensive digitalization, integrating advanced technologies and refining processes to maintain our position as a trusted partner in India's logistics ecosystem.

OPPORTUNITIES AND FUTURE OUTLOOK

Opportunities in the Logistics Sector

As India strengthens its economic position and advances toward its ambitious target of a US\$ 5.5 trillion GDP by 2027, the logistics sector is poised to play a transformative role in enabling trade, efficiency, and connectivity. With rapid advancements in infrastructure, technology, and policy reforms, several emerging opportunities are reshaping the industry, fostering growth, and positioning India as a competitive logistics hub. The digital transformation of logistics is accelerating, with Artificial Intelligence (AI), Blockchain, the Internet of Things (IoT), and Big Data analytics revolutionizing supply chain operations. These technologies enhance efficiency, improve transparency, and optimize fleet management. Additionally, the growing adoption of automation, RFID, GPS tracking, and predictive analytics is streamlining logistics, reducing costs, and improving delivery speed. Businesses are investing in cloud-based platforms and real-time tracking solutions to strengthen decision-making and demand forecasting, making logistics operations more agile and data-driven.

The rise of e-commerce and omnichannel retailing has significantly increased demand for modern, technology-driven warehousing and distribution centers. Companies are integrating automation, robotics, and AI-driven inventory management to enhance operational efficiency and reduce turnaround times. The government's focus on developing multi-modal logistics parks under the National Logistics Policy (NLP) will further boost storage and distribution capabilities.

MANAGEMENT DISCUSSION AND ANALYSIS

The integration of warehouse automation and AI-powered inventory tracking is also improving supply chain responsiveness.

India is witnessing a strategic shift toward multimodal transportation, integrating road, rail, air, and waterways to enhance cost-effectiveness and efficiency. Investments in Dedicated Freight Corridors (DFCs), inland waterways, and coastal shipping are creating new avenues for cargo movement while reducing dependency on road transport. The introduction of smart transportation systems and digital freight networks is further optimizing transit times and reducing logistics costs. These developments are crucial for strengthening connectivity and enhancing trade competitiveness.

With the rapid expansion of e-commerce, last-mile delivery solutions have become a critical focus area. Companies are adopting drones, autonomous delivery vehicles, smart lockers, and micro-fulfillment centers to improve speed and efficiency. The use of AI-driven route optimization and contactless delivery solutions is enhancing customer experience while reducing operational expenses. Additionally, hyperlocal delivery models and strategic partnerships with local service providers are unlocking new growth opportunities in urban and rural markets alike.

The logistics sector, employing over 22 million people, is experiencing a rising demand for digitally skilled professionals in supply chain management, automation, and logistics analytics. Government-backed skill development programs and industry collaborations are playing a pivotal role in bridging this talent gap. The emergence of new job roles in robotics operations, digital freight management, and AI-driven logistics analytics is creating new career pathways in the industry. Government initiatives such as Bharatmala, Sagarmala, and PM GatiShakti are significantly enhancing infrastructure development, highway expansion, rail modernization, and port efficiency. These investments are improving cargo movement, reducing logistics costs, and strengthening India's position as a trade facilitator. The expansion of logistics parks and free trade warehousing zones is also fostering seamless international trade and supply chain efficiency.

India's logistics sector has become an attractive destination for Foreign Direct Investment (FDI), with global logistics players expanding their operations. The government's push for 100% FDI in logistics and supply chain startups is fostering innovation, partnerships, and service excellence, strengthening domestic capabilities and enhancing global competitiveness. The demand for temperature-controlled logistics is also on the rise, driven by the pharmaceutical sector, perishable goods, and fresh food delivery. Investments in cold storage infrastructure, reefer transportation, and AI-driven temperature monitoring are improving efficiency and compliance in this segment. The use of blockchain for real-time tracking and IoT-enabled temperature control systems is further

optimizing cold chain logistics, ensuring better product quality and regulatory adherence.

With its strategic location, expanding infrastructure, and progressive policies, India is well-positioned to become a global logistics hub. Strengthening trade corridors, expanding special economic zones (SEZs), and fostering international partnerships are reinforcing India's role in global supply chains. The development of digital logistics corridors and free trade zones is further accelerating the nation's competitiveness. The logistics sector in India is on a transformative path, presenting immense opportunities for stakeholders across the value chain. Investments in technology, multimodal transport, and sustainable logistics will be critical in building a resilient, agile, and globally competitive logistics ecosystem. As India progresses towards its economic goals, the logistics sector will remain a key driver of seamless trade, job creation, and enhanced global connectivity.²⁵

The government's initiative to promote digital trade facilitation has led to the launch of Bharat Trade Net (BTN), a comprehensive digital platform designed to optimize supply chain operations and reduce transit delays. BTN aims to serve as a vital digital infrastructure for international trade, offering a unified platform for import-export transactions, centralizing trade documentation, and providing digital financing solutions. Additionally, the platform will align with global best practices, boosting India's competitiveness in the global market.²⁶

Future Outlook

India is on track to becoming a \$5 trillion economy by 2027, with a strong, efficient, and technology-driven logistics sector playing a pivotal role in this transformation. The government's Amrit Kaal 2047 vision and the Union Budget's strategic allocations reinforce India's ambition to be an export-led, self-reliant economy. With the logistics sector contributing directly to economic acceleration, key players in the industry have an opportunity to shape the nation's growth trajectory. The policy landscape is evolving to support this transformation. The government has committed Rs 80 lakh crore across 300+ infrastructure projects by 2047, focusing on logistics, transportation, and shipping. Additionally, the latest 100-day plan highlights major advancements, including high-speed corridors spanning 700 kilometers and 3,000 kilometers of new highway contracts, complementing initiatives such as express railway services and industrial corridors.

Logistics modernization is rapidly gaining momentum, with companies embracing automation, AI-driven analytics, robotics, cloud computing, and digital inventory management. Emerging innovations, such as drone deliveries and outdoor robotics, will further revolutionize last-mile efficiency. These advancements align seamlessly with India's focus on building a resilient, technology-

MANAGEMENT DISCUSSION AND ANALYSIS

enabled logistics ecosystem. Simultaneously, sustainability remains a key priority. With a strong push toward low-carbon logistics, businesses are investing in electric vehicles (EVs), alternative energy sources, and green supply chains. Consumers are increasingly making eco-conscious choices, driving demand for sustainable delivery solutions.²⁷

As an industry trailblazer, Blue Dart remains at the forefront of innovation, sustainability, and infrastructure development. The Bijwasan Integrated Hub, India's largest low-emission logistics facility, embodies our commitment to service excellence and environmental responsibility. By strategically expanding our network, adopting advanced technologies, and enhancing distribution capabilities, we continue to drive speed, accuracy, and operational efficiency.

With a future-ready approach, Blue Dart is well-positioned to seize emerging opportunities, empower businesses, and fuel India's economic growth. Our commitment to sustainability, scalability, and service excellence ensures that we remain the preferred logistics partner, delivering exceptional value to customers and stakeholders alike.

RISKS AND CONCERNS

Air Express

India's air cargo market has sustained its upward momentum, with volumes reaching 3.4 million tonnes in FY2024, representing a 7% year-on-year increase. This growth trajectory is expected to continue, with the market projected to reach USD 17.22 billion by 2028. The expansion is being driven by strong fundamentals, including the rapid growth of e-commerce, supportive government policies, and strategic shifts in global trade dynamics. Disruptions in traditional maritime routes, such as the Red Sea crisis, have increased the reliance on air freight, further elevating India's prominence as a strategic logistics hub. Major airports facilitating cargo movement include Indira Gandhi International Airport in Delhi, Chhatrapati Shivaji International Airport in Mumbai, and Kempegowda International Airport in Bengaluru.

Despite the promising outlook, several structural concerns continue to weigh on the sector. India's international air cargo segment remains overwhelmingly dominated by foreign carriers, which handle nearly 94–95% of total volumes, while domestic airlines largely depend on belly space in wide-body passenger aircraft. This limited domestic participation not only constrains market competitiveness but also exposes the sector to external geopolitical risks and supply chain disruptions. Furthermore, the growth of Indian air cargo operators has been slower than global counterparts, largely due to capacity limitations, high operating costs, and the absence of a sizable, dedicated freighter fleet. While Indian carriers are placing large

aircraft orders and gradually expanding into freighter operations, the pace of change remains measured.

Another concern is the industry's high dependence on a narrow product portfolio. A significant proportion of business is concentrated in one or two key segments, and the growth potential within these verticals appears limited over the medium term. This lack of diversification presents a structural risk, particularly in a highly competitive and rapidly evolving global logistics environment. Additionally, infrastructure constraints, particularly at secondary airports, continue to pose operational challenges. Although government initiatives such as the National Air Cargo Policy and dedicated freight corridors have improved the logistics ecosystem, gaps in execution, inconsistencies in regulatory frameworks, and delays in infrastructure development still affect efficiency and scalability.

Cost volatility is also a pressing issue. Factors such as fluctuating fuel prices, high aviation related costs, and elevated security costs significantly impact margins. Moreover, the push towards sustainable practices is becoming increasingly important, with pressure mounting to transition to greener operations. Investments in electric ground handling equipment, carbon offset programs, and digitized cargo tracking systems are necessary to remain competitive, but they also add to the financial burden for many operators. Nonetheless, with India's robust economic growth, increased trade volumes, and expanding aviation infrastructure, the air express sector remains poised for long-term growth, provided these risks are addressed strategically.

Ground Express

The ground express segment in India continues to grow at a robust pace, underpinned by the exponential rise of e-commerce, increasing urbanization, and changing consumer expectations around speed and reliability of deliveries. In 2024, the market was valued at approximately USD 8.58 billion, with a projected compound annual growth rate of 10.87% through 2030.²⁸

The increasing adoption of quick commerce and same-day delivery models is driving innovation across the value chain, compelling service providers to enhance operational agility and invest in advanced logistics technologies. Additionally, rising middle-class incomes and discretionary spending have fuelled parcel volumes, offering further growth opportunities. To offset inflationary pressures and higher input costs, major players, including global parcel integrators like DHL Express, have announced rate increases for 2025, with DHL implementing a 6.9% price hike effective January 1.

While the market's expansion presents significant opportunities, it is not without its challenges. Operational inefficiencies stemming from urban traffic congestion, last-mile delivery complexities, and high fuel costs continue to impact service levels and cost

MANAGEMENT DISCUSSION AND ANALYSIS

structures. Moreover, the sector faces regulatory burdens, frequent changes in tax compliance requirements, and a shortage of skilled logistics personnel. As technology becomes central to operational efficiency, substantial capital investment is needed to upgrade systems, integrate automation, and optimize delivery routes. Smaller players, in particular, may struggle to meet these demands without impacting profitability.

A notable concern in this segment is the high dependence on parcel express services as the primary revenue generator. The limited breadth of product offerings and the absence of significant diversification increase exposure to shifts in market dynamics and consumer behaviour. This dependence could present a long-term risk, particularly as customer expectations evolve and competitive intensity rises. At the same time, the growing emphasis on environmental sustainability requires significant transformation across logistics operations. Rising fuel costs, emissions regulations, and pressure from enterprise customers to align with ESG goals are accelerating the need for electric vehicles, renewable energy-powered warehouses, and carbon-neutral logistics models. Meeting these expectations while maintaining cost competitiveness will be a key challenge for the industry moving forward.

COMPETITION

India's Logistics sector saw significant transformation in 2024, driven by key trends like the adoption of multipolar supply-chain strategies, rapid e-commerce growth, and the increasing role of third-party logistics providers.

As businesses diversify their supply chains across multiple regions, there will be a greater need for localized distribution centers to cater to evolving consumer expectations. E-commerce will continue to fuel the demand for smaller, more agile warehouses, which are strategically positioned for faster deliveries. This shift will increase competition among logistics players, pushing them to adopt advanced technologies and innovate in their operational models to stay ahead. Additionally, the dominance of third-party logistics firms will further consolidate the market, placing pressure on smaller players to scale up and improve efficiency in order to compete. According to ICRA, organised players will continue to maintain the pricing premium amid an overall inflationary cost scenario and support operating profitability.

Moving forward, the logistics sector must focus on enhancing supply chain resilience through the integration of cutting-edge technology and strategic collaborations. Companies should prioritize investments in automation, data analytics, and sustainable practices to stay competitive in an increasingly fragmented market. With regional markets such as Delhi-NCR, Bengaluru, and Kolkata remaining central to operations, businesses must also fine-tune their location strategies to leverage the benefits of

high-demand zones. By prioritizing flexibility, operational efficiency, and sustainability, logistics firms can better navigate the evolving landscape and capture growth opportunities.²⁹

ECONOMIC FACTORS

The Indian logistics sector operates in an intensely competitive landscape, driven by a fragmented market with numerous small players and a few dominant firms focusing on technology adoption, customer service, and specialized solutions to gain a competitive edge. The rapid expansion of e-commerce has further intensified competition, particularly in last-mile delivery, where speed, efficiency, and cost-effectiveness determine market leadership. While large logistics providers leverage digital innovations, automation, and multimodal transportation strategies to streamline operations, smaller firms compete primarily on pricing, making cost efficiency a crucial differentiator.

Despite its significant contribution of around 13-14% to India's GDP and its role in providing livelihood to over 22 million people, the logistics industry faces persistent challenges, including infrastructure bottlenecks, land constraints for warehousing, and skilled workforce shortages. The high dependence on road transport—accounting for 60%+ of cargo movement—adds to cost pressures, as inadequate road infrastructure and congestion impact supply chain efficiency. Rail, air, and water-based logistics, which collectively handle a smaller share of freight movement, require strategic investments to improve multimodal connectivity and reduce overall logistics costs.³⁰

The competitive environment in the sector is further shaped by evolving regulatory frameworks and policy reforms aimed at streamlining logistics operations. The push for infrastructure development, digitization, and sustainability initiatives is fostering a shift towards integrated and technology-driven logistics solutions. Companies that can successfully balance cost management, workforce upskilling, and technology investments will be better positioned to navigate this evolving landscape. Collaborative efforts between industry stakeholders and policymakers will be key in overcoming operational challenges and ensuring a more resilient, efficient, and sustainable logistics ecosystem that supports India's long-term economic growth.³¹

CYBER RISK

Digital interconnectivity increases efficacy but also makes forwarders, carriers, and hubs more vulnerable to be targeted by cybercriminals. The need for greater connectivity between technologies such as IT, OT and IoT, as well as different vendors, has propelled the industry to new heights of fleet efficiency, route optimisation, and profit margins.

MANAGEMENT DISCUSSION AND ANALYSIS

One of the risks for freight forwarders is cybercriminals impersonating a legitimate freight forwarding company by copying its website. The aim is to steal freight forwarding fees or any cargo that falls into their possession. Such methods can also be referred to as "brandjacking" and are often used to directly tarnish a brand's reputation. In today's day and age, it is impossible to defend against all cyberattacks, so companies usually have to strengthen their defences. They can begin leveraging the cybersecurity community for threat information and foster greater intelligence-sharing to build early warning systems.

Companies are advised to review and revise incident and crisis management plans and playbooks. They can also run exercises to validate the organisation's confidence in business recovery. To ensure the safety and security of its stakeholders, Blue Dart follows all the compliances to minimize cyber risk from internal and external threats. The company sends out cautionary notices time and again customers through all the mediums of communication.

INTERNAL CONTROLS AND THEIR ADEQUACY

In parallel with operational and market risks, the robustness of internal control systems remains fundamental to long-term sustainability and regulatory compliance. The company has instituted comprehensive internal controls that are designed to ensure effective governance, safeguard assets, and maintain the integrity of financial and operational reporting. These controls are routinely reviewed and tested through structured audit processes, and any identified deficiencies are promptly addressed with corrective action. While not a standalone risk factor, the adequacy and reliability of internal controls are essential in mitigating broader enterprise risks, including financial misstatements, compliance lapses, and operational disruptions. As the company expands and diversifies, continued enhancement of internal controls will remain a strategic priority to ensure resilience and accountability across all business functions.

The company's internal control system is further supplemented by internal audits carried out by the internal audit team and supported by the co-sourced audit firm, M/s PricewaterhouseCoopers Services LLP. Well-established and robust internal audit processes, both at the business and corporate levels, continuously monitor the adequacy and effectiveness of the internal control environment across the company and the status of compliance with operating systems, internal policies and regulatory requirements.

Blue Dart has always maintained adequate and effective internal financial controls based on internal control over financial reporting criteria established by the company. This takes into account the essential components of internal control stated in the Guidance Note on 'Audit of Internal Financial Controls over Financial Reporting' issued by the Institute of Chartered Accountants of

India (ICAI). These responsibilities include; the maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, safeguarding its assets, prevention & detection of frauds and errors, accuracy & comprehensiveness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

The Audit Committee of the Board works closely with both the Internal Auditors and Statutory Auditors ensuring that all their queries are addressed. The company also conducts Risk Assessment Workshops annually to define and identify what the company's most significant risks are and how those risks can be mitigated. The members of the Leadership team actively participate and deliberate in the risk workshops.

SUSTAINABILITY

Since its inception, Blue Dart has remained steadfast in its commitment to positive growth and development across social, environmental, and economic dimensions. With a legacy spanning over three decades, the company integrates conscientious corporate citizenship into its operations, creating value for shareholders while ensuring the well-being of employees, the environment, and the communities it serves. Our Board of Directors, Management, and employees actively foster a responsible corporate culture, aligning with the broader sustainability commitments of our parent company, DHL Group. Given the logistics industry's significant influence on the global economy and environmental impact, DHL Group has set an ambitious goal of achieving net-zero emissions by 2050, positioning itself as a benchmark for sustainability.

In pursuit of this vision, Blue Dart, in collaboration with DHL Group, pioneered India's first end-to-end GoGreen Carbon Neutral Service (CNS) across international and domestic markets. During the fiscal year under review, the company continued offering this specialized service, enabling customers to offset emissions generated from transportation.

Under the GoGreen pillar, Blue Dart launched the Blue Greens programme, which drives sustainable initiatives. To date, over 888,000 trees have been planted, with a target of reaching 1 million trees by FY25-26. Upon maturity, this initiative will sequester over 17,760 tonnes of CO₂ per year. Additionally, Blue Dart has integrated water conservation into its sustainability strategy, enhancing groundwater levels and surface water storage in water-stressed regions.

As part of our sustainability efforts, we are actively working to decarbonize operations through multiple initiatives. These include reducing greenhouse gas emissions in aviation via the adoption of Sustainable Aviation Fuel (SAF) and supporting India's SAF goals

MANAGEMENT DISCUSSION AND ANALYSIS

for domestic operations. We are also enhancing last-mile and long-haul deliveries with electric vehicles (EVs), implementing carbon-neutral buildings, and expanding our sustainable product portfolio. As a result, Blue Dart has achieved a 47% improvement in carbon efficiency in 2024 compared to the 2008 baseline.

Beyond environmental sustainability, Blue Dart upholds its commitment to social responsibility through initiatives under GoTeach and GoHelp. Through GoTeach, we address the gap between formal education and employment, particularly for underprivileged youth. The Blue Edge initiative empowers young individuals by providing training in IT, communication, personality development, and life skills, enhancing their employability and career prospects.

Under GoHelp, Blue Dart partners with various organizations to support community welfare initiatives. These include funding operational expenses for a childcare home catering to cancer-affected children and their families, ensuring year-round access to clean drinking water for villages facing severe water shortages, improving livelihoods, and organizing free eye check-up camps and cataract surgeries for the elderly.

Blue Dart adheres to all applicable laws, ethical standards, and environmental guidelines while maintaining an ongoing dialogue with stakeholders. This ensures alignment with societal and environmental expectations, reinforcing our role as a trusted, responsible, and sustainable logistics provider. Our Strategy 2030—"Accelerate Sustainable Growth"—underscores our commitment to decarbonizing operations while enhancing profitability. With the introduction of "Green Logistics of Choice" as a fourth bottom line, we aim to lead in low-carbon logistics and provide the best green solutions in the industry. By continuously innovating and implementing sustainable practices, Blue Dart is dedicated to shaping a more resilient and environmentally conscious future for logistics.

HUMAN RESOURCES

India has been one of the fastest-growing and emerging economies in the world. Blue Dart is geared to achieve business success by leveraging its strengths and continuously improving for excellence towards being the Employer of Choice. In this scenario, the company's human resources function is also evolving to contribute to the business through various critical interventions in areas such as talent attraction, key talent engagement and development, employee health, and well-being. Keeping talent motivated, fostering a collaborative and winning culture, and providing learning and development opportunities continue to remain critical HR priorities this year, with increased rigor and focus.

Being an Equal Opportunity Employer, Diversity & Inclusion remains a focal point in terms of talent acquisition to increase

the representation of women across the organization. The efforts continue not just to hire diverse talent but also to ensure Blue Dart is a safe and nurturing workplace for them.

EMPLOYEE MORALE, MOTIVATION & ENGAGEMENT

To ensure that our employees are being heard, we continue to leverage the DHL Group's Employee Opinion Survey ("EOS"), which was conducted virtually. The Employee Engagement score was reported at 95%, with 94% of employees participating in the EOS survey this year.

Employee engagement activities such as festival celebrations, health-related talks, and virtual events, among others, helped increase employee bonding and engagement. Additionally, Blue Dart locally conducted DHL's global employee engagement initiatives with full enthusiasm. These included:

- Blue Dart Anniversary Celebration
- Appreciation Week
- Sports Tournaments

PERFORMANCE MANAGEMENT

The performance management system is designed not just to evaluate performance but also to identify developmental needs and support employees in their career growth. This year, the performance management process has been upgraded to include the Six DHL Group Leadership Attributes. This applies to roles including managers and above. The six attributes align with the 'Head, Heart, and Guts' leadership elements: being results-oriented, leveraging strengths, providing purpose, creating trust, focusing on clear priorities, and maintaining a positive approach to challenges, uncertainty, and change.

Our 'People-First' philosophy guides us to drive a meritocratic and development-oriented people management culture within the organization. Individual and collective team efforts are objectively assessed, recognized, and developed.

Leadership Evaluation Achievement, Development, and Succession (LEADS): This process, as part of the DHL Group, helps assess performance, identify individual potential, determine developmental needs objectively, and build relevant, critical competencies. Blue Dart has integrated this approach into its talent management system as a standardized and scientific method to develop employees. LEADS provides employees with visibility into their career journey. Additionally, succession planning under LEADS ensures business continuity by mitigating the risks and impact of resource unavailability within the organization. LEADS-related conversations is a crucial managerial activity at Blue Dart in the near future.

MANAGEMENT DISCUSSION AND ANALYSIS

EMPLOYEE DEVELOPMENT, SAFETY & SUPPORT

Motivated, engaged, and high-performing teams drive superior results. Our various programs are designed to cater to critical developmental needs and were deployed for various target groups during the year under review.

We have Certified Programmes that emphasize the common values of 'Passion, Can Do, Right 1st Time, and As One' and a strong focus on quality, which serve as foundational tools necessary for all Blue Darters to deliver customer-centric excellence.

- **Certified eCommerce Specialist (CeS):** A flagship program guided by DHL, which is set to be rolled out across Blue Dart. It aims at developing an in-depth understanding of DHL and Blue Dart's e-commerce business while enhancing critical managerial skills, values, and leadership attributes to drive business. It encompasses individual contributors, managers, and senior managers. A total of 2,494 participants have undergone certified training, including senior leaders' facilitation programs.
- **Great Manager Institute (GMI) Session:** The senior management team participated in a session on managing self and people.

Employee Safety & ESG Compliance:

- **OSHA Training:** 16,258 employees, including outsourced staff, were covered.
- **POSH Training:** 19,477 employees, including outsourced staff, were covered.
- **DHL Mandatory Trainings:** As an ESG-compliant organization aligned with DHL Group standards, the Senior Management Team completed system-based training on My Talent World. Topics included Data Privacy Policy, Certified Data Protection, Anti-Corruption Compliance, Code of Conduct, Insider Trading Law, and Competition Compliance. A total of 4,816 employees participated in these mandatory training sessions.
- **Bitesize Programs:** 10,420 employees attended several behavioural sessions conducted by in-house trainers in space of Innovation, Leadership, and Communication

Employee Assistance Program (EAP):

The EAP provides employees with support and one-on-one counseling services through mental health professionals. Webinars and talks were conducted throughout the year to address mental health topics, break stigmas, and promote awareness. Employees also have access to one-on-one support for mental health concerns,

grief, loss, and other challenges. Monthly open sessions address topics such as conflict management, resilience-building, and managing guilt. A special training session was also conducted for the Emergency Response Team to handle unforeseen situations and support employees in critical circumstances.

EMPLOYEE REWARD & RECOGNITION

To recognize and motivate employees for their outstanding work:

- 750 employees received the on-the-spot 'Bravo' award from individual managers for excellence in FY 2024-25.
- 60 employees were awarded 'Employee of the Year,' with 30 additional nominees recognized across the country by the Managing Director.
- 519 employees joined the True Blue Club upon completing five years of service.
- 6 employees received the Super Darter Award.

ORGANIZATION-WIDE RECOGNITION

Blue Dart is consistently featured among the Top 100 Great Places to Work in India, ranking 80th by GPTW. We have also been recognized as a Top Employer by the Top Employer's Institute and acknowledged as one of the Best Places to Work for Women by The Economic Times.

OTHER PROGRAMMES

Upstairs – A GoTeach Initiative

A scholarship program supporting colleagues' children by providing financial assistance and mentorship until their 12th standard. 12 students qualified this year.

Subsidized Tuition Education Plan (STEP)

A developmental initiative that enables employees to acquire higher qualifications for career growth and personal development. 24 employees benefited from this program.

Blue Dart's Reimbursement of Accident Claims & Expenses (BRACE)

A wellness initiative providing timely financial relief, including reimbursement of medical expenses. 116 employees benefited.

Death Benevolent Fund (DBF)

In line with Blue Dart's People First philosophy and its unwavering commitment to employee welfare, the company has established a Death Benevolent Fund. This fund is a collective effort, supported by contributions from both the company and its employees, aimed

MANAGEMENT DISCUSSION AND ANALYSIS

at providing financial assistance to the nominee of an employee in the unfortunate event of their untimely death during employment. DBF covers employees up to certain grades. Employees in higher grades are covered under a separate Term Life Insurance Policy, where the sum assured is paid directly by the insurance company to the nominee.

Diversity & Inclusion

Blue Dart is committed to Diversity & Inclusion and aims to be an equal opportunity employer that attracts and retains diverse talent. Our goal is to create a safe and inclusive workplace aligned with Blue Dart and DHL's vision.

- 16% of our management positions are held by women.
- Women hiring rate: 8.1% this year.
- HR has committed to increasing diversity hiring year over year.

Key Initiatives:

- **Celebrating Gender Diversity:** We published interviews with our female colleagues on the Blue Dart career page, showcasing their experiences and the organization's commitment to diversity and inclusion.

CAUTIONARY STATEMENT

The statements included in this Report may contain forward-looking statements within the meaning of applicable Securities Law and Regulations. Many factors could cause the company's actual results, performances, or achievements to differ materially from any future results, performances, or achievements. INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLUE DART EXPRESS LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Blue Dart Express Limited (the "Company"), which comprise the Balance Sheet as at 31st March 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	Auditor's Response
<u>Revenue Recognition – Undelivered shipments at year end</u>	<u>Principal audit procedures performed:</u>
Considering the involvement of management judgement and estimates for revenue recognised based on performance obligations satisfied over time, the same is identified as key audit matter.	We selected samples, for revenue recognised for the completed performance obligations in respect of undelivered shipments as at the year end. For the selected samples, we verified the underlying documents including proof of service delivery for services completed subsequent to the year end and tested the working for allocation of transaction price to the specific completed performance obligation.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors report, Management Discussion and Analysis, Corporate Governance Report and Business Responsibility and Sustainability Report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon. The Directors report, Management Discussion and Analysis, Corporate Governance Report and Business Responsibility and Sustainability Report is expected to be made available to us after the date of this auditor's report.
- Our opinion on the standalone financial statements does not cover the other information and will not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- When we read the Directors report, Management Discussion and Analysis, Corporate Governance Report and Business Responsibility and Sustainability Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Responsibilities of Management and Board of Directors for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLUE DART EXPRESS LIMITED

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to standalone financial statements.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLUE DART EXPRESS LIMITED

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- (i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note 40 to the standalone financial statements;
 - (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - (iv) (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in the note 48(i) to the financial statements no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in the note 48(ii) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - (v) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.
- As stated in note 42 to the standalone financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. Such dividend proposed is in accordance with section 123 of the Act, as applicable.
- (vi) Based on our examination, which included test checks, the Company has used accounting software systems for maintaining its books of account for the financial year ended March 31, 2025 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems.
- Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of Blue Dart Express Limited ("the Company") as of March 31, 2025, in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to standalone financial statements based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the

auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to standalone financial statements

A company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at 31st March 2025, based on the criteria for internal financial control with reference to standalone financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2, under 'Report on Other Legal and Regulatory Requirements' section of our Report of even date on financial statements of Blue Dart Express Limited)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- i. (a) A. The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment, capital work-in-progress and relevant details of right-of-use assets.
B. The Company has maintained proper records showing full particulars of intangible assets.
- (b) Some of the Property, Plant and Equipment, capital work in progress and right-of-use assets were physically verified during the year by the Management in accordance with a program of verification, which in our opinion provides for physical verification of all the Property, Plant and Equipment, capital work-in-progress, and right-of-use assets at reasonable intervals having regard to the size of the Company and the nature of its activities. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) Based on our examination of the registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title deeds of all the immovable properties, (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.
- (d) The Company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) and intangible assets during the year.
- (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii. (a) The inventories were physically verified during the year by the Management at reasonable intervals. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.
- (b) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of ₹ 5 crores, in aggregate, at any point of time during the year, from banks or financial institutions on the basis of security of current assets. Hence, reporting on the quarterly returns or statements filed by the Company with such banks or financial institutions is not applicable.
- iii. (a) The Company has provided loans and stood guarantee during the year and details of which are given below:

Particulars	Comfort Letter (₹ Lakhs)	Loans (₹ Lakhs)
Aggregate amount granted/ provided during the year - Subsidiary	Nil	23,000
Balance outstanding as at March 31, 2025 - Subsidiary	14,500	60,750
- (b) The guarantees provided and the terms and conditions of the grant of all the above-mentioned loans, during the year are, in our opinion, prima facie, not prejudicial to the Company's interest.
- (c) In respect of loans granted provided by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are regular as per stipulation.
- (d) According to information and explanations given to us and based on the audit procedures performed, in respect of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.
- (e) None of the loans granted by the Company have fallen due during the year.
- (f) According to information and explanations given to us and based on the audit procedures performed, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause (iii)(f) is not applicable.
- iv. According to information and explanation given to us, the Company has not granted any loans, made investments or provided guarantees or securities that are covered under the provisions of sections 185 or 186 of the Companies Act, 2013, and hence reporting under clause (iv) of the Order is not applicable.
- v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2, under 'Report on Other Legal and Regulatory Requirements' section of our Report of even date on financial statements of Blue Dart Express Limited)

- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet date as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there are no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.
- xxi. As required by Section 143(3) of the Act, based on our audit, we report that:
- according to the information and explanations given to us, and based on the CARO reports issued by us for the subsidiaries included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, and based on the identification of matters of qualifications or adverse remarks in those CARO reports by us, we report that us the auditors of such companies we have not reported any qualifications or adverse remarks in their CARO report.

SCHEDULES

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2025

1 General Information

Blue Dart Express Limited ('the Company') CIN L61074MH1991PLC061074 is engaged in the business of integrated air and ground transportation and distribution of time sensitive packages to various destinations, primarily within India. The Company is a public limited company incorporated in India having its registered office at Blue Dart Centre, Sahar Airport Road, Andheri East, Mumbai. The Company has its equity shares listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

The standalone financial statements were authorised for issue in accordance with a resolution of the directors on May 26, 2025.

2 Basis of preparation of financial statements

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (amended) under the provisions of the Companies Act, 2013 (the 'Act'). The financial statements have been prepared under the historical cost basis except for certain financial assets and liabilities measured at fair value and Defined benefit plans - plan assets measured at fair value (Refer note 28).

The financial statements are presented in Indian Rupees ('INR') in lakhs, which is also the Company's functional currency. The financial statements are prepared on a going concern basis.

Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The areas involving critical estimates and judgements are:

- Estimation of useful life of property, plant and equipment and intangibles assets (Refer note 3(a))
- Estimation of defined benefit obligation (Refer note 28)
- Estimation of revenue recognised (Refer note 25)

3 Material accounting policy information

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

a. Property, plant and equipment

Free hold land is carried at historical cost, net of accumulated impairment losses, if any. All other items of Property, Plant and Equipment are at historical cost, net of accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Capital work-in-progress represents Property, plant and equipment that are not yet ready for their intended use as at the balance sheet date.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

SCHEDULES

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2025

Intangible Assets:

Intangible assets are stated at cost less any accumulated amortisation and accumulated impairment losses, if any. The Company capitalises identifiable costs relating to development of internally generated software and these are stated net off accumulated amortization.

Intangible assets under development comprise costs relating to development of software that are not yet ready for their intended use as at the balance sheet date.

Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

a. Leasehold improvements	Over the period of lease term
b. Office Equipments	2 to 10 years (refer note below)
c. Electrical Equipment	6 to 10 years (refer note below)
d. Computers	3 to 6 years (refer note below)
e. Furniture Fixtures	10 years
f. Vehicles	5 to 8 years (refer note below)
g. Material Handling Equipment	10 to 15 years (refer note below)
h. Machinery and Equipment	2 to 6 years (refer note below)
i. Buildings	60 years

Note: Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Depreciation for assets purchased/sold during a year is proportionately charged.

Amortisation

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses, if any. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the profit and loss unless such expenditure forms part of carrying value of another asset.

Computer softwares, amortised under straight line method over the estimated useful life of 5 to 10 years. Internally generated software is amortised using the straight-line method over a period of 10 years, based upon its estimated useful economic life.

b. Impairment of Non Financial Assets

The Company assesses at each reporting date whether there is any indication that an asset (tangible or intangible) may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's (CGU) net selling price and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered to be impaired and is written down to its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased then such reversal is recorded in the Statement of Profit and Loss.

c. Investments in Subsidiaries

The Company has accounted for its investments in subsidiaries at cost. (Refer note 5)

d. Inventories

Inventories are stated at lower of cost and net realisable value.

Inventories primarily consist of packing and stationery consumables which are valued at cost (arrived at using First-in First-out basis).

e. Revenue Recognition

Service Charges:

Company's normal business operations consist of the business of integrated air and ground transportation and distribution of time sensitive packages to various destinations, primarily in India. All income relating to normal business operations is recognised as revenue in the Statement of profit and loss. All other income is reported as other operating income.

Revenue has been recognised when control over the services transfers to the customer i.e., when the customer has the ability to control the use of the transferred services provided and generally derive their remaining benefits. The requirement is that a contract with enforceable rights and obligations exists and, amongst other things, the receipt of consideration is likely, taking into account the customer's credit quality. The revenue corresponds to the transaction price to which the Company is expected to be entitled. Variable consideration is included in the transaction price when it is highly probable that a significant reversal in the amount of revenue recognised will not occur and as soon as the uncertainty associated with the variable consideration no longer exists. The Company does not expect to have contracts where the period between the transfer of the promised services to the customer and payment by the customer exceeds one year. Accordingly, the promised consideration is not adjusted for the time value of money.

SCHEDULES

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2025

For each performance obligation under contracts entered for logistic services, revenue is recognised over a certain period of time as determined by the Company.

Other Income:

- Interest Income (including Unwinding interest on Payload Deposit and Lease Deposit):

Interest income is recognised using the effective interest rate(EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

- Dividend Income:

Dividend income is recognised when the right to receive the dividend is established.

f. Foreign Currency Transactions

Functional and Presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian Rupee (INR), which is the Company's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in the Statement of Profit and Loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance cost. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

g. Employee Benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Compensated absences:

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the Balance Sheet date are treated as short term employee benefits. The liability in respect of compensated absences of short term nature is determined based on actuarial valuation and is provided on an estimated basis.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of Balance Sheet date are treated as other long term employee benefits for measurement purposes. The Company's liability is actuarially determined (using the Projected Unit Credit Method) at the end of each year. Remeasurements, comprising of Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise.

The Company presents the leave as a short term employee benefit obligation in the balance sheet to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plans such as gratuity
- (b) Defined contribution plans such as provident fund, super annuation fund, employee's state insurance funds and employee's pension scheme.

SCHEDULES

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2025

Defined Benefit Plans:

Gratuity:

The Company provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income (OCI).

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss: Service costs comprising current service costs, past-service costs, gains and losses on curtailments, non-routine settlements; and Net interest expense or income.

Defined Contribution Plans:

Contribution towards Provident Fund for all employees are made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis.

Superannuation is classified as a defined contribution scheme of the Company. Contribution due towards Superannuation Fund for eligible employees is made to an insurance company, and the Company has no further obligation beyond making this payment.

The Company also contributes to State plans, namely Employee's State Insurance Fund and Employee's Pension Scheme 1995, and has no further obligation beyond making its contribution.

Company's contributions to the above funds are charged to the Statement of Profit and Loss for the year for which the contributions are due for payment.

(iv) Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(v) Share Based Payment

Employees of the Company receive Stock Options as per the Employee Stock Option ("ESOP") scheme maintained and operated by the Ultimate Holding Company. The expense is recognized in the statement of profit and loss based on a cross charge from Ultimate Holding Company.

h. Leases

The Company assesses at contract inception whether a contract is or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any initial lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

- Building: 2 to 15 years
- Motor Vehicles and other equipments: 1 to 5 years

The right-of-use assets are also subject to impairment assessment. Refer to the accounting policies in section 3(b) Impairment of non-financial assets.

Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable.

In calculating the present value of lease payments, the Company calculates its incremental borrowing rate by using the Government's Zero coupon yield rates adjusted for the financial spreads for AA rated bonds at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement

SCHEDULES

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2025

date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of buildings, equipments (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of equipments that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a systematic basis, which reflects the pattern of lessee's benefit, i.e., on an as and when basis.

i. Income Taxes

Income tax expense comprises current and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income(OCI).

Current tax

Tax expense for the year, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the year. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the provision of The Income Tax Act, 1961.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts and it is intended to realise the asset and set off the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets or liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are subsequently reversed when it becomes probable that such assets will be realised.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

j. Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per contractual terms. Trade and other payables are presented as current financial liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

k. Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of a past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated.

Provisions are measured at present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value pre-tax rate that reflect current market assessment of the time value of money and the risk specific to the liability.

l. Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the

SCHEDULES

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2025

control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

m. Cash and Cash Equivalents

In the cash flow statement, cash and cash equivalents include cash in hand, cash at banks, cheques in hand, demand deposits with banks and other short-term highly liquid investments with original maturities upto three months adjusted for bank overdrafts, if any. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

n. Trade receivables

Trade receivables are recognised initially at transaction price.

o. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial assets

(i) Classification

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

(ii) Initial recognition and Measurement

All financial assets are recognised initially at fair value including, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

The Company has accounted for its investment in subsidiaries at cost.

(iii) Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise to cash flows on specified dates that are solely payments

of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss.

Debt instruments included within the fair value through profit and loss (FVTPL) category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

(iv) Derecognition

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments and are measured at amortised cost e.g., loans, debt securities, deposits and bank balance
- Trade receivables

SCHEDULES

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2025

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- i) Trade receivables which do not contain a significant financing component
- ii) All lease receivables resulting from transactions

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

B. Financial liabilities

(i) Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through Statement of Profit and Loss. Such liabilities, including derivatives that are liabilities, are subsequently measured at fair value.

(ii) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

(iii) Financial liabilities at fair value through Statement of Profit and Loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair

value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as fair value through Statement of Profit and Loss (FVTPL), fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to Statement of Profit and Loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Statement of Profit and Loss. The Company has not designated any financial liability as fair value through Statement of Profit and Loss.

(iv) Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognized.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

(v) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

(vi) Offsetting of financial instruments

Financial assets and financial liabilities are offset

SCHEDULES

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2025

and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

p. Fair value measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

q. Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the net profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year, if any and excluding treasury shares (Refer note 32).

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity

shares, and

- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares. (Refer note 32).

r. Segment Information

The Company has only one operating segment, which is 'integrated air and ground transportation and distribution'. All assets of the Company are domiciled in India and the Company earns its entire revenue from its operations in India. There is no single customer which contributes more than 10% of the Company's total revenues (Refer note 34).

s. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule III of the Act.

3.1 Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. MCA vide notification G.S.R. 291(E) dated 07 May, 2025, has amended Ind AS 21 "The Effects of Changes in Foreign Exchange Rates" to provide guidance on accounting for situations where exchangeability between currencies is lacking. The amendment is applicable for annual reporting periods beginning on or after 01 April, 2025.

The amendment sets out criteria for assessing whether a currency is exchangeable and, where it is not, prescribes how an entity should estimate the spot exchange rate. The amendment also requires disclosures to enable users of the financial statements to understand the impact of any such lack of exchangeability on the entity's financial position, performance, and cash flows.

The Company does not expect these amendments to have a material impact on its financial statements.

Subsequently, Order Giving Effect ("OGE") to the ITAT directions was received for FY 2014-15 and 2015-16 raising a total demand of ₹ 2,796 lakhs and ₹ 388 lakhs respectively. Payment of the said disputed demand was made in total of ₹ 3,185 lakhs on March 01, 2024 and February 20, 2024 respectively.

Nature and purpose of reserves:

Securities Premium

Securities Premium is used to record the premium received on issue of shares. The reserve can be utilised only in accordance with the provisions of the Act.

General Reserve

Under the erstwhile Companies Act 1956, General Reserve was created through an annual transfer from net profit after tax at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that in a year in which dividend distribution is more than 10% of the paid-up capital of the Company, then the total dividend distribution is lower than the total distributable profits for that year.

Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to General Reserve has been withdrawn. However, the amount previously transferred to the General Reserve can be utilised only in accordance with the specific requirements of the Companies Act, 2013.

SCHEDULES

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2025

The revenue from logistics service is recognised over a period of time. The Company has recognized the revenue in respect of undelivered shipments to the extent of completed activities undertaken with respect to delivery. The Company has taken incurrence of cost incurred at stages of delivery (First mile, Network and Last mile) as base to identify the percentage of service completion in respect of undelivered shipments as at year end. At year end, the Company, based on its tracking systems classifies the ongoing deliveries into stages of delivery and applies estimated percentages as calculated above to recognise revenue.

	As at March 31, 2025	As at March 31, 2024
Discount Rate and Rate of Return on Plan Assets (per annum)	6.98%	7.22%
Rate of increase in Compensation levels (Refer note below)	7.75%	7.75%
Attrition rate	1%	1%

Note: The estimates of future salary increases, considered in actuarial valuation, takes into account, inflation, seniority, promotions and other relevant factors, such as demand and supply in the employment market.

ii) Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	Impact on defined benefit obligation (In ₹ Lakhs)			
	As at March 31, 2025		As at March 31, 2024	
	Increase	Decrease	Increase	Decrease

33 LEASES

The Company has lease contracts for various items of Buildings and Vehicles used in its operations. Leases of buildings generally have lease terms between 2 and 15 years, while vehicles generally have lease terms of 5 years. The Company's obligations under its leases are secured by the lessor's title to the leased assets.

The Company also has certain leases of buildings with lease terms of 12 months or less and leases of office equipment with low value. The Company applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Refer note 4 for carrying amount of right-of-use assets recognised and the movements during the year.

The maturity analysis of lease liability is disclosed in note 35(B).

The effective interest rate for lease liabilities is from 5.36 % to 8.68 %, with maturity between 2025-2033.

Rent concession

The Company has applied the practical expedient in paragraph 46A of IndAS 116 to all rent concessions that meet the conditions of in paragraph 46B of IndAS 116. An amount of ₹ Nil (Previous year- ₹ Nil) has been netted off against rent expenses in Statement of Profit and Loss account for the year ending March 31, 2025 to reflect changes in lease payments that arise from rent concessions to which the lessee has applied practical expedient in paragraph 46A.

Fair Value Hierarchy:

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

(a) recognised and measured at fair value and

(b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed in Ind AS 113 - Fair Value Measurement. An explanation of each level follows underneath the table.

Financial assets and liabilities measured at fair value - recurring fair value measurements

	Carrying amount						in ₹ Lakhs
	As at March 31, 2025			As at March 31, 2024			
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3	
Financial assets							
(i) Investments (Note 10)	38,578	-	-	30,728	-	-	
	38,578	-	-	30,728	-	-	

Level 1: It represents units of mutual funds measured using the closing Net Asset Value (NAV).

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. The fair value forward foreign exchange contracts is determined using forward exchange rates at the Balance Sheet date.

Level 3: If one or more of the significant inputs is not based on observable market data (Security Deposits), the instrument is included in level 3. The fair value of the security deposits with definite maturity period is determined using discounted cash flow analysis using an adjusted lending rate.

There are no transfers between level 1, level 2 and level 3 during the year.

Assets & Liabilities which are valued at amortised cost for which fair value are disclosed

	Note	in ₹ Lakhs	
		Carrying Amount	Fair Value

Deposits			
As at March 31, 2025	6 (a)	17,156	16,082
As at March 31, 2024	6 (a)	16,658	15,464

Note 1: The carrying value of Trade receivables, cash and cash equivalents, other bank balances, other financial assets, trade payables, lease liability and other financial liability are considered to be the same as their fair values due to their short term nature.

Note 2: Difference between carrying amounts and fair values of loans, deposits, other non-current financial assets measured at amortised cost is not significantly different in each of the year presented.

B Financial Risk management

i) Risk management framework

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk assessment and policies and processes are established to identify and analyze the risks faced by the Company to set appropriate risk limits and controls and to monitor such risks and compliance with the policies and processes. Risk assessment and policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors and the management is responsible for overseeing the Company's risk assessment and policies and processes.

SCHEDULES

Notes forming part of the Standalone Financial Statements as at and for the year ended March 31, 2025

ii) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of expected credit loss in respect of trade and other receivables and investments. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables. An impairment analysis is performed at each reporting date on an individual basis for major parties. In addition, a large number of minor receivables are combined into homogenous categories and assessed for impairment collectively. The calculation is based on historical data of actual losses.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry in which the customer operates also have an influence on credit risk assessment. Concentrations of credit risk with respect to trade receivables are limited, due to the Company's customer base being large and diverse and also on account of realisation of receivables within six months. All trade receivables are reviewed and assessed for default on a regular basis.

Our historical experience of collecting receivables, supported by the level of default, is that credit risk is low.

Cash and cash equivalents

The Company held cash and cash equivalents with credit worthy banks amounting to ₹ 15,849 Lakhs and ₹ 14,246 Lakhs as at March 31, 2025 and March 31, 2024 respectively. The credit worthiness of such banks is evaluated by the management on an ongoing basis and is considered to be good.

Bank Balance other than above and current investment

The Company has invested ₹ 38,578 lakhs (Previous year- ₹ 30,728 lakhs) in unquoted investments of credit worthy mutual funds and Other bank balances of ₹ 1 lakhs (Previous year - ₹ 7 lakhs). The credit worthiness of such mutual funds is evaluated by the management on an ongoing basis and is considered to be good.

Security deposits given to lessors

The Company has given security deposit to lessors for premises leased by the Company as at March 31, 2025 and March 31, 2024. The credit worthiness of such lessors is evaluated by the management on an ongoing basis and is considered to be good.

Loans and Inter Corporate Deposit and Payload deposit with Blue Dart Aviation Limited

The Company has an outstanding loans of ₹ 60,750 Lakhs and ₹ 42,750 Lakhs as at March 31, 2025 and March 31, 2024 respectively. The Company has given interest free payload deposit of ₹ 9,650 Lakhs and ₹ 9,650 Lakhs as at March 31, 2025 and March 31, 2024 respectively.

During the year ended March 31, 2025, the Company extended Inter Corporate Deposits aggregating to ₹ 11,000 lakhs under bridge financing arrangement which got settled in full as at year end. The Company has not extended any Inter Corporate Deposits during and as at year ended March 31, 2024.

The operation of Blue Dart Aviation Limited is integral part of Company's operations. Considering the operations, future business plan and cash flow projections of wholly owned subsidiary the recoverability of the payload deposit is considered to be good.

iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation.

The Company has access to funds through various debt instruments option.

As of March 31, 2025, the Company had working capital of ₹ 34,069 Lakhs including loans of ₹ 9,086 Lakhs, cash and cash equivalents including other bank balance of ₹ 16,489 Lakhs, trade receivables of ₹ 78,489 Lakhs, other assets of ₹ 46,815 Lakhs, provision - employee benefit obligations of ₹ 10,663 Lakhs, trade payables of ₹ 71,181 Lakhs and other liabilities of ₹ 34,966 Lakhs.

As of March 31, 2024, the Company had working capital of ₹ 29,161 Lakhs including loans of ₹ 5,022 Lakhs, cash and cash equivalents including other bank balance of ₹ 16,579 Lakhs, trade receivables of ₹ 66,832 Lakhs, other assets of ₹ 37,864 Lakhs, provision - employee benefit obligations of ₹ 12,000 Lakhs, trade payables of ₹ 56,108 Lakhs and other liabilities of ₹ 29,028 Lakhs.

iv) Market risk

Market risk is the risk of loss of future earnings, fair values of future cash flows that may result from adverse changes in market rates and prices (such as interest rates and foreign currency exchange rates) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk and interest rate risk. Thus, the Company's exposure to market risk is a function of investing and borrowing activities and its revenue generating and operating activities.

(a) Currency risk

The fluctuation in foreign currency exchange rates may have potential impact on the Statement of Profit and Loss account and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the entity.

Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in U.S. dollar and Euro against the functional currency of the Company.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows:

43 CAPITAL MANAGEMENT

The Company's objective for Capital management is to maximise shareholder's value and support the strategic objectives of the Company. The Company determines the capital requirements based on its financial performance, operating and long term investment plans. The funding requirements for current financial year are largely met through operating cash flows generated.

The Company monitors capital using a ratio of 'Adjusted net debt' to 'equity'. For this purpose, adjusted net debt is defined as total borrowings less cash and cash equivalents (excluding collection on cash on delivery shipments held on behalf of customers). Equity comprises all components of equity. Debt equity ratio as at March 31, 2025 is nil as the cash and cash equivalents (excluding collection on cash on delivery shipments held on behalf of customers) are more than the total borrowings and as at March 31, 2024 is nil.

AVIATION OUTLOOK

Your Company continues to hold the distinction of being the longest-serving private airline in the country, having successfully completed 28 years of scheduled domestic operations. Through a strategically designed air network that connects major cities across India, the Company has significantly contributed to the Blue Dart Group's logistics and distribution capabilities across the country's vast geography.

Your Company has successfully expanded its footprint in the North-East region of India, establishing a new operational gateway to enhance connectivity and tap into emerging regional opportunities. Last year, your Company also re-entered the international charter segment with renewed vigour. This included the launch of charter operations from Delhi and Bengaluru to destinations such as Bahrain, China and Vietnam. Notably, this marks the first year post

the COVID-19 pandemic that your Company has undertaken such a significant expansion in international charter operations, reflecting improved aircraft utilisation and reduction in unit costs. .

Your Company has continued to place strong emphasis on sustainable aviation practices. Several industry-recognised best practices for fuel optimisation have been implemented across the network, significantly reducing fuel consumption during flight operations. As part of a forward-looking initiative, your Company is awaiting regulatory approvals to introduce 'Taxi-bot' technology for its Boeing 737 fleet. This innovative system enables aircraft to taxi to the runway for departure without using engine power, thereby significantly reducing fuel consumption, cutting carbon emissions, and achieving substantial cost savings. This initiative reflects your Company's continued commitment to operational excellence, sustainable aviation, and responsible corporate stewardship.

Demonstrating a culture of inclusiveness and ownership, your Company achieved a record-high 96% employee participation under the Employee Ownership Scheme (EOS) during the year. This remarkable level of engagement underscores the shared commitment of the workforce towards the Company's long-term vision and operational success.

During the financial year, your Company successfully operated 85 charter flights, transporting approximately 108549 tonnes of cargo which was an increase of 5.4% from the previous year. These operations were supported by 164 additional flights and 731.45 flight hours, augmenting the scheduled night operations.

During the year under review, your Company continued to uphold its strong reputation for reliability and punctuality, achieving an On-Time Performance (OTP) of 82.59% (highest amongst all Indian airlines), despite the broader operational challenges faced across the aviation industry. Despite the average fleet age of 24.5 years for the B737 and 30 years for B757 aircraft, our Technical Dispatch Reliability remained robust, at 99.16% for the B737-800 fleet and 99.29% for the B757-200 fleet, reflecting the effectiveness of our maintenance planning and technical excellence.

The in-house engineering team not only ensured seamless day-to-day operations but also carried out 4 major heavy maintenance checks during the year, which included extensive repairs and aircraft modifications. This capability reinforces the Company's operational self-reliance and commitment to safety and airworthiness.

Your Company's commitment to safety, compliance, and continuous skill development is reflected in the activities of the BDAL Centre of Excellence, which includes the Aviation Security Training Institute (ASTI). During the year, the Centre trained 6,533 personnel in the handling of Dangerous Goods (DG) and certified 1,478 candidates in Aviation Security (AVSEC), meeting all regulatory requirements. The training programs have seen consistent growth in demand from both internal and external entities, positioning ASTI as a trusted training provider in the aviation industry. This initiative not only generates incremental revenue but also delivers substantial cost savings through in-house certification processes.

DIRECTORS' REPORT

Your Company has crossed yet another milestone in its history by recruiting women workforce across all the eight stations, reflecting our commitment to gender diversity.

DIRECTORS' REPORT

<https://www.bluedartaviation.com/wp-content/uploads/2024/12/CSR-Policy-final.pdf>

During the year, your Company extended significant support to the Go Green Project, focusing on environmental education at the Padappai Government Higher Secondary School, located on the outskirts of Chennai. This initiative was implemented in collaboration with Pitchandikulam Forest (PF), a unit of the Auroville Foundation.

As part of this project, the Blue Green Centre was established within the school premises. The Centre has become a vibrant hub for environmental learning and activities, actively utilized by students and regularly visited by teachers and students from neighbouring schools. It has contributed to transforming the school into a model institution for environmental engagement in the region.

In addition, a school garden developed and supported by your Company is being maintained by Pitchandikulam Forest with enthusiastic participation from students. Various environmental education programs have been conducted throughout the year, fostering awareness, responsibility, and active student involvement in ecological sustainability.

In line with the Company's commitment to youth empowerment, a Skill Development Program was undertaken under the Go Teach initiative, in collaboration with the CII Institute of Logistics. Through this program, 30 final-year college students were upskilled in areas relevant to logistics and industry readiness. The initiative aimed to enhance the employability of students by providing practical skills training and exposure to industry standards, thereby opening avenues for improved career opportunities.

The Annual Report on CSR activities in accordance with the Companies (Corporate Social Responsibility Policy) Rules, 2014, is annexed as 'Annexure A' to the Board's Report.

ANNUAL REPORT ON CSR ACTIVITIES

1. Brief outline on CSR Policy of the Company:

Corporate Social Responsibility (CSR) is an integral part of our strategy at Blue Dart, reflecting our unwavering commitment to society, the community, and environmental sustainability. We endeavour to create a positive and lasting impact by utilizing our expertise and global network to benefit both people and the planet.

At Blue Dart, we view giving back to society not merely as a 'Corporate Social Responsibility', but as a fundamental duty towards the communities and the environment from which we draw our resources. For us, sustainability goes beyond responsibility; it serves as the cornerstone of our organization's values and operations.

Sustainability (or Corporate Responsibility) is deeply embedded in Blue Dart's ethos. We take our obligations towards society, the communities we serve, our employees, and the environment with utmost seriousness.

Our Sustainability Policy is structured around following key pillars;

- GoGreen: Establishing Eco Centres and promoting environmental education among students;
- GoTeach: Supporting skill development initiatives for college students to prepare them for future employment opportunities.

Through these focused initiatives, Blue Dart continues to uphold its commitment to sustainable growth and positive societal impact. As an organization, we commit to making a positive contribution to our world by using our knowledge, our vast domestic and global presence to benefit people and the environment.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2025

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

**To,
The Members,
M/s. Blue Dart Aviation Limited**

I have conducted the Secretarial Audit of the Compliance of applicable statutory provisions and the adherence to good corporate practices by **M/s. BLUE DART AVIATION LIMITED** (hereinafter called "the Company") bearing Corporate Identification Number **U35303MH1994PLC078691**. Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2025, complied with the statutory provisions and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2025 according to the provisions of the Companies Act, 2013 (the Act) and the rules made there under.

The Company has complied with the Secretarial Standards issued by The Institute of Company Secretaries of India (ICSI) during the audit period.

I further report that the applicable financial laws, such as Direct and Indirect Tax Laws, have not been reviewed under my audit as the same falls under the review of statutory auditor and by other designated professionals.

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned as above.

I further report that,

- a. The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.
- b. Adequate Notice is given to all Directors to Schedule the Board Meetings, agenda and notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
- c. Majority decision is carried through and there were no dissenting members as per the minutes shared.
- d. There are adequate system and process in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable Laws, rules, regulations and guidelines.

I further report that during the audit period, the reportable transactions are as follows:

1. The Board in its Meeting held on 30th April, 2024, reconstituted the Audit Committee, Nomination and Remuneration Committee, and Corporate Social Responsibility Committee, post resignation of Mr. Air Marshal M. McMahon dated March 31, 2024.
2. The Company has obtained approval of shareholders at the AGM held on July 18, 2024, to borrow any sum exceeding the aggregate of the paid-up share capital of the Company, its free reserves under Section 180(1)(c) of the Act, subject to the aggregate borrowings not exceeding ₹15,000 Million.

ANNEXURES TO DIRECTORS' REPORT

3. Mr. Balfour John Manuel was appointed as an Additional Director vide Circular Resolution dated August 2, 2024 and was subsequently ratified on Board Meeting held on October 23, 2024.
4. The Board in their meeting held on January 28, 2025 approved for the transfer of 1 equity share from Mr. Rajendra Ghag to Mr. Vikram Mansukhani and subsequently Mr. Vikram Mansukhani holds 1 equity share as Nominee shareholder of the Blue Dart Express Limited.
5. The Company has an inter-corporate loan amounting to ₹ 2500 million from M/s. DHL Logistics Private Limited, a related party and consequently, the board in their meeting held on January 25, 2025, approved to repay ₹ 500 million and rollover the ₹ 2000 million under the same terms and conditions with the said related party.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLUE DART AVIATION LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Blue Dart Aviation Limited** (the "Company"), which comprise the Balance Sheet as at 31st March 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information other than the Financial Statements and Auditors Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report, but does not include the financial statements and our auditor's report thereon.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLUE DART AVIATION LIMITED

guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31st March 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2025 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLUE DART AVIATION LIMITED

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in the note 42(v) to the financial statements no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in the note 42(vi) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - v. The company has not declared or paid any dividend during the year and has not proposed final dividend for the year.
 - vi. Based on our examination, which included test checks, the Company has used accounting software systems for maintaining its books of account for the financial year ended 31st March, 2025 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems.
- Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **Blue Dart Aviation Limited** (the "Company") as at 31st March 2025 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to financial statements based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2025, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

- ii. (a) The inventories were physically verified during the year by the Management at reasonable intervals. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.
- (b) According to the information and explanations given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions on the basis of security of current assets, and hence reporting under clause (ii)(b) of the Order is not applicable.
- iii. (a) The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause (iii) (a) of the Order is not applicable.
- (b) The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause (iii) (b) of the Order is not applicable.
- (c) The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause (iii) (c) of the Order is not applicable.
- (d) The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause (iii) (d) of the Order is not applicable.
- (e) The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause (iii) (e) of the Order is not applicable.
- (f) The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause (iii) (f) of the Order is not applicable.
- iv. The Company has not granted any loans, made investments or provided guarantees or securities and hence reporting under clause (iv) of the Order is not applicable.
- v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable.
- vi. The maintenance of cost records has not been specified for the activities of the Company by the Central Government under section 148(1) of the Companies Act, 2013.
- vii. In respect of statutory dues:
 - (a) Undisputed statutory dues, including Goods and Service tax, Provident Fund, Employees' State Insurance, Income tax, duty of Custom, cess and other material statutory dues applicable to the Company have been regularly deposited by it with the appropriate authorities.

SCHEDULES

Notes to the financial statements as of and for the year ended March 31, 2025

1. General Information

Blue Dart Aviation Limited ('the Company') is a public company incorporated in India on May 31, 1994 under the provisions of the Companies Act applicable in India. The Company is authorised by the Director General Civil Aviation of India to commercially operate aircrafts for transporting cargo and to provide aircraft maintenance services. "Express Air Charter Services" income is generated from the charter flight services rendered exclusively to Blue Dart Express Limited. The registered office of the Company is located at Blue Dart Centre, Sahar Airport Road, Andheri East, Mumbai - 400 099. The Company is a wholly owned subsidiary of Blue Dart Express Limited.

The standalone financial statements were authorised for issue in accordance with a resolution of the directors on May 23, 2025

2 Basis of preparation of Financial Statements

a. Statement of compliance with Ind AS

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (amended) under the provisions of the Companies Act, 2013 (the 'Act'). The financial statements have been prepared under the historical cost basis.

The financial statements are presented in Indian Rupees ('INR') in lakhs, which is also the Company's functional currency. The financial statements are prepared on a going concern basis.

b. Historical cost convention

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities and defined benefit plans - plan assets measured at fair value (Refer Note 5, 12, 18 & 22).

c. Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The areas involving estimates and judgements are:

- (i) Estimation of useful life of property, plant and equipment and intangible assets [Refer Note 3(a)]
- (ii) Estimation of defined benefit obligation [Refer Note 20 A]
- (iii) Estimation of provision for inventories
- (iv) Estimation of contingent liabilities [Refer Note 3(l)]
- (v) Estimation of lease term of contract [Refer Note 35 (ii)]

d. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- (i) Expected to be realised or intended to be sold or consumed in normal operating cycle
- (ii) Held primarily for the purpose of trading
- (iii) Expected to be realised within twelve months after the reporting period, or
- (iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- (i) It is expected to be settled in normal operating cycle
- (ii) It is held primarily for the purpose of trading
- (iii) It is due to be settled within twelve months after the reporting period, or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

3 Material accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, unless otherwise stated.

a. Property, plant and equipment

Property, Plant and Equipment are carried at historical cost, net of accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

SCHEDULES

Notes to the financial statements as of and for the year ended March 31, 2025

Capital work-in-progress represents property, plant and equipment that are not yet ready for their intended use as at the balance sheet date.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The residual value, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

b. Intangible Assets:

Intangible assets are stated at cost less any accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over the estimated useful life. The Company capitalises the cost of Type-Certification course of pilots and engineers, and amortises it using the straight-line method over a period of five to seven years, being the estimated useful economic life based on the contractual terms with the pilots and engineers.

Depreciation/Amortisation

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset	Useful Life
Aircrafts	3 - 12 years
Aircraft components & overhaul	Over life cycle/lease term
Aircraft rotatable parts	10 years
Computer software	5 & 6 years
Computers	3 - 6 years
Electrical equipments	6 - 10 years
Furnitures & fixtures	2 - 10 years
Leasehold improvements	Upto the period of lease tenure
Office equipment	2 - 10 years
Vehicles	5 & 8 years
Ground Support Equipment	10 - 15 years
Type Certification	3 - 7 years

Depreciation for assets purchased/sold during a year is proportionately charged.

Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

As per technical evaluation, historical experience and standard industry practice prevalent in aviation industry the boeing aircrafts are generally used for a period of 35 years, on the basis of which the unexpired useful lives as on the date of purchase of aircrafts is considered for depreciating the aircraft assets.

Aircraft components and overhaul includes the Aircraft Engine, cost of engines overhaul, components and modifications of airframes and contractually liable to be incurred by the Company. Such costs are depreciated / amortised on the basis of hours flown or the life cycle of the overhaul programme and lease term, as applicable.

c. Impairment of Assets

The Company assesses at each reporting date whether there is any indication that an asset (tangible or intangible) may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's ('CGU') net selling price and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognised in the statement of profit and loss. Assessment is also done at each balance sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased and such reversal is recorded in the statement of profit and loss.

d. Inventories

Inventory of consumables/spares and loose tools are valued at lower of cost or net realisable value. The cost is calculated at purchase price and expenditure directly attributable to the acquisition of such inventories for bringing them to their present location using the specific identification method.

NRV represents the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale

In accordance with the Company's inventory policy, stock of inventories aged more than five years as of each reporting date are written down to their net realizable value. This is done by providing for the entire cost of such inventory, taking into account factors such as obsolescence, slow movement, and a decline in market value.

Despite the write-down, these inventories are still held by the Company and remain available for their intended use or sale in the ordinary course of business

e. Revenue Recognition

Express Air Charter Services:

Service charges for the Express Air Charter Services are recognised in accordance with the Aircraft Crew Maintenance

SCHEDULES

Notes to the financial statements as of and for the year ended March 31, 2025

Insurance (ACMI) Agreement and constitute revenue earned in connection with operating aircrafts for Blue Dart Express Limited on the basis of an agreed mark-up on cost incurred. This includes reimbursement towards certain aircraft operating costs.

Business Support Services:

Income from Infrastructure sharing services is recognised, as and when such services are rendered, on the basis of an agreed mark-up on costs incurred, in accordance with the arrangements entered into or at the contracted rates.

Interest Income:

Interest income is recognised using the effective interest rate ('EIR') method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

f. Foreign Currency Transactions

Functional and Presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian Rupee (INR), which is the Company's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in statement of profit and loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit or loss, within finance cost. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

g. Employee Benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Compensated absences:

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the balance sheet date are treated as short term employee benefits. Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the statement of profit and loss.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of balance sheet date are treated as other long term employee benefits for measurement purposes. The Company's liability is actuarially determined (using the Projected Unit Credit Method) at the end of each year. Remeasurements, comprising of actuarial losses/ gains are recognised immediately in the balance sheet with corresponding debit or credit to retained earnings through OCI in the period in which they occur.

The Company presents the leave as a short term employee benefit obligation in the balance sheet to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plans such as gratuity
- (b) Defined contribution plans such as provident fund, Employee's state insurance funds and Employee's pension scheme.

SCHEDULES

Notes to the financial statements as of and for the year ended March 31, 2025

Defined Benefit Plans:

Gratuity:

The Company provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation, or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income (OCI).

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss. Service costs comprising current service costs, past-service costs, gains and losses on curtailments non-routine settlements; and Net interest expense or income.

Defined Contribution Plans:

Contribution towards Provident Fund for all employees are made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis.

The Company also contributes to State plans, namely Employee's State Insurance Fund and Employee's Pension Scheme 1995, and has no further obligation beyond making its contribution.

Company's contributions to the above funds are charged to the statement of profit and loss for the year for which the contributions are due for payment.

(iv) Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(v) Share Based Payment

Employees of the Company receive Stock Options as per the Employee Stock Option ("ESOP") scheme maintained and operated by the ultimate holding company. The expense is recognized in the statement of profit and loss based on a cross charge from Ultimate Holding Company.

h. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 3(c) Impairment of non-financial assets.

Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate (IBR) wherever the interest implicit in the leases are not readily determined. The incremental borrowing rate (IBR) is the average interest rate incurred by the Company on its borrowing during the period under review. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term.

The Company's lease liabilities are included in Interest-bearing loans and borrowings.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of buildings, equipment's (i.e., those leases that have a lease term of 12 months or

SCHEDULES

Notes to the financial statements as of and for the year ended March 31, 2025

less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of buildings, equipment's that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

i. Income Taxes

Income tax expense comprises current and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income(OCI). The income taxes recognized are reflected at the amounts likely to be payable under the statutory regulations in force, or substantively enacted in relation to future periods, at the end of the reporting period. Complex tax regulations may give rise to uncertainties with respect to their interpretation and the amounts and timing of future taxable income. Given the long-term nature and complexity of tax regulations, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate adjustments to tax income and expense in future periods. Liabilities to tax authorities that are uncertain as to their amount and the probability of their occurrence are recognized as tax liabilities based on reasonable estimates. The amounts recognized are based on various factors, such as experience with previous tax assessments, legal interpretations by the Company and in certain cases based on legal opinion.

Current tax

Tax expense for the year, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the year. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing in the respective jurisdictions.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and set off the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are subsequently reversed when it becomes probable that such assets will be realised.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

j. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

SCHEDULES

Notes to the financial statements as of and for the year ended March 31, 2025

Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

k. Provisions

Provisions are recognised when the company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

l. Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

m. Cash and Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term, highly liquid investments with original maturities of three months. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

n. Trade Receivables

Trade receivables are recognised initially at fair value, less provision for impairment.

o. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A) Financial assets

i) Classification

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on

the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

ii) Initial recognition and measurement

All financial assets are recognised initially at fair value including, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

iii) Derecognition

A financial asset is derecognised only when

- (i) The company has transferred the rights to receive cash flows from the financial asset or
- (ii) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

iv) Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance
- b) Trade receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

SCHEDULES

Notes to the financial statements as of and for the year ended March 31, 2025

- i) Trade receivables which do not contain a significant financing component
- ii) All lease receivables resulting from transactions

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

B) Financial liabilities

i) Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss.

ii) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

iii) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as fair value through statement of profit and loss (FVTPL), fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/loss are not subsequently transferred to profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as at fair value through Statement of profit and loss.

iv) Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognized.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

v) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

vi) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

p. Fair value measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal

SCHEDULES

Notes to the financial statements as of and for the year ended March 31, 2025

or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

q. Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year, if any and excluding treasury shares (Refer note 31).

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares. (Refer note 31).

r. Segment Information

The Company is primarily engaged in a single segment business to operate aircraft and provide aircraft maintenance services within India for the business of integrated air and ground transportation and distribution of time-sensitive packages of Blue Dart Express Limited. All assets of the Company are domiciled in India and the Company earns entire revenue from its operations in India.

s. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

3.1 Changes in accounting policies and disclosures

Recent Accounting Pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. MCA vide notification G.S.R. 291(E) dated 07 May, 2025, has amended Ind AS 21 "The Effects of Changes in Foreign Exchange Rates" to provide guidance on accounting for situations where exchangeability between currencies is lacking. The amendment is applicable for annual reporting periods beginning on or after 01 April, 2025.

The amendment sets out criteria for assessing whether a currency is exchangeable and, where it is not, prescribes how an entity should estimate the spot exchange rate. The amendment also requires disclosures to enable users of the financial statements to understand the impact of any such lack of exchangeability on the entity's financial position, performance, and cash flows.

The Company does not expect these amendments to have a material impact on its financial statements.

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets & deferred tax liabilities.

Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets.

The recoverability of deferred income tax assets is based on estimates of taxable income and the period over which deferred income tax assets will be recovered. Any changes in future taxable income would impact the recoverability of deferred tax assets.

ii) LEASES [Refer Note 3(h)]

Company as lessee

The Company has lease contracts for various items of aircraft, buildings & vehicles used in its operations. For the year ended March 31, 2025 there were four aircraft engines taken on lease with lease term of 7 years each and one aircraft on lease with secondary lease term of 6 years. The facility & building related leases will be typically having lease term in the range of 1 to 15 years. The transport related vehicle leases have lease term of 5 years. The Company's obligations under its leases are secured by the lessor's title to the leased assets.

The Company also has certain leases of buildings & vehicle with lease terms of 12 months or less or low value. The Company applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Refer note 4A for carrying amount of right of use assets recognized and the movements during the year

The effective interest rate for lease liabilities is from 4.93% to 8.60% for maturity between 2025 to 2031.

The maturity analysis of lease liability is disclosed in note 37 (b) iii.

36 RATIO ANALYSIS & ELEMENTS

S.No	Ratio	Numerator	Denominator	As at March 31, 2025	As at March 31, 2024	% Change	Reasons for Variance
a)	Current Ratio	Current Assets	Current Liabilities	0.50	0.13	269.23%	Increase in current ratio is due to increase in trade receivables balance predominantly the ACMI related receivables which was partially offset by decrease in current liability due to rollover of term loan and decrease in capital creditors due to settlement.
b)	Debt-Equity Ratio	Total Debt	Shareholders Equity	16.94	18.05	-6.15%	Variance is less than 25%
c)	Debt Service Coverage Ratio	Net Profit before taxes - Non Cash Expenses & Income	Debt service = Interest & Lease Payments + Principal Repayments	0.98	1.11	-11.30%	Variance is less than 25%
d)	Return on Equity Ratio	Net Profits after taxes	Average Shareholders Equity	0.11	0.20	-45.47%	Decrease in ratio due to decrease in profit after taxes. In previous year there were tax reversals on account of prior period tax changes resulting in increase in PAT last year whereas no similar tax reversals made in current year resulting in reduced PAT
e)	Inventory Turnover Ratio	Consumables	Average Inventory	0.44	0.57	-23.33%	Variance is less than 25%
f)	Trade Receivable Turnover Ratio	Revenue from Operations + Sale of Spares & Services	Average Trade Receivables	34.04	170.15	-79.99%	Decrease in ratio due to deterioration in collection of receivables mainly ACMI related receivables
g)	Trade Payable Turnover Ratio	Operating Expenses + Other Expenses - Non Cash Expenses	Average Trade Payables	16.10	13.60	18.33%	Variance is less than 25%
h)	Net Capital Turnover Ratio	Revenue from Operations + Sale of Spares & Services	Working Capital = Current Assets - Current Liabilities	(8.17)	(2.23)	267.12%	Increase in ratio is mainly due to decrease in current liabilities on account of rollover of term loan.
i)	Net Profit Ratio	Net Profits after taxes	Revenue from Operations + Sale of Spares & Services	0.62%	1.12%	-44.84%	Decrease in ratio is on account of decreased profit after taxes in current year. This reduction is due to higher profits in previous year due to reversal of prior period excess tax provisions.
j)	Return on Capital Employed (ROCE)	Earnings before interest tax and depreciation (EBITDA)	Capital Employed = Tangible Net Worth + Total debt	28.84%	27.51%	4.84%	Variance is less than 25%
k)	Return on Invested Capital (ROIC)	Net Profits after taxes	Invested Capital = Total Equity + Total Debt - Cash & Cash Equivalents	0.58%	0.95%	-39.61%	Decrease in ROIC is due decrease in profit after taxes and net increase in total debt during the year

Schedule-III requires explanation where the change in the ratio is more than 25% as compared to the preceding year. Since there are only six instances where the changes are more than 25%, hence explanation is given only for the said ratios.

Blue Dart Express Limited, the holding Company has given support letter to confirm financial and operational support to the Company to meet its liabilities that may arise in the foreseeable future.

Note 1: The carrying value of trade receivables, cash and cash equivalents, trade payables, other financial liability are considered to be the same as their fair values due to their short term maturities.

Note 2: Difference between carrying amounts and fair values of security deposits measured at amortised cost is not significantly different in each of the year presented.

Note 3: Borrowings are taken at variable interest rate which is reviewed and reset periodically considering the market trend and hence the carrying amount is not materially different from their fair values.

B Financial Risk management

i. Risk management framework

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the policies and processes. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors and the management is responsible for overseeing the Company's risk assessment and management policies and processes.

ii. Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company does not have any financial assets that are past due but not impaired.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment.

Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. As the Company's customers are its holding company and group company hence impairment of trade receivables do not reflect any significant credit losses. Given that the macro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of no credit losses. Further, management believes that the unimpaired amounts that are past due by more than 90 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk.

The Company has concentration of credit risk due to the fact that the holding company and other group company are the major customers and significant trade receivables are receivable from the parent company and group company as on **March 31, 2025**: ₹ 7,092 Lakhs (**March 31, 2024** : ₹ 110 Lakhs). However the customers are highly reputed, credit worthy and regular in making payment.

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:

	As at March 31, 2025 in ₹ Lakhs	As at March 31, 2024 in ₹ Lakhs
Neither past due nor impaired		
Past due but not impaired		
Past due 1–90 days	7,154	148
Past due more than 90 days	30	4
	7,184	152

SCHEDULES

Notes forming part of Financial Statements as of and for the year ended March 31, 2025

Cash and cash equivalents

The Company held cash and cash equivalents with credit worthy banks and financial institutions of ₹ 140 Lakhs and ₹ 3 Lakhs as at March 31, 2025 and March 31, 2024 respectively. The credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be good.

Security deposits given to lessors

The Company has given security deposit to lessors for premises leased by the Company as at March 31, 2025 and March 31, 2024. The credit worthiness of such lessors is evaluated by the management on an ongoing basis and is considered to be good.

iii. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation.

As of March 31, 2025, the Company has negative working capital of ₹ (15,277) Lakhs including inventories of ₹ 4,285 Lakhs, cash and cash equivalents of ₹ 140 Lakhs, trade receivables of ₹ 7,184 Lakhs, other assets of ₹ 3,505 Lakhs, Current Borrowings of ₹ 9,000 Lakhs, trade payables of ₹ 3,761 Lakhs, employee benefit obligation of ₹ 2,713 Lakhs, lease liability of ₹ 11,685 Lakhs and other current liabilities of ₹ 3,232 Lakhs.

As of March 31, 2024, the Company has negative working capital of ₹ (49,294) Lakhs including inventories of ₹ 4,323 Lakhs, cash and cash equivalents of ₹ 3 Lakhs, trade receivables of ₹ 152 Lakhs, other assets of ₹ 3,195 Lakhs, Current Borrowings of ₹ 30,469 Lakhs, trade payables of ₹ 4,104 Lakhs, employee benefit obligation of ₹ 2,760 Lakhs, lease liability of ₹ 10,364 Lakhs and other current liabilities of ₹ 9,270 Lakhs.

iv Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates and foreign currency exchange rates) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk and interest rate risk. Thus, the Company's exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to market risk for changes in interest rates relates to deposits and borrowings from bank and financial institutions.

For details of the Company's short-term and long term loans and borrowings, including interest rate profiles, refer to Note 16 of these financial statements.

Interest rate sensitivity - variable rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased / decreased equity and profit or loss by amounts shown below. This analyses assumes that all other variables, in particular, foreign currency exchange rates, remain constant. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

	Profit or loss	
	100 bp increase	100 bp decrease
As at March 31, 2025		
Variable-rate instruments	(808)	808
sensitivity	(808)	808
As at March 31, 2024		
Variable-rate instruments	(678)	678
sensitivity	(678)	678

b) Currency risk

The fluctuation in foreign currency exchange rates may have potential impact on the profit and loss account and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the entity.

Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in U.S. dollar, GBP and Euro, against the functional currency of the Company.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows:

	As at March 31, 2025 in ₹ Lakhs	As at March 31, 2024 in ₹ Lakhs
Lease Liability(in USD)	11,534	14,722
Lease Liability(in Euro)	5,630	6,668
Trade payables(in GBP)	-	9

SCHEDULES

Notes forming part of Financial Statements as of and for the year ended March 31, 2025

	As at March 31, 2025 in ₹ Lakhs	As at March 31, 2024 in ₹ Lakhs
Trade payables(in USD)	1,068	7,163
Trade payables(in Euro)	165	276
Net statement of financial position exposure	18,397	28,838

Sensitivity analysis

A 5% strengthening / weakening of the respective foreign currencies with respect to functional currency of Company would result in increase or decrease in profit or loss and equity as shown in table below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast revenue and cost. The following analysis has been worked out based on the exposures as of the date of statements of financial position.

Effect in ₹ Lakhs	Profit or loss	
March 31, 2025	Strengthening	Weakening
USD	(53)	53
EUR	(8)	8
	(61)	61

Effect in ₹ Lakhs	Profit or loss	
March 31, 2024	Strengthening	Weakening
USD	(358)	358
EUR	(14)	14
	(372)	372

*^ Note: The impact is indicated on the profit/loss and equity before tax basis.

38 CAPITAL MANAGEMENT

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital regularly.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total borrowings, comprising interest-bearing loans and borrowings and obligations under finance leases, less cash and cash equivalents. Adjusted equity comprises all components of equity.

The Company's adjusted net debt to equity ratio at March 31, 2025 was as follows:

	As at March 31, 2025 in ₹ Lakhs	As at March 31, 2024 in ₹ Lakhs
Total external borrowings	80,750	68,219
Less : Cash and cash equivalent	140	3
Adjusted net debt	80,610	68,216
Total equity	7,476	6,767
Adjusted net debt to adjusted equity ratio	10.78	10.08

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF CONCORDE AIR LOGISTICS LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Concorde Air Logistics Limited (the "Company"), which comprise the Balance Sheet as at 31st March 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report but does not include the financial statements and our auditor's report thereon.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF CONCORDE AIR LOGISTICS LIMITED

guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31st March 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2025 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating

TO THE MEMBERS OF CONCORDE AIR LOGISTICS LIMITED

effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, In our opinion and to the best of our information and according to the explanations given to us, there is no remuneration paid by the company to its directors during the year, hence provisions of section 197 of the Act are not applicable.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. a) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 33 to the financial statements no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The Management has represented, that, to the best of its knowledge and belief, other than as disclosed in the note 33 to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - v. The company has not declared or paid any dividend during the year and has not proposed final dividend for the year.
 - vi. Based on our examination, which included test checks, the Company has used accounting software systems for maintaining its books of account for the financial year ended 31st March, 2025 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date on financial statements of Concorde Air Logistics Limited)

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls with reference to financial statements of Concorde Air Logistics Limited (the "Company") as at 31st March 2025, in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to financial statements based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2025, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2, under 'Report on Other Legal and Regulatory Requirements' section of our Report of even date on financial statements of Concorde Air Logistics Limited)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

i. In respect of the Company's Property, Plant and Equipment and Intangible Assets:

(a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The Company has maintained proper records showing full particulars of Intangible Assets.

(b) The Property, Plant and Equipment were physically verified during the year by the Management which, in our opinion, provides for physical verification at reasonable intervals. No material discrepancies were noticed on such verification.

(c) Based on our examination of the registered sale deed / transfer deed provided to us, we report that, the title deed of the immovable property, disclosed in the financial statements included in Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.

(d) The Company has not revalued any of its Property, Plant and Equipment and intangible assets during the year.

(e) No proceedings have been initiated during the year or are pending against the Company as at 31st March 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

ii. (a) The Company does not have any inventory and hence reporting under clause 3(ii)(a) of the Order is not applicable.

(b) According to the information and explanations given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions on the basis of security of current assets, and hence reporting under clause 3(ii)(b) of the Order is not applicable.

iii. The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause 3(iii) of the order is not applicable.

iv. According to information and explanation given to us, the Company has not granted any loans, made investments or provided guarantees or securities that are covered under the provisions of sections 185 or 186 of the Companies Act, 2013, and hence reporting under clause 3(iv) of the Order is not applicable.

v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.

vi. The maintenance of cost records has not been specified for the activities of the Company by the Central Government under section 148(1) of the Companies Act, 2013.

vii. In respect of statutory dues:

(a) Undisputed statutory dues, including Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Professional Tax, cess and other material statutory dues applicable to the Company have generally been regularly deposited by it with the appropriate authorities though there has been a delay in respect of remittance of Tax deducted at source.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Income-tax, Professional tax, cess and other material statutory dues in arrears as at 31st March 2025 for a period of more than six months from the date they became payable.

(b) Details of statutory dues referred to in sub clause (a) above which have not been deposited as on 31st March 2025 on account of disputes are given below:

Name of Statute	Nature of Dues	Amount unpaid in ₹ ('000)	Period to which the Amount Relates	Forum where Dispute is Pending
Goods and Service Tax Act, 2017	Central Goods and Services, State Goods and Services and Integrated Goods and Services	7231 [^]	Financial Year 2017-18	Assistant Commissioner, Delhi
Goods and Service Tax Act, 2017	Central Goods and Services, State Goods and Services and Integrated Goods and Services	2410 ^{^^}	Financial Year 2019-20	Assistant Commissioner, Delhi

[^] Net of amount of ₹ 381 thousand paid under protest.

^{^^} Net of amount of ₹ 240 thousand paid under protest.

* Tax, Interest and penalty as per the orders

viii. There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.

ix. (a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause 3(ix)(a) of the Order is not applicable to the Company.

(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) The Company has not taken any term loan during the year and there are no unutilised term loans at the beginning of the year and hence, reporting under clause 3(ix)(c) of the Order is not applicable.

(d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2, under 'Report on Other Legal and Regulatory Requirements' section of our Report of even date on financial statements of Concorde Air Logistics Limited)

purposes by the Company.

- (e) The Company did not have any subsidiary or associate or joint venture during the year and hence, reporting under clause 3(ix)(e) of the Order is not applicable.
- (f) The Company did not have any subsidiary or associate or joint venture during the year and hence, reporting under clause 3(ix)(f) of the Order is not applicable.
- x. (a) The Company has not issued any of its securities (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- (b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- xi. (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year and upto the date of this report.
- xii. The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable.
- xiii. In our opinion, the Company is in compliance with section 188 of the Companies Act for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards. The provisions of section 177 of the Companies Act, 2013 are not applicable to the Company and accordingly the requirements to report under clause 3(xiii) of the Order insofar as it relates to Section 177 of the Act is not applicable to the Company.
- xiv. The Company is not required to have an internal audit system under the provision of Section 138 of the Act. Therefore, the requirement to report under clause 3(xiv) (a) and (b) of the Order is not applicable to the Company.
- xv. In our opinion during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable. The Group does not have any CIC as part of the group and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. The Company was not having net worth of rupees five hundred crore or more, or turnover of rupees one thousand crore or more or a net profit of rupees five crore or more during the immediately preceding financial year and hence, provisions of Section 135 of the Act are not applicable to the Company during the year. Accordingly, reporting under clause 3(xx) of the Order is not applicable for the year.

SCHEDULES

Notes Forming Part of the Financial Statements as at and for the year ended March 31, 2025

1 General Information

Concorde Air Logistics Limited ("the Company") is an International Air Cargo Agent with International Air Transport Association ("IATA") and engaged inter alia in the business of clearing and forwarding of time sensitive air cargo packages. The Company is a public limited company incorporated in India having its registered office at 17, Adarsh Industrial Estate, Sahar Airport Road, Andheri (E), Mumbai. The financial statements were authorised for issue in accordance with a resolution of the directors on May 23, 2025.

2 Basis of preparation of financial statements

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under the provisions of the Companies Act, 2013 (the 'Act'). The financial statements have been prepared under the historical cost basis except for certain financial assets and liabilities measured at fair value (Refer note 3(I)) and Defined benefit plans - plan assets measured at fair value (Refer note 21).

The financial statements are presented in Indian Rupees ('INR'), which is also the Company's functional currency and all values are rounded off to the nearest thousands (INR 000), except when otherwise indicated. The financial statement are prepared on going concern basis.

Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets

for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The areas involving critical estimates and judgements are:

- Estimation of useful life of property, plant and equipment and intangibles assets (Refer note 3(a))
- Estimation of defined benefit obligation (Refer note 21 (II))
- Estimation of current tax expense and receivable/payable (Refer note 7 and 31)

3. Material Accounting Policy Information

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Property, plant and equipment

All items of Property, Plant and Equipment are at historical cost net of accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditures that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of Profit and Loss during the reporting period in which they are incurred.

Capital work-in-progress represents Property, plant and equipment that are not yet ready for their intended use as at the balance sheet date. An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

Intangible Assets:

Intangible assets are stated at cost less any accumulated amortisation and accumulated impairment losses, if any. The Company capitalises identifiable costs relating to development of internally generated software and these are stated net off accumulated amortization.

SCHEDULES

Notes Forming Part of the Financial Statements as at and for the year ended March 31, 2025

Intangible assets under development comprise costs relating to development of software that are not yet ready for their intended use as at the balance sheet date.

Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset	Useful Life
Office Equipments	5 to 10 years
Electrical Equipment	6 to 10 years
Computers	3 to 6 years
Furniture Fixtures	10 years
Vehicles	5 to 8 years

Note: Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Depreciation for assets purchased/sold during a year is proportionately charged.

Amortisation

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses, if any. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the profit and loss unless such expenditure forms part of carrying value of another asset.

Computer softwares, amortised under straight line method over the estimated useful life of 6 to 10 years. Internally generated software is amortised using the straight-line method over a period of 10 years, based upon its estimated useful economic life.

(b) Impairment of Non-Financial Assets

The Company assesses at each reporting date whether there is any indication that an asset (tangible or intangible) may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's (CGU) net selling price and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased and such reversal is recorded in the Statement of Profit and Loss.

(c) Revenue Recognition

Service Charges:

Service charges for clearing and forwarding of shipments are recognised as income when services are delivered and represent amounts invoiced, net of goods and service tax and all discounts and allowances.

Commission Income:

Commission is accrued when cargo is delivered to the custody of the airline and the master airway bill is issued.

Interest Income:

Interest Income is recognised on a time proportion basis taking into account the amount outstanding and applicable interest rate. Interest income is included in "Other Income" in the statement of profit and loss.

Interest from government authorities is recognised when there is reasonable assurance that the interest will be received.

(d) Employee Benefits

i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Compensated absences:

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the Balance Sheet date are treated as short term employee benefits. The liability in respect of compensated absences of short term nature is not actuarially valued and is provided on an estimated basis.

ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Statement of Profit and Loss.

Accumulated compensated absences, which are expected

SCHEDULES

Notes Forming Part of the Financial Statements as at and for the year ended March 31, 2025

to be availed or encashed beyond 12 months from the end of Balance Sheet date are treated as other long term employee benefits for measurement purposes. The Company's liability is actuarially determined (using the Projected Unit Credit Method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise.

The Company presents the leave as a short term employee benefit obligation in the balance sheet to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

iii) Post-employment obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plans such as Gratuity
- (b) Defined contribution plans such as Provident fund, Employee's state insurance funds and Employee's pension scheme.

Defined Benefit Plans

Gratuity :

The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is actuarially determined (using the Projected Unit Credit Method) at the end of each year. Re-measurement of the net defined liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income (OCI).

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss: Service costs comprising current service costs, past-service costs, gains and losses on curtailments non-routine settlements; and Net interest expense or income.

Defined Contribution Plans:

Contribution towards Provident Fund for all employees are made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis.

The Company also contributes to State plans, namely Employee's State Insurance Fund and Employee's Pension

Scheme 1995, and has no further obligation beyond making its contribution.

Company's contributions to the above funds are charged to the Statement of Profit and Loss for the year for which the contributions are due for payment.

iv) Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(e) Leases

The Company assesses at contract inception whether a contract is or contains, lease. That is, if contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee:

Short term leases and low value assets:

The Company applies the short term lease recognition exemption to its short term leases of buildings (i.e. those leases that have a lease term for 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a systematic basis, which reflects the pattern of lease benefit i.e. on an as and when basis.

(f) Income Taxes

Income tax expense comprises current and deferred tax. It is recognised in Statement of Profit and Loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current tax

Tax expense for the year, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the year. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with provision of The Income Tax Act, 1961.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and set off the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets or liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be

SCHEDULES

Notes Forming Part of the Financial Statements as at and for the year ended March 31, 2025

available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are subsequently reversed when it becomes probable that such assets will be realised.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

(g) Trade and other payables

These amounts represent liabilities for services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per contractual terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(h) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of a past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated.

Provisions are measured at present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value pre-text rate that reflect

current market assessment of the time value of money and the risk specific to the liability.

(i) Cash and Cash Equivalents

In the cash flow statement, cash and cash equivalents include cash in hand, cheques in hand, demand deposits with banks and other short-term highly liquid investments with original maturities of three months or less.

(j) Trade receivables

Trade receivables are recognised initially at transaction price, less provision for impairment.

(k) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(l) A. Financial assets

i. Classification

The Company classifies financial assets as subsequently measured at amortised cost, fair value through OCI or fair value through profit or loss (Statement of Profit and Loss) on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

ii. Initial recognition and Measurement

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at fair value through profit or loss (Statement of Profit and Loss), transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

iii. Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The

SCHEDULES

Notes Forming Part of the Financial Statements as at and for the year ended March 31, 2025

EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss.

Debt instruments included within the fair value through profit and loss (FVTPL) category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

iv. Derecognition

A financial asset is derecognised only when

- (i) The Company has transferred the rights to receive cash flows from the financial asset or
- (ii) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v. Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., deposits, and bank balance
- b) Trade receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- i) Trade receivables which do not contain a significant financing component
- ii) All lease receivables resulting from transactions

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

B. Financial liabilities

i. Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss (Statement of Profit and Loss). Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

ii. Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss (Statement of Profit and Loss), loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value.

The Company's financial liabilities include trade and other payables.

iii. Financial liabilities at fair value through Statement of Profit and Loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss (Statement of Profit and Loss). Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss (Statement of Profit and Loss) are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as Fair Value Through Profit and Loss (FVTPL), fair value gains/ losses attributable to changes in

SCHEDULES

Notes Forming Part of the Financial Statements as at and for the year ended March 31, 2025

own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to Statement of Profit and Loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Statement of profit and loss. The Company has not designated any financial liability as at fair value through Statement of Profit and Loss.

iv. Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

v. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(m) Fair value measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(n) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (Refer note 24).

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares. (Refer note 24).

(o) Segment Information

The Company has only one operating segment, which is clearing and forwarding of time sensitive shipments. All assets of the Company are domiciled in India and the Company earns entire revenue from its operation in India.

(p) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest thousands as per the requirement of Schedule III of the Act.

3.1 Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. MCA vide notification G.S.R. 291(E) dated 07 May, 2025, has amended Ind AS 21 "The Effects of Changes in Foreign Exchange Rates" to provide guidance on accounting for situations where exchangeability between currencies is lacking. The amendment is applicable for annual reporting periods beginning on or after 01 April, 2025.

The amendment sets out criteria for assessing whether a currency is exchangeable and, where it is not, prescribes how an entity should estimate the spot exchange rate. The amendment also requires disclosures to enable users of the financial statements to understand the impact of any such lack of exchangeability on the entity's financial position, performance, and cash flows.

The Company does not expect these amendments to have a material impact on its financial statements.

29 Financial instruments – Fair Values and risk Management

B Financial Risk management

i) Risk management framework

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors and the Management is responsible for overseeing the Company's risk assessment and management policies and processes.

SCHEDULES

Notes Forming Part of the Financial Statements as at and for the year ended March 31, 2025

ii) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company does not have any financial assets that are past due but not impaired.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer.

As the Company's customers are its holding company and fellow subsidiary company, hence impairment of trade receivables do not reflect any significant credit losses. Given that the macro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of no credit losses. All trade receivables are reviewed and assessed for default on a regular basis.

Cash and Cash Equivalents

The Company held Cash and Cash Equivalents with credit worthy banks and financial institutions of ₹ 10,175 ('000), ₹ 4,169('000) as at March 31, 2025, March 31, 2024 respectively. The credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be good.

iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation.

The net worth of the Company as on March 31, 2025 and March 31, 2024 is ₹ 50,410 ('000), ₹ 50,319 ('000) respectively. Further, there is continued support from Blue Dart Express Limited, the Holding Company, to provide financial support to the Company to meet its financial obligations, as and when they fall due for a period not less than twelve months from the date of signing the Financial Statements.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and exclude the impact of netting agreements.

iv) Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates and foreign currency exchange rates) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debts. The Company is exposed to market risk primarily related to foreign exchange rate risk and interest rate risk. Thus, the Company's exposure to market risk is a function of investing activities.

(a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

30 Capital Management

The Company's objective for Capital Management is to maximise shareholder's value, support the strategic objectives of the Company. The Company determines the capital requirements based on its financial performance, operating and long term investment plans. The funding requirements are met through operating cash flows generated.

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Significant management judgement is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income and the period over which deferred income tax assets will be recovered. Any changes in future taxable income would impact the recoverability of deferred tax assets.

CONSOLIDATED FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLUE DART EXPRESS LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Blue Dart Express Limited (the "Parent") and its subsidiaries, (the Parent and its subsidiaries together referred to as the "Group"), which comprise the Consolidated Balance Sheet as at 31st March 2025, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March 2025, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	Auditor's Response
Revenue Recognition – Undelivered shipments at year end	Principal audit procedures performed:
<p>The Parent enters into contracts with customers for providing logistics services and recognises revenue in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers (as described in note 27 of the Consolidated Ind AS financial statements).</p> <p>As at the year end, for undelivered shipments where performance obligation is satisfied over time, revenue recognised for the completed performance obligations is dependent on the transaction price allocated to the identified performance obligation and determination of stage of completion.</p> <p>The process of allocation of transaction price to the identified performance obligation and determination of the stage of completion as at the period end is dependent on relevant internal controls including IT controls in certain operational systems and involves higher management judgement and estimates.</p> <p>Considering the involvement of management judgement and estimates for revenue recognised based on performance obligations satisfied over time, the same is identified as key audit matter.</p>	<p>We assessed the Parent's revenue recognition accounting policies in accordance with Ind AS 115, Revenue from Contracts with Customers.</p> <p>We understood Management's internal controls over the revenue process, including determination of stage of completion and measurement of revenue for recognition based on performance obligations satisfied over time and evaluated whether these have been designed in line with the Company's accounting policies.</p> <p>We tested relevant internal controls, including IT controls over the revenue process, including measurement of revenue for recognition based on performance obligations satisfied over time and for determination of stage completion.</p> <p>We assessed and tested the Management's estimation process on allocation of transaction price to the identified performance obligation and for determination of stage of completion at the period ends.</p> <p>We performed test of details for the selected sample of revenue transactions during the year and verified the same with the underlying supporting documentation / evidence.</p> <p>We selected samples, for revenue recognised for the completed performance obligations in respect of undelivered shipments as at the year end. For the selected samples, we verified the underlying documents including proof of service delivery for services completed subsequent to the year end and tested the working for allocation of transaction price to the specific completed performance obligation.</p>

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLUE DART EXPRESS LIMITED

Information Other than the Financial Statements and Auditor's Report Thereon

- The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors report, Management Discussion and Analysis, Corporate Governance Report and Business Responsibility and Sustainability Report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon. The Directors report, Management Discussion and Analysis, Corporate Governance Report and Business Responsibility and Sustainability Report is expected to be made available to us after the date of this auditor's report.
- Our opinion on the consolidated financial statements does not cover the other information and will not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available, and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- When we read the Directors report, Management Discussion and Analysis, Corporate Governance Report and Business Responsibility and Sustainability Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Responsibilities of Management and Board of Directors for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intend to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLUE DART EXPRESS LIMITED

disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept by the Group, including relevant records so far as it appears from our examination of those books.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Parent as on 31st March 2025 taken on record by the Board of Directors of the Company and of subsidiary companies, none of the directors of the Group companies is disqualified as on 31st March 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent and its subsidiary companies. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls with reference to consolidated financial statements of those companies.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Parent and its subsidiary companies to their respective directors during the year is in accordance with the provisions of section 197 of the Act.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.
- Refer Note 43 to the consolidated financial statements
 - ii) The Group, did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Parent.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BLUE DART EXPRESS LIMITED

- iv. (a) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, as disclosed in the note 49(i) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Parent or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Parent or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, as disclosed in the note 49(ii) to the consolidated financial statements, no funds have been received by the Parent or any of such subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Parent or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us on the Parent and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v) The final dividend proposed in the previous year, declared and paid by the Parent, during the year is in accordance with section 123 of the Act, as applicable.

As stated in note 45 to the consolidated financial statements, the Board of Directors of the Parent, have proposed final dividend for the year which is subject to the approval of the members of the Parent at the ensuing respective Annual General Meetings. Such dividend proposed is in accordance with section 123 of the Act, as applicable.

- vi) Based on our examination which included test checks, except for the instances mentioned below the Parent and its subsidiary companies incorporated in India have used accounting software systems for maintaining their respective books of account for the financial year ended 31st March 2025, which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems.

Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Parent and above referred subsidiary companies incorporated in India as per the statutory requirements for record retention.

2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/ "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and its subsidiary companies included in the consolidated financial statements to which reporting under CARO is applicable, as provided to us by the Management of the Parent, we report that there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the said companies included in the consolidated financial statements, except to that referred to clause (xi)(b) and (xiii) of the CARO report of the Parent.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as at and for the year ended 31st March 2025, we have audited the internal financial controls with reference to consolidated financial statements of Blue Dart Express Limited (hereinafter referred to as "Parent") and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The respective Company's management and Board of Directors of the Parent and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the internal control with reference to consolidated financial statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Parent and its subsidiary companies which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Parent, its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls with reference to consolidated financial statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to consolidated financial statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us, the Parent and its subsidiary companies which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at 31st March 2025, based on the criteria for internal financial control with reference to consolidated financial statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SCHEDULES

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2025

1. General Information

Blue Dart Express Limited ('the Company') CIN L61074MH1991PLC061074 is engaged in the business of integrated air and ground transportation and distribution of time sensitive packages to various destinations, primarily within India. The Company is a public limited company incorporated in India having its registered office situated at Blue Dart Centre, Sahar Airport Road, Andheri (East), Mumbai, Maharashtra. The Company has its equity shares listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). These consolidated financial statements comprise the financial statement of Company and its subsidiaries (referred collectively as 'the Group').

The Company has following subsidiaries:

Name of the Subsidiary	Ownership Interest
Blue Dart Aviation Limited	100%
Concorde Air Logistics Limited	100%

Blue Dart Aviation Limited (BDAL) was incorporated on May 31, 1994. BDAL is authorised by the Director General of Civil Aviation to commercially operate aircrafts for transporting cargo and to provide aircraft maintenance services. "Express Air Charter Services" income is generated from the charter flight services rendered exclusively to the Company.

Concorde Air Logistics Limited is an International Air Cargo Agent with International Air Transport Association ('IATA') and engaged inter alia in the business of clearing and forwarding of time sensitive air cargo packages.

The Consolidated financial statements were authorised for issue in accordance with a resolution of the directors on May 26, 2025.

2. Basis of preparation of financial statements

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (amended) under the provisions of the Companies Act, 2013 (the 'Act'). The financial statements have been prepared under the historical cost basis except for certain financial assets and liabilities measured at fair value and Defined benefit plans - plan assets measured at fair value (Refer note 30).

The financial statements are presented in Indian Rupees ('INR') in lakhs, which is also the Group's functional currency. The financial statements are prepared on a going concern basis.

Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The areas involving critical estimates and judgements are:

- Estimation of useful life of property, plant and equipment and intangibles (Refer note 3(a))
- Estimation of defined benefit obligation (Refer note 30)
- Estimation of revenue recognised (Refer note 27)

Principles of consolidation

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable return from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

SCHEDULES

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2025

3. Material accounting policy information

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements.

a. Property, plant and equipment

Free hold land is carried at historical cost net of accumulated impairment losses, if any. All other items of Property, Plant and Equipment are at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Capital work-in-progress represents fixed assets that are not yet ready for their intended use as at the balance sheet date.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

Intangible Assets:

Intangible assets are stated at acquisition cost net of accumulated amortisation and accumulated impairment losses, if any. The Group capitalises identifiable costs relating to development of internally generated software and these are stated net off accumulated amortization.

Intangible assets under development comprise costs relating to development of software that are not yet ready for their intended use as at the balance sheet date.

Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset	Useful Life
Leasehold improvements	Over the period of lease
Office Equipments	2 to 10 years (refer note below)
Electrical Equipment	6 to 10 years (refer note below)
Computers	3 to 6 years (refer note below)
Furniture and Fixtures	2 to 10 years
Vehicles	5 to 8 years (refer note below)
Material Handling Equipment	10 to 15 years (refer note below)

Asset	Useful Life
Machinery and equipment	2 to 6 years (refer note below)
Buildings	60 years
Aircrafts	3 to 12 years
Aircraft Components & Overhaul	Over the engine life cycle
Aircraft Rotable Parts	10 years

Note: Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Depreciation for assets purchased/sold during a year is proportionately charged.

Aircraft components and overhaul includes the cost of engines overhaul, components and modifications of airframes owned and contractually liable to be incurred by the Group. Such costs are depreciated / amortised on the basis of hours flown or the life cycle of the overhaul programme, as applicable.

As per technical evaluation, historical experience and standard industry practice prevalent in aviation industry the boeing aircrafts are generally used for a period of 35 years, on the basis of which the unexpired useful lives as on the date of purchase of aircrafts is considered for depreciating the aircraft assets.

Amortisation

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses, if any. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the profit and loss unless such expenditure forms part of carrying value of another asset.

Computer softwares, are amortised under straight line method over the estimated useful life of 5 to 10 years. Internally generated software is amortised using the straight-line method over a period of 10 years, based upon its estimated useful economic life. Type Certification are amortised under straight line method over the estimated useful life 3 to 7 years.

b. Impairment of Non-Financial Assets

The Group assesses at each reporting date whether there is any indication that an asset (tangible or intangible) may be impaired. If any indication exists, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's (CGU) net selling price and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the

SCHEDULES

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2025

asset is considered to be impaired and is written down to its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased then such reversal is recorded in the Statement of Profit and Loss.

c Inventories

Inventories are stated at lower of cost and net realisable value.

Inventories of packing and stationery consumables are valued at cost (arrived at using First-in First-out basis).

Inventory of consumables and loose tools are valued at lower of cost and net realisable value. The cost is calculated at purchase price and expenditure directly attributable to the acquisition of such inventories for bringing them to their present location using the specific identification method.

d. Revenue Recognition

Service Charges:

Group's normal business operations consist of the business of integrated air and ground transportation and distribution of time sensitive packages to various destinations, primarily in India. All income relating to normal business operations is recognised as revenue in the Statement of profit and loss. All other income is reported as other operating income.

Revenue has been recognised when control over the services transfers to the customer i.e., when the customer has the ability to control the use of the transferred services provided and generally derive their remaining benefits. The requirement is that a contract with enforceable rights and obligations exists and, amongst other things, the receipt of consideration is likely, taking into account the customer's credit quality. The revenue corresponds to the transaction price to which the Group is expected to be entitled. Variable consideration is included in the transaction price when it is highly probable that a significant reversal in the amount of revenue recognised will not occur and as soon as the uncertainty associated with the variable consideration no longer exists. The Group does not expect to have contracts where the period between the transfer of the promised services to the customer and payment by the customer exceeds one year. Accordingly, the promised consideration is not adjusted for the time value of money. For each performance obligation under contracts entered for logistic services, revenue is recognised over a certain period of time as determined by the Group.

Business Support Service Income (net of goods and services tax):

Income from Infrastructure sharing services is recognised, as and when such services are rendered, on the basis of an agreed mark-up on costs incurred, in accordance with the arrangements entered into or at the contracted rates.

Other Income:

Interest Income (including Unwinding interest on Lease Deposit):

Interest income is recognised using the effective interest rate method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

Dividend Income:

Dividend income is recognised when the right to receive the dividend is established.

e. Foreign Currency Transactions

i. Functional and Presentation currency

Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian Rupee (INR), which is the Group's functional and presentation currency.

ii. Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in the Statement of Profit and Loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit of Loss, within finance cost. All other foreign exchange gains and losses are presented in the statement of Profit and Loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

f. Employee Benefits

i. Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees

SCHEDULES

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2025

render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Compensated absences:

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the Balance Sheet date are treated as short term employee benefits. The liability in respect of compensated absences of short term nature is determined based on actuarial valuation and is provided on an estimated basis.

ii. Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Statement of Profit and Loss.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of Balance Sheet date are treated as other long term employee benefits for measurement purposes. The Group's liability is actuarially determined (using the Projected Unit Credit Method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise.

The Group presents the leave as a short term employee benefit obligation in the balance sheet to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

iii. Post-employment obligations

The Group operates the following post-employment schemes:

- (a) Defined benefit plans such as gratuity
- (b) Defined contribution plans such as provident fund, super annuation fund, employee's state insurance funds and employee's pension scheme.

Defined Benefit Plans:

Gratuity:

The Group provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972.

The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income (OCI).

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss: Service costs comprising current service costs, past-service costs, gains and losses on curtailments, non-routine settlements; and Net interest expense or income.

Defined Contribution Plans:

Contribution towards Provident Fund for all employees are made to the regulatory authorities, where the Group has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Group does not carry any further obligations, apart from the contributions made on a monthly basis.

Superannuation is classified as a defined contribution scheme of the Group. Contribution due towards Superannuation Fund for eligible employees is made to an insurance company, and the Group has no further obligation beyond making this payment.

The Group also contributes to State plans, namely Employee's State Insurance Fund and Employee's Pension Scheme 1995, and has no further obligation beyond making its contribution.

Group's contributions to the above funds are charged to the Statement of Profit and Loss for the year for which the contributions are due for payment.

iv. Bonus plans

The Group recognises a liability and an expense for bonuses. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

v. Share Based Payment

Employees of the Group receive Stock Options as per the Employee Stock Option ("ESOP") scheme maintained and operated by the Ultimate Holding Company. The expense is recognized in the statement of profit and loss based on a cross charge from Ultimate Holding Company.

SCHEDULES

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2025

g. Leases

The Group assesses at contract inception whether a contract is or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any initial lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

- Building: 2 to 15 years
- Motor Vehicles and other equipments: 1 to 5 years

The right-of-use assets are also subject to impairment assessment. Refer to the accounting policies in section 3(b) Impairment of non-financial assets.

Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable.

In calculating the present value of lease payments, the Group calculates its incremental borrowing rate by using the Government's Zero coupon yield rates adjusted for the financial spreads for AA rated bonds at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term.

The Group's lease liabilities are included in Other Financial Liabilities.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of buildings, equipments (i.e., those

leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of equipments that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a systematic basis, which reflects the pattern of lessee's benefit, i.e., on an as and when basis.

h. Income Taxes

Income tax expense comprises current and deferred tax. It is recognised in Statement of Profit and Loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income(OCI).

Current tax

Tax expense for the year, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the year. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the provision of The Income Tax Act, 1961.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts and it is intended to realise the asset and set off the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets or liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are subsequently reversed when it becomes probable that such assets will be realised.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other

comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

i. Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per contractual terms. Trade and other payables are presented as current financial liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

j. Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated.

Provisions are measured at present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value pre-tax rate that reflect current market assessment of the time value of money and the risk specific to the liability.

k. Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

l. Cash and Cash Equivalents

In the cash flow statement, cash and cash equivalents include cash in hand, cheques in hand, demand deposits with banks and other short-term highly liquid investments with original maturities upto three months adjusted for bank overdrafts, if any. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

m. Trade receivables

Trade receivables are recognised initially at transaction price.

n. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial assets

i. Classification

The Group classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

ii. Initial recognition and Measurement

All financial assets are recognised initially at fair value including, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

iii. Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss.

Debt instruments included within the fair value through profit and loss (FVTPL) category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

SCHEDULES

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2025

iv. Derecognition

A financial asset is derecognised only when:

- (i) The Group has transferred the rights to receive cash flows from the financial asset or
- (ii) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v. Impairment of financial assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments and are measured at amortised cost e.g., loans, debt securities, deposits and bank balance
- b) Trade receivables

The Group follows 'simplified approach' for recognition of impairment loss allowance on:

- i) Trade receivables which do not contain a significant financing component
- ii) All lease receivables resulting from transactions

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a

significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

B. Financial liabilities

i. Classification

The Group classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through Statement of Profit and Loss. Such liabilities, including derivatives that are liabilities, are subsequently measured at fair value.

ii. Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

iii. Financial liabilities at fair value through Statement of Profit and Loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as fair value through Statement of Profit and Loss (FVTPL), fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to Statement of Profit and Loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Statement of Profit and Loss. The Group has not designated any financial liability as fair value through Statement of Profit and Loss.

SCHEDULES

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2025

iv. Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognized.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

v. Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

vi. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

o. Fair value measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that

is significant to the fair value measurement as a whole) at the end of each reporting period.

p. Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the net profit attributable to owners of the Group
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year, if any and excluding treasury shares (Refer note 34).

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares. (Refer note 34).

q. Segment Information

The Group has only one operating segment, which is integrated air and ground transportation and distribution. All assets of the Group are domiciled in India and the Group earns its entire revenue from its operations in India. There is no single customer which contributes more than 10% of the Group's total revenues. (Refer note 47).

r. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule III of the Act.

3.1 Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. MCA vide notification G.S.R. 291(E) dated 07 May, 2025, has amended Ind AS 21 "The Effects of Changes in Foreign Exchange Rates" to provide guidance on accounting for situations where exchangeability between currencies is lacking. The amendment is applicable for annual reporting periods beginning on or after 01 April, 2025.

The amendment sets out criteria for assessing whether a currency is exchangeable and, where it is not, prescribes how an entity should estimate the spot exchange rate. The amendment also requires disclosures to enable users of the financial statements to understand the impact of any such lack of exchangeability on the entity's financial position, performance, and cash flows.

The Group does not expect these amendments to have a material impact on its financial statements.

Nature and purpose of reserve:

Securities Premium

Securities Premium is used to record the premium received on issue of shares. The reserve can be utilised only in accordance with the provisions of the Act.

General Reserve

Under the erstwhile Companies Act 1956, General Reserve was created through an annual transfer from net profit after tax at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that in a year in which dividend distribution is more than 10% of the paid-up capital of the Company, then the total dividend distribution is lower than the total distributable profits for that year.

Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies the Act, 2013.

d) Significant Judgement and Estimates

The allocation of the transaction price over timing of satisfaction of performance obligation:

As per the revenue recognition standard Ind AS 115 revenue has been recognised when control over the services transfers to the customer i.e., when the customer has the ability to control the use of the transferred services provided and generally derive their remaining benefits.

The revenue from logistics service is recognised over a period of time. The Group has recognized the revenue in respect of undelivered shipments to the extent of completed activities undertaken with respect to delivery. The Group has taken incurrence of cost incurred at stages of delivery (First mile, Network and Last mile) as base to identify the percentage of service completion in respect of undelivered shipments as at year end. At year end, the Group, based on its tracking systems classifies the ongoing deliveries into stages of delivery and applies estimated percentages as calculated above to recognise revenue.

- D) i) Valuations in respect of Gratuity has been carried out by an independent actuary, as at the Balance sheet date, based on the following assumptions:

	As at March 31, 2025	As at March 31, 2024
Discount Rate and Rate of Return on Plan Assets (per annum)	6.98% / 7.05% / 6.92%	7.22% / 7.21%
Rate of increase in Compensation levels (Refer note below)	7.75%	7.75%
Attrition rate	1%	1%

Note: The estimates of future salary increases, considered in actuarial valuation, takes into account, inflation, seniority, promotions and other relevant factors, such as demand and supply in the employment market.

ii) Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	Impact on defined benefit obligation (In ₹ Lakhs)			
	As at March 31, 2025		As at March 31, 2024	
	Increase	Decrease	Increase	Decrease
Discount rate (0.5 % movement)	(1,199)	1,312	(1,096)	1,198
Rate of increase in Compensation levels (0.5 % movement)	1,296	(1,197)	1,186	(1,095)
Attrition rate (0.5 % movement)	(92)	97	(60)	64

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

iii) Percentage of each category of Plan Assets to total Fair Value of Plan Assets

The Plan Assets are administered by Life Insurance Corporation of India ('LIC') as per Investment Pattern stipulated for Pension and Group Schemes Fund by Insurance Regulatory and Development Authority ('IRDA') regulations.

35 LEASES

The Group has lease contracts for various items of Buildings, Vehicles and Aircrafts used in its operations. Leases of buildings generally have lease terms between 2 and 15 years, Leases of aircraft generally have lease terms between 6 to 7 years, while vehicles generally have lease terms of 5 years. The Group's obligations under its leases are secured by the lessor's title to the leased assets.

The Group also has certain leases of buildings with lease terms of 12 months or less and leases of office equipment with low value. The Group applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Refer note 4 for carrying amount of right-of-use assets recognised and the movements during the year.

The maturity analysis of lease liability is disclosed in note 39(iii).

The effective interest rate for lease liabilities is from 4.93 % to 8.68 %, with maturity between 2025-2033.

Rent concession

The Group has applied the practical expedient in paragraph 46A of IndAS 116 to all rent concessions that meet the conditions of in paragraph 46B of IndAS 116. An amount of ₹ Nil (Previous year- ₹ Nil) has been netted off against rent expenses in Statement of Profit and Loss account for the year ending March 31, 2025 to reflect changes in lease payments that arise from rent concessions to which the lessee has applied practical expedient in paragraph 46A.

Fair Value Hierarchy:

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

- (a) recognised and measured at fair value and
- (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed in Ind AS 113 - Fair Value Measurement. An explanation of each level follows underneath the table.

Financial assets and liabilities measured at fair value - recurring fair value measurements

in ₹ Lakhs

		Carrying amount					
		As at March 31, 2025			As at March 31, 2024		
		Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial assets							
(i) Investments	(Note 9A)	38,578	-	-	30,728	-	-
		38,578	-	-	30,728	-	-

Level 1: It represents units of mutual funds measured using the closing Net Asset Value (NAV).

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. The fair value forward foreign exchange contracts is determined using forward exchange rates at the Balance Sheet date.

Level 3: If one or more of the significant inputs is not based on observable market data (Security Deposits), the instrument is included in level 3. The fair value of the security deposits with definite maturity period is determined using discounted cash flow analysis using an adjusted lending rate.

There are no transfers between level 1, level 2 and level 3 during the year.

Assets & Liabilities which are valued at amortised cost for which fair value are disclosed

in ₹ Lakhs

	Note	Carrying Amount	Fair Value
Financial assets			
Deposits			
As at March 31, 2025	5 and 14	11,541	9,576
As at March 31, 2024	5 and 14	10,992	9,398

Note 1: The carrying value of Trade receivables, Loans, cash and cash equivalents, other bank balances, other financial assets, trade payables, lease liability and other financial liability are considered to be the same as their fair values due to their short term nature.

Note 2: Difference between carrying amounts and fair values of loans, deposits, other non-current financial assets measured at amortised cost is not significantly different in each of the year presented.

Note 3: Term Loans and Bank Overdraft are taken at interest rates which are subject to reset periodically considering the then market trend and hence the carrying amount is not materially different from their fair values.

39 FINANCIAL INSTRUMENTS – FAIR VALUES AND RISK MANAGEMENT (CONTINUED)

Financial Risk management

i) Risk management framework

The Group's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Group's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Group's risk assessment and policies and processes are established to identify and analyze the risks faced by the Group to set appropriate risk limits and controls and to monitor such risks and compliance with the policies and processes. Risk assessment and policies and processes are reviewed regularly to reflect changes in market conditions and the Group's activities. The Board of Directors and the management is responsible for overseeing the Group's risk assessment and policies and processes.

SCHEDULES

Notes forming part of the Consolidated Financial Statements as at and for the year ended March 31, 2025

ii) Credit Risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. The Group establishes an allowance for doubtful debts and impairment that represents its estimate of expected credit loss in respect of trade and other receivables and investments. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables. An impairment analysis is performed at each reporting date on an individual basis for major parties. In addition, a large number of minor receivables are combined into homogenous categories and assessed for impairment collectively. The calculation is based on historical data of actual losses.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry in which the customer operates also have an influence on credit risk assessment.

Concentrations of credit risk with respect to trade receivables are limited, due to the Group's customer base being large and diverse and also on account of realisation of receivables within six months. All trade receivables are reviewed and assessed for default on a regular basis.

Our historical experience of collecting receivables, supported by the level of default, is that credit risk is low.

Cash and cash equivalents

The Group held cash and cash equivalents with credit worthy banks amounting to ₹ 16,089 Lakhs and ₹ 14,289 Lakhs as at March 31, 2025 and March 31, 2024 respectively. The credit worthiness of such banks is evaluated by the management on an ongoing basis and is considered to be good.

Bank Balance other than above and current investment

The Group has invested ₹ 38,578 lakhs (Previous year- ₹ 30,728 lakhs) in unquoted investments of credit worthy mutual funds and Other bank balances of ₹ 1 lakhs (Previous year - ₹ 7 lakhs). The credit worthiness of such mutual funds is evaluated by the management on an ongoing basis and is considered to be good.

Security deposits given to lessors

The Group has given security deposit to lessors for premises leased by the Group as at March 31, 2025 and as at March 31, 2024. The credit worthiness of such lessors is evaluated by the management on an ongoing basis and is considered to be good.

iii) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Group's reputation.

The Group has access to funds through various debt instruments option.

As of March 31, 2025, the Group had working capital of ₹ 18,554 Lakhs including inventories of ₹ 5,153 Lakhs, cash and cash equivalents of ₹ 16,731 Lakhs including other bank balances, trade receivables of ₹ 78,609 Lakhs, other assets of ₹ 49,855 Lakhs, provision - employee benefit obligation of ₹ 13,407 Lakhs, trade payables of ₹ 68,452 Lakhs and other liabilities of ₹ 49,935 Lakhs.

As of March 31, 2024, the Group had working capital of ₹ (20,508) Lakhs including inventories of ₹ 5,183 Lakhs, cash and cash equivalents of ₹ 16,624 Lakhs including other bank balances, trade receivables of ₹ 67,043 Lakhs, other assets of ₹ 39,737 Lakhs, provision - employee benefit obligation of ₹ 14,813 Lakhs, trade payables of ₹ 60,732 Lakhs and other liabilities of ₹ 73,550 Lakhs.

Total	1,89,793	2,04,788	1,35,767	22,989	39,893	6,139

iv) Market risk

Market risk is the risk of loss of future earnings, fair values of future cash flows that may result from adverse changes in market rates and prices (such as interest rates and foreign currency exchange rates) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt. The Group is exposed to market risk primarily related to foreign exchange rate risk and interest rate risk. Thus, the Group's exposure to market risk is a function of investing and borrowing activities and its revenue generating and operating activities.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest rate sensitivity - fixed rate instruments

The Group's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk since neither the carrying amount nor the future cash flow will fluctuate because of a change in market interest rates.

Interest rate sensitivity - variable rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased / decreased equity and profit or loss by amounts shown below. This analysis assumes that all other variables, in particular, foreign currency exchange rates, remain constant. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The year end balances are not necessarily representative of the average debt outstanding during the period.

b) Currency risk

The fluctuation in foreign currency exchange rates may have potential impact on the Statement of Profit and Loss account and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the entity.

Considering the countries and economic environment in which the Group operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in U.S. dollar and Euro, against the functional currency of the Group.

Exposure to currency risk

The summary quantitative data about the Group's exposure to currency risk as reported to the management of the Group is as follows:

44 CAPITAL MANAGEMENT

The Group's objective for Capital management is to maximise shareholder's value and support the strategic objectives of the Group. The Group determines the capital requirements based on its financial performance, operating and long term investment plans. The funding requirements are met through operating cash flows generated.

The Group monitors capital using a ratio of 'Adjusted net debt' to 'equity'. For this purpose, adjusted net debt is defined as total borrowings, comprising term loan from financial institution and Bank, less cash and cash equivalents. Equity comprises all components of equity. Debt equity ratio as at March 31, 2025 is 0.07 and as at March 31, 2024 is 0.10.

47 SEGMENT INFORMATION

The Group has only one operating segment, which is integrated air and ground transportation and distribution. All assets of the Group are domiciled in India and the Group earns its entire revenue from its operations in India. There is no single customer which contributes more than 10% of the Group's total revenues.

- 48 In the previous financial year, the Group had identified an incident of fraud, involving an employee, who had taken undue favours from certain customers and channel partners and collected short amounts from them against invoices raised. The short amount collected of ₹ 731 lakhs was accounted as TDS receivable in the books, which had been rectified and reinstated to respective customers' accounts as on March 31, 2024. The company initiated recovery proceedings including filing of recovery suits against the defaulting parties and collected ₹ 382 lakhs as on March 31, 2025.

The Group has also implemented certain controls in the systems and processes to prevent future occurrence of such event.

The management has been informed that a report under sub-section (12) of section 143 of the Companies Act has been filed by the statutory auditor in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government during the year.

- 49 i) The Group has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:
- a) Directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries) or
 - b) Provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries.
- ii) The Group has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Group shall:
- a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or
 - b) provide any guarantee, security or the like on behalf of the ultimate beneficiaries.
- iii) The Group do not have any Benami property, where any proceeding has been initiated or pending against company for holding any Benami property.
- iv) The Group do not have any charges or satisfaction which are yet to be registered with ROC beyond the statutory period.
- v) The Group have not traded or invested in Crypto currency or virtual currency during the financial year
- vi) The Group do not have any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as survey or survey or any other relevant provisions of the Income Tax Act, 1961)
- 49 a) The Group has used accounting softwares for maintaining its books of account for the year ended March 31, 2025 which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the softwares. Additionally audit trail has been preserved by the Group as per the statutory requirements for record retention.

50 Events after the reporting period

The Group has evaluated subsequent events from the balance sheet date through May 26, 2025 the date at which the financial statements were available to be issued, and determined that there are no material items to be discussed other than those discussed above.
